ASKS FOR ALIMONY

Mrs. Cawthra Mulock Will Move That Amount Be Fixed.

Judgment awarding Henry Hope \$1202.85 and costs against the Canada Foundry Company was given out at Osgoode Hall vesterday afternoon by Justice Latchford. The action was over a quantity of steel sash ceilings which the plaintiff claimed the foundry contracted for. The sashes cost \$340 each and the total price was to be \$2040. When the major portion of the contract was completed the defen-dant company canceled the order and refused to pay for the goods. The defence was that a sub-con-tract was made with Hope to supply

tract was made with Hope to supply the sashes to a company known as P. Lyall & Sons, and gave as their reason for canceling the order that the sashes were not delivered within the time stated in the agreement.

They also asked that should the court hold them responsible for the breach of contract a counter-claim be allowed against the Lyall company for the amount awarded Hope. His lordship dismissed this claim with costs.

Motion will be made on Monday morning by counsel on behalf of Mrs. Adele Baldwin Mulock for judgment for alimony against her husband, Cawthra Mulock, with a reference to fix the amount.

the amount.

The parties were married in June, 1903. Mrs. Mulock asks \$3000 interim alimony. The husband in his statement of defence states that he is willing and ready to pay such alimony as the court may direct, taking into account the large sums settled upon and given to the plaintiff.

FOREIGN MISSIONS REPORT ADVANCES

Presbyterian Board Concludes Labors After Sessions Lasting Three Days.

WAR TAKES THE MEN

This Year's Appointees to Field Are All of Opposite Sex.

At the semi-annual meeting of the Presbyterian Foreign Mission Board, which just closed after three days' session, delegates from all over the Dominion were present, including the moderator of the general assembly, Rev. Principal Baird, Winnipeg.

The board presented a most optimistic financial report, which showed a balance of \$21,333 on the 1916 account, considering the increase in the cost of the Chinese missions, the reason being the high rate of exchange, making the Mexican dollar worth 63 cents, whereas in normal times it was only 50 cents.

That women are supplanting the

That women are supplanting the young men in the foreign missions field was quite evident in the report, there being only lady candidates appointed, while all the men are on war service. The following are ap-

Pyke, for many years in Hon-an, but for a few years past working amongst the Chinese in Vancouver, is returning to Honan, China.

Men on War Service.
That fifteen young men of the Honan staff have left for Europe to enter upon war service was also stated at the meeting. In the report of the eighty overseas missions the predominating note was the wonderful change of the Asiatics in the feeling towards the missionaries. They said that the war has advanced missions in India by ten years. To illustrate that the old suspicion is disappearing it was stated that three wealthy Chinese offered George W. MacKay,

missionary, \$9000 for the erection

of a high school. The board was pleased to find the Dominion Government is contemplating an amendment of the Chinese immigration law so as to admit Chinese students to Canadian colleges without head tax. Heretofore these students all went to the United States, and now it is hoped Canada will also receive some of these bright men.
