LITTLE TO DO.
SARNIA, Nov. 16.—The medical ex-
amining board at the local armory is
having an easy time. The only men
they can examine now are those sent
to them by the tribunals who need an-
other examination or those who have
not yet been examined. For the past
few days there have been only two
or three young men each day to examine.

CITY'S IMPORTATION OF POTATOES WILL LOWER LOCAL PRICE

This Is Expectation Expressed
On Local Market.

There was no particular feature of a largely attended market this morning. Vegetables were plentiful and sold in wholesale quantities and in good demand. Cabbages, carrots, turnips and onions appeared in the usual abundance and sold at the usual demand, which is always of a brisk nature. Potatoes are selling at \$2 to \$2.10. The number of bags to be obtained on the square is decreasing slightly, which accounts for the advanced price recorded for spuds during the past four days. According to reports Controller Shaw in co-operation with the city council, will import two carloads of potatoes for the public next week. Authority for the importation will be given by the council at the next meeting. It is understood that the sudden influx of potatoes on the market will substantially decrease the price is the opinion of market officials.

It is expected that the price for the vegetables will be around the \$1.60 mark and the cost of the local spuds will not doubt descend to the value of the imported potatoes, all over the district. The initial seasonal appearance of barley occurred Friday when one load was offered and sold immediately at \$1.30. This quotation does not represent the standard price of barley, but owing to the small quantity that appeared. Oats in good demand at the lower price registered Friday morning. Hay is becoming scarce. The market for live hogs has taken on the aspect of firmness. During the past month live hogs fluctuated in price to such an extent that the den- den firm condition of the market is considered as something unusual. During the morning over 400 pounds of poultry were weighed on the city scales, the average weight of each bird being four and one-quarter pounds. The chickens were bought up at a fast rate by wholesale dealers at from 34c to 36c per pound.

Taking it on an average, the past week of trading on the local market was a poor one, Saturday being the only period of brisk trading and competitive buying. Butter and eggs are firm and in the best demand. Butcher's meats remain unchanged in price and sell at a fair rate. Fruit is a scarce article nowadays on the market, the only small fruit, the least plentiful, being apples. The demand for apples is good despite the high prices, and many barrels of apples sell as high as \$7.
