IN DEMAND THIS YEAR AT DEATH'S DOOR **CANADIAN FARM PRODUCTS**

Washington, Aug. 9—A tremendous decline in the condition of crops, general throughout the country and traceable to drought and intense heat, occurred during the last month, as indicated by official figures and estimates made today in the monthly crop report of the department of agriculture.

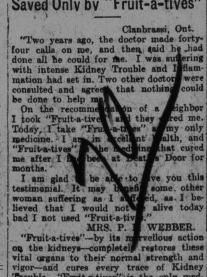

The report, today, is the worst, as to general crop conditions that the department has issued for any single month since 1901. The area most seriously affected extends from New York and Pennsylvania westward to the Rocky Mountains, embracing all of the great corn, wheat and hay-producing states in the country.

the southern states with the exception of Virginia and North Carolina, rains served to maintain generally favorable conditions throughout the past. These conditions thus far continue to be favorable. Inditions in the Pacific northwestern states are regarded as excellent, although July that territory suffered from a brief but excessively hot period. It is total production of the principal crops in the United States for 1911, as inby the condition on August 1, reported by the United States Department iculture today, is as follows:

Conditions in the Pacific northwestern states are regarded as excellent, although during July that territory suffered from a brief but excessively hot period. The total production of the principal crops in the United States for 1911, as indicated by the condition on August 1, reported by the United States Department of Agriculture today, is as follows: Crop. 1911. 1910 Corn. 2,600,221,400 3,121,968,000 Wheat, winter 455,149,000 464,044,000 Wheat, spring 209,645,700 231,399,000 All wheat 664,794,700 695,445,000 Oats 571,800,000 1,126,755,000 Barley 139,572,400 162,227,000 Rye. 30,677,000 33,309,000 Potatoes 249,839,000 338,811,000 Buckwheat 14,498,000 17,239,000 Tobacco, pounds 600,588,000 984,339,000 Flaxseed 22,899,000 14,116,000 Rice, pounds 23,076,000 24,510,000 Hay, tons 49,129,000 60,978,000	mation had set in.
