### BLYTHE WROTE POEM MORALIZING ON CRIME

"Conscience Tells Me Every Mement it Can Never Be Undone" Say Condemed Man in Verse.

NIAGARA FALLS, N.Y., July 9 .-NIAGARA FALLS, N.Y., July 9.—
The following verses were written by Walter Blythe, who is in Toronto Jail, under reprieve for the murder of his wife, a few months ago. Blythe was preparing for his death on the morrow when the news was brought to him that he had been granted a repriese until October. He turned from prieve until October. He turned from a letter which he was writing and ex-

pressed himself in verse. Blythe had made friends with one of his fellow prisoners while exercis-ing in the yard. He asked the governor to give his friend the verses as a parting token. The released prisoner made his way to this city. On the scraps of paper given to him

by the condemned man are written these lines: Reflections of Walter Blythe-As I sit beneath the shadows

Of the gallows in the jail, Guarded by the kindly deathwatch Knowing nothing can avail; How my memory rushes backward To the girl whose heart I won, To the bonds of happy wedlock That could never be undone. How my brain reels at the memory

Of those happy, following years, Blest with those sweet little children, Motherhood that knew no tears Who would think to see that father a life so well begun, Would soon suffer for an action That could never be undone?

To my eyes no peaceful slumber, Quivering heart that wakes

As I cry "Oh-God in heaven, Is it true I did that deed? Oh-the plea she made for mercy In my frenzied wakenings run With the words of Justice Riddell It can never be undone.

As I watch my time expiring, Just another day to spare.

I am thinking of those children-Those sweet children over there. If the history of my hanging their spirits crush and stun

Could it ever be undone? I am looking for no mercy Save from God, who can relieve; I had hoped for no commutation, But I want no more reprieve. I hope it may be possible, Thru Christ, His only Son,

That somehow in eternity It may be all undone. Without one ray of earthly hope, Without one pitying friend, The minister of justice says: You showed no mercy to your wife, The law can show you none. The cruelty of your awful deed

As I sit and wait for Radcliffe will say my last farewell: I advise you, give up liquor Evil thoughts and bad companions You'll be guilty of no action

I was doomed to die to-morrow, But the news has just been 'phon

"Blythe will have till October, Execution is postponed. The my life has been extended. The the law its course outrun Conscience tells me every moment It can never be undone.

The Anniversary of Waterloo.

From The London Chronicle.

If nothing else perpetuates the memory of Waterloo it will be the little ceremony which on every anniversary of the great battle has to take place at Windsor. That is 10 say, the Duke of Wellington for the time is bound, as the condition of his tenure of Strathfieldsaye, to present to the sovereign of these realms a little French flag—a tri-color—which is then hung up over the Iron Duke's bust in the guard-room, over against that of the Duke of Marlborough, whose living representative must perform corresponding feudal service with a French royalist flag on the 18th of August, the anniversary of Bienheim.

"From now on, conditions will stead—lly improve. No. 3 will likely start to-morrow, and by Monday we hope to have the average output from this No. 1 to-day, which is about the average number, and to-morrow I look to see more men coming into every with a real state of the average output from this norm of the average output from this oblieve, which is about the average number, and to-morrow I look to see more men coming into every to see more men coming i The Anniversary of Waterloo.

output figures have not been seriously questioned.

An output of 1500 tons could only be
produced by a gang of workmen numbering at least 500 under present conditions. Workmen are of three classes,
overground laborers, underground laborers and miners, the latter the cutters. It requires one laborer to attend to one cutter, and one laborer above to attend to the coal raised by each two cutters working below. With 250 cutters working there would necessarily have to be 250 laborers and 125 surface men, making a total of 625 men.

would have to hustle to cut 1500 tons, so it is reasonable to assume that the so it is reasonable to assume that the company's claim, supported as it is by that of Grand Secretary Monatt of the P.W.A. is pretty near the truth. The pits closed down, or practically so at the present time, are No. 2, 3, 6, 7 and 9. Other pits are not being worked to their full capacity, however, with the exception named.

Big Pile in Bank.

One fact is the presence at No. 2 of a very large supply of coal in the bankhead. How much there is nobody appears to know, but it must be in the vicinity of 250,000 tons. At the beginning of the shipping season the company had banked at No.'s 1 and 2 and the International 280,000 tons. Its policy is against using its banked coal to any great extent, under this park-avenue and east to Wilnormal conditions, so it must still To-pight General Manager Duggan told your correspondent that the com-pany absolutely refused to consider

To-pight General Manager Duggan told your correspondent that the company absolutely refused to consider any proposition involving recognition of the U.M.W. The company claims that this is the only question in dispute. Every indication points to a preparedness on the part of the company to stand a long strike.

The Coal Company has a strike clause in all its contracts preventing any loss by reason of failure on its part to carry out its contracts.

A determined effort is being made by the civic authorities to have the soldiers returned to Halifax. The conference to-day between Gen. Drury and Mayor Douglas did not result in a solution of the problem. It is likely that to-morrow Judge Finlayson, who signed the requisition for the soldiers, will be asked to give his reasons before
