NO ACTION ON BILL FOR CURRENT

N. B. Commission Has Not Received Council's Revised Offer.

The New Brunswick Electric Power Commission met this morning but only routine business was dealt with, it was said after the meeting. When asked if the offer of the city to pay a part of the bill rendered by the commission for current from May 1 had been under consideration it was stated the revised offer as passed by the council yesterday, had not been received and therefore no action was taken.

SEMI-CONSCIOUS AT THE HOSPITAL

George Gallant was Struck by Street Car in St. James Street.

George Gallant, 78 Britain street, was struck by a street car on St. James street, this morning about 12:25 and badly injured about the head. The motorman, Frank Phelan, said he noticed the man standing on the roadway and just as the car came up to him he gave a lurch. The car was brought to a quick stop and the ambulance summoned by policeman service to carry him to the hospital. After placing his car in the barn the motorman proceeded to police headquarters and made a statement to Detective Kilpatrick.

At two o'clock this afternoon the injured man's condition was reported to be about the same. He was still semi-conscious and the full extent of the injuries had not been ascertained.

WENT ON ROCKS OF PARTRIDGE ISLAND

Port Physician's Boat Struck—Had to Carry Passenger Ashore.

Dr. R. T. Rutherford, port physician, had a rather unpleasant experience on Wednesday evening but one which fortunately had no serious consequences. He was returning to the island from the city in a motor boat and when near the landing the engine stopped. This placed the boat at the mercy of the waves and wind. She drifted on the rocks and Dr. Rutherford was forced to carry a young lady passenger ashore through about four feet of water. Later the boat was towed off the rocks and taken to the landing, little the worse for her stay ashore.

DR. STEINMETZ DEAD; FAMED IN ELECTRICITY

Physical Breakdown of Noted Man After Trip to Pacific.
Scheneectady, N. Y., Oct. 26.—Dr. Charles Proteus Steinmetz, electrical wizard, died at his home here today. The cause was given as a physical breakdown due to a trip to the Pacific coast, from which he recently returned. According to the explanation given by his physician, breakfast was being served when he suddenly his heart seemed to give way and he died immediately.

Dr. Steinmetz was regarded not only as one of the foremost authorities on electrical engineering but one of the greatest mathematicians in the world. Strangely enough, one of his greatest difficulties as a child was in learning the multiplication table.
Born in the city of Breslau, Germany, on April 9, 1865 and educated at his famous university, young Steinmetz early became interested in socialism. Two weeks after landing in America, he obtained employment in the manufacturing establishment of Rudolph Eickemeyer at Yonkers, N. Y., as a draftsman. His writings on electrical subjects began to attract attention.
In 1892 Steinmetz went to the Lynn, Mass., works of the General Electric Company. In January, 1893, he was transferred to the Schenectady works, and has since that time made Schenectady his home.
Dr. Steinmetz served for many terms as the president of national and international societies connected with the electrical industry. Harvard honored him with the degree of Master of Arts and Union College made him a Doctor of Philosophy. Since 1913, he had served Union College as professor of electrical engineering and electrophysics. He wrote several books.

DAMAGED SHIP PLACED IN SLIP

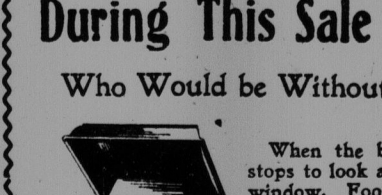

The Norwegian steamer M. M. Kongshavn, which struck Southwest ledge, Biar Island yesterday morning, reached here last evening. She was towed by tugboat and placed in a slip this morning and she will undergo a survey to ascertain the damage sustained. She is owned by steamship interest in the United States, whose agents are in New York. As no word had been received from this morning it was not definitely known what action would be taken regarding the repairing of the ship. It is said her bottom is considerably damaged. The M. M. Kongshavn sailed from Philadelphia and was well on her way to New York when the weather was thick and Captain Puffer was picking his way into the entrance of the Bay of Fundy. About 3 o'clock all on board were given a severe shock when the steamer grounded. Fortunately the tide was flooding and after a short time she floated clear.

STRANGER FOLLOWS EX-PREMIER ABOUT

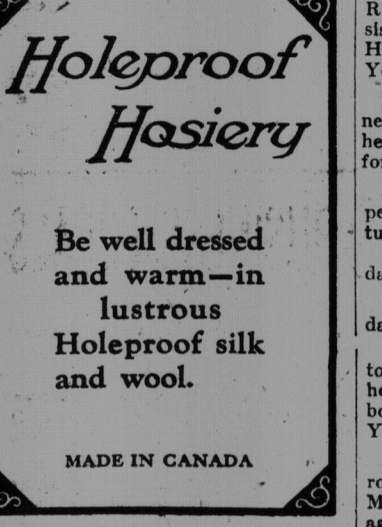

Causes Change in Plans Reported Seen in Several Cities.

Cleveland, Ohio, October 26.—The startling revelation that a "stranger" was following Lloyd George is disclosed here. He is said to have made several unsuccessful attempts to reach Lloyd George in Chicago. He is also said to have been seen at Indianapolis and Marion.
The actions resulted in the switching of Lloyd George's plans, and the doubling of the guard about his special train. A. J. Sylvester, personal secretary to Lloyd George, is alleged to have said that the suspect has been seen in every celebration in honor of the British statesman since the party left Chicago.

GETTING READY FOR THE WINTER

Power Co. Building Snow-Ploughs—Save Time on East Line.

The N. B. Power Company have under construction two steel snow-ploughs, which will be completed by December 1. They are being built in the company's plant here, and will be a valuable addition to the two formerly operated during the winter. They are of a similar type to the large plough used last season.
The company have completed the installation of a large turnout on the Westmorland road between Cooper's corner and Kane's corner. This will mean that the cars operating on the East St. John line will be able to pass at this junction, and will thus save considerable time making the round trip. At present there are two cars on this route, where formerly only one car was operated.

THORNTON FOR COMMITTEE IN MARITIMES

Halifax, N. S., Oct. 26.—That there was little possibility of the port of Halifax being used to its fullest capacity unless the people of Canada signified their approval of it by sending cables in this direction, was emphatically impressed upon the Halifax Board of Trade this morning by Sir Henry Thornton, general manager of the C. N. R.
Speaking before the Commercial Club, he urged the organization of a Maritime committee representative of all sections, industries, manufacturers, commercial agencies, and, he added, religions, as a first step in the future development of the provinces.
