# **CLEANLINESS IN DENTISTRY**

If people knew the frightful risk they run of infection from unclean dentistry they would better realize the awful chances they take and what a mighty important factor elganliness is.

No one has ever disputed the fact that there are no cleaner offices in Canada than ours. This is worthy of consideration.

mittee of the board, after its general business had been transacted.

The scene is on the South Branch, where moose are annoying the lumbermen by disputing the road with them and keeping them awake at night. The time was last week. The dialogue proceeds as follows:—

Mr. Allison—"The guide gave the double call, and two bull moose came out together, side by side."

Mr. Robinson:—"The like was never heard of before. The lumbermens aid they had heard of two moose coming from opposite directions to a call, but these came out together just like a pair of horses."

Mr. Allison:—"It was the double call."

Mr. Robinson:—"We just mowed them down. I didn't know there were two—" down. I didn't know there were two-Mr. Allison:—"Yes, you did."

A rough and tumble fight in which Jas. Barry, and Andrew Donohue were the principals landed both behind the bars in Central police station last night, and in the police court this morning they were required to answer to the charge of fighting.

Barry said that they were "fooling" and Patrolman Marshall swooped down and arrested them. The patrolman said that while at the Grand Union Hotel corner he was told that there was a fight in progress in Union street, and on hurrying there found Barry and Donohue in a clinch on the ground, with Donohue's face cut. He then arrested both.

They asked Marshall if they were not standing on the sidewalk when he arrived, but he asserted that such was not the case.

Aftr. Allison:—We were followed out of the woods by the longest procession of moose I ever saw."

Mr. Robinson:—"It think he meant it, too. He is a truthful guide. In fact that was why he had selected him."

#### In Order to Have Heat We Must Have Fire And We Want To Be Easy on Fuel

The fuel question is very essential when you are looking for a stove to heat your home. There are stoves on the market that are good heaters so long as you keep throwing the coal into them. Then there are more modern built stoves that are made to give you the heat besides being very light on fuel. That is the way our Glenwood Oak is built. In the first place we built the Glenwood Oak without linings. We build it with a ball bearing grate, and like our ranges, it can be removed any time. Then we have a large ring around the top of the fire pot that has three removable nickel rails on it. This throws the heat back to the floor. On the inside of the pot we have a ring with holes in it to consume the gas. As a heater the Glenwood Oak is O. K. Come and see them for yourselves.
