management. The shaft has now been sunk to 150 foot level and drifts have been carried east and west, exposing about seven-teen veins, most of which show very and BONDS ted on New York, M. nd Teronto Excha high values. The Henderson vein, from which the rdan Street.

The Henderson vein, from which the Mann Company have bagged a large quantity of ore, has not yet been touch-ed on the Boyd Gordon property. This is very wide and runs high in silver values, and it is altogether likely that work will be commenced on this vein under the present management, which there are a single the present management.

SATURDAY MORNING

La Rose was another weak spot, los-ing 10 points at \$3.85, and closing be-low that figure. Little stock came out on the way down, but there was prac-tically no demand in evidence. Tre-thewey lost some 5 points at \$1.21½. Kerr Lake sold off to \$7.70. In the lower priced stocks, Timis-kaming sold down to 60, while Beaver was also fractionally lower. Other cheaper issues were about unchanged, with no great activity in any section.

**BUFFALO GAPITALISTS** 

Will Visit Boyd-Gordon Property-

Competent Engineer

Taken Along.

A party of Buffalo capitalists left on last night's train for Gowganda, par-ticularly to visit the Boyd Gordon Min-ing Company's property. They were accompanied by a competent engineer, who will report as to the future course to be pursued for the proper develop-ment of this property under the new management.

Cobalt-- Lower Levels Registered by -- Cobalt Higher Priced Mining Stocks -- Cobalt **High Priced Cobalts Affected** G.P.B. A LEADER By Slumps in Wall St. Stocks Nipissing, La Rose and Kerr Lake All Sell Lower-Cheaper Issue Hold Fairly Steady. July 21. Ask. Bid. 161/2 ... World Office, Friday Evening, July 22. The local mining markets were af-fected by the big décline in Wall Street securities to-day, and values of the Co-day in several instances. It was in the higher priced Cobalts that the most weakness occurred, this department of the exchange sagging heavily in sympathy with New York. Mipissing was the mark for liquid-ating pressure and fell back 25 points to \$10.35, when the stock was forced for the day, then no stock was on offer under \$10.50. La Rose was another weak spot, los-PRICE OF SILVER. do, preferi lack Lake 281/2 26

IN THE DECLINE

Continued From Page 14.

20,000 Shares Calcite Lake Mining Co. Stock at 50c per Share

This is the first time this stock has ever been offered to the public. Approximately 125,000 shares of Treasury Stock have been sold, the proceeds being expended on the property. The shaft is now down 120 feet, and good ore has been found from 70 feet to 120 feet. Two important veins, twelve and four inches respectively, carrying high grade ore, were located at the 110 foot level when cutting out that station. These veins are being worked, and good ore is being taken out every foot. Part of a carload of high grade is now sacked, and high grade ore is being sacked every day. Some of this ore will run as high as eight thousand ounces to the ton.

We have a letter from the Superintendent at the Mine, dated July 18th, 1910, reporting a new strike at the 110 foot level of an 8 inch vein carrying about six thousand ounces to the ton of native silver.

We consider the receipts from the sale of this allotment of 20,000 shares will furnish sufficient capital to carry on the work until we are in receipt of returns from the first shipment of ore, which we contemplate will be in the early part of September.

### Property is open for inspection

The property consists of approximately 80 acres located on the east shore of Calcite Lake, and about six miles east from the east shore of Gowganda Lake it is equipped with good steam plant.

## It it is not a prospect---it is a mine

Capitalization of the Company is \$1,000,000.00, 1,000,000 shares, par value \$1.00 each, divided as follows:-599,995 shares being Treasury Stock, 400,000 shares being issued as payment in full for the proserty.

Five shares issued to provisional directors at the time of incorporation.

Total issued including this issue is less than 575,000 shares. Copy of the Company's Prospectus can be seen at the Bureau of Mines De-partment, Toronto, or at Company's Office.

Applications will be filed in order of reception at the Head Office of the Company. All cheques must be made payable to the Calcite Lake Mining Co., Limited.
