Dos 29TH YEAR

# JOHN DRYDEN

Great Agriculturist and Stock Breeder, Minister in Reform Cabinet, Baptist Church Leader, After Year's Illness Passes Away.

"Honest" John Dryden passed away at his residence, 9 Prince Arthur-avenue, yesterday evening. Very few outside his immediate circle were aware of his illness, tho he has been in failing health for about a year, and his death will be a mournful surprise to

death will be a mournful surprise to thousands who will remember the quiet, genial man of the blue-eyed smile and the pleasant, fresh-air, country atmosphere which he bore about.

The farmers of Canada, and especially the stock-breeders, and of these, more especially still, the Shorthorn men, lose in Hon. John Dryden, a wise and practical and experienced adviser and friend, and one who had their interests close at heart. Among varied business and political and educational and church interests Mr. Dryden never lost sight of his farmer comrades.

Mr. Dryden's death occurred as the result of acute anaemia which had result of acute anaemia which had it of acute anaemia which had developing for some time past. been developing for some time past, been developing for some time past, the funeral ceremonies in Toronto will be of a private character. A service will be held at the residence to-morrow afternoon at 3 o'clock.

The final service will take place at his birthplace, Maple Shade farm, Brooklin, Ontario County, on Sunday afternoon, and interment at the Baptist burying ground there.

Premier's Tribute.

Premier's Tribute.

The news of Hon. Mr. Dryden's death was conveyed to Sir James P. Whitney by The World last night. The premier said: "I am very sorry indeed to learn of Mr. Dryden's death. I knew of his illness, but was not aware that his condition had become so critical, so that the news of his death comes more or less as a shock to those who were

by the people of the province as a Senator Ross expressed his personal prow at the loss of his old comrade, and dwelt upon the great interest that

Mr. Dryden always took in the farmers Hon. John Dryden was born at Maple Shade Farm, on June 5, 1840. He was the son of James Dryden, who emigrated from Sunderland, England, and set-tled at Maple Shade Farm in Whitby

The late Mr. Dryden was educated at the local schools and adopted agriculture as his avocation. He became an enthusiastic leader in breeding high

class cattle and sheep.

He entered public life as a member of the municipal council in 1863 and served as deputy-reeve and reeve, voluntarily retiring after seven years. He became a member of the Ontario Legislature, representing South Ontario in 1879. In Sept. 1890, he became minister of agriculture, which portfolio he held intil the change of administration in 1905, when he was defeated by C.

Commissioners to Irland. The Dominion Government availed itself of Hon. Mr. Dryden's knowledge of agricultural affairs by appointing him in 1906 commissioner to Ireland which position he held about two years, but relinquished owing to falling health. Since that time he has been a resident of Toronto.

Among the public positions which he has held were: President Reliance Loan and Savings Co. of Ontario; President International Shropshire Sheep-breeders' Association of the United States and Canada, and President Doinion Shorthorn Breeders' Associa-

Yet which is nine bushels of the acre.

No formal request is thrashing out 27 bushels to the acre.

No formal request is thrashing out 27 bushels to the acre.

No formal request is thrashing out 27 bushels to the ac from the west, the price of wheat is gradually falling. Sales were made

President Taft Compels Conferees To Revise Rates Downward and Bill Will Go To Congress

To-day. WASHINGTON, July 29 .- The Payne-Aldrich tariff bill to-night stands completed. An agreement on all disputed points was reached this afternoon, and at 4.55 p.m. the conference report was signed by the Republican conferees. It will go to the house to-morrow and be voted on by that body on Saturday, The senate will begin consideration of

the measure as agreed to by the coaferees on Monday. Halted by Taft. Halted by the mandate of President Taft, the tariff conferees were comielled to turn back and revise their rates on lumber and gloves. In a comnunication to Senator Aldrich and Remunication to Senator Aldrich and Representative Payne, the president demanded that the high rates on gloves, as fixed by the house, and the high rates on lumber, as fixed by the senate, should not be made a part of the conference report.

After struggling over these questions the conference day the conference services day the se

BREAD TO FEED BRITAIN

25 MILLIONS CAPITAL

After struggling over these questions through the entire day, the conferees surrendered to the president's view and signed the report. The report will go to the house to-morrow at noon, and will be ordered to be printed. The house may be called to meet at 10 o'clock on Saturday, for it is the direction of the leaders that the report tention of the leaders that the report shall be pushed thr uin one legislative day. Probably a week will be required to dispose of the conference report in

the senate. When the conferees fixed lumber and gloves rates yesterday by shading very slightly the higher rates on each, they were so certain the president would consent to the arrangement that notices were sent to the Democratic me bers of the conference committee to be present at 10 o'clock to-day to ap-

that lumber should not be more than \$1.25 per thousand feet for rough, with Application has been made to Ottawa the differentials fixed by the senate are the same as the Dingley rates and much less than the house rates, would have to be adopted in order to obtain

Not content with issuing an injunction against higher rates on these arti-cles, the president specified that hides must go on the free list, and the house rates on boots and shoes and other manufactures of leather reduced. Hosiery, too, he thought, should be re-duced below the house rates, which were advanced over the Dingley rate.

No Compromise Here.

There was no opportunity to compromise on gloves. The president said the rates must not be advanced beyond the figures named by the senate bill, which are the same as the existing duties except for the fact that Schmasen gloves were reduced by the senate from \$1.75 a dozen to \$1.25. Altho the house conferees insisted dure ing the greater part of the day that these rates would endanger the pasing the greater part of the day sage of the conference report thru the house, they nevertheless were adopted. On lumber some concessions were made, in spite of the fact that the pre-sident's instructions were complifed with to the letter. Rough lumber was made dutiable at \$1.25 per thousand feet; finished on one side, \$1.75; finished or two or one side planed or tongued and grooved, \$2.15; finished on three sides, \$2.52 1-2, and finished on four sides, \$2.90.

To conciliate Senators Piles and Jones the conferees adopted the senate rate of 50 cents a thousand on shingles, instead of the house rates of 30 cents. In order to obtain the support of Senator Heyburn, the industries of whose state had been assailed thru the abolition of the duty on hides, the reduction in the duty on lumber and the reduction in the differential on pig lead in bars, the latter schedule was recor

Idaho senators this subject was re-opened to-day and a rate of 2 1-8 cents a pound on pig lead in bars was re-

in putting hides on the free list, a con-cession also was made to the cattle industry to-day by taking tallow off the free list, where it had been placed by the conferees, and restoring it to the dutiable list. Tallow had been put on the free list

Tallow Off Free List.

In view of the action of the conferees

conferees to-day makes it dutiable at 1 1-2 cents per pound.
The rates on hoslery were fixed by increases of about 20 per cent in grades valued at \$1, \$1.50 and \$2 a dozen pairs. This is an increase over existing rates, but a material decrease from the advances made by the house. On all vances made by the house. On all other values of hosiery the Dingley rates, which had been re-enacted by
