

European Intelligence.

Arrival of the United Kingdom at Cape Race.

CAPE RACE, Jan. 23. The "United Kingdom" with dates to the 11th inst., was intercepted at 10 A. M. today.

The Europa arrived on the 6th instant. Pending her arrival there was a feeling of great suspense in England, but funds kept very firm. On news transpiring there was disappointment and funds were temporarily depressed.

Some of the Journals argue that a definite answer was not expected by the Europe and think that the cause of peace losses nothing by delay, others construe the news unfavorably.

The Morning Post thinks that it diminishes the hopes of peace, and that the Washington Government will propose compromise which will not for a moment be entertained.

The Times asks why a decision should be delayed if favorable to peace, and says: immediate surrender of Mason and Smith would have been a greater blow to the Confederates than a victory on the Potomac, and worth millions to the Federal Exchequer.

The Daily News sees nothing but peace. All the Journals publish a semi-official account of the proceedings of Lord Lyons up to the 23rd December, when he presented formal demand. A definite answer is looked for in England by the 13th of February, and a Cabinet Council is summoned for the 14th.

Russell in his correspondence to the Times predicts refusal to the surrender. He also says a victory over the rebels had become a political necessity, and McClellan was being pressed to advance.

The Europa's news caused an upward tendency in sugar risks at Lloyd's.

Paris Patrie and Pays both assert that Washington Government offered to restore Mason and Smith on condition that England would not recognize the South.

The Morning Herald says that if the affair is settled, England and France have every inducement on commercial grounds, to recognize well-earned independence of the Confederates, and unless this step is manfully taken by Ministers at once, it is certain to be taken by Parliament on assembling.

The Daily News says that any recognition of the Confederates is too abhorrent to English principles, to be really a subject for apprehension.

Additional Batteries of Artillery are under orders to embark.

The Times states that by the beginning of February, Admiral Milne's squadron will number seven line-of-battle ships, 33 frigates, and 25 Corvettes and Steamers, and it represents again that he can do so.

Shipments of ammunition to the Atlantic Squadron continue unabated.

The Privateer Sumter, on arriving off Cadix, with the officers and crews of three Federal merchant vessels, solicited permission to enter. The American Consul demanded that the request be refused, but it was granted on condition that the prisoners be placed under protection of Spain, and the Sumter entered the port without being saluted.

It was rumored that the American Consul would leave on account of this resolution of Spain.

Parliament is summoned for the 6th Feb., but can be called earlier if exigency demands.

Text of Austrian despatch on Trent affair dated Vienna 18th, is published and fully justifies the act of England, says America may comply with the demand without the least sacrifice of dignity.

Paris Bourse higher, firm at 67.00. There had been a violent earthquake in Greece.

CANTON, Nov. 30th.—Coup d'Etat at Peking. Cabinet imprisoned. New Ministry formed under Prince Kong.

MELBOURNE, Nov. 15.—Gold shipments since last mail 149,000 ounces.

LATEST VIA QUEENSTOWN. The "City of Manchester" and the "Jura" arrived on the 8th. They brought intelligence of the adjustment of the Trent affair.

The news was received with the greatest satisfaction, but some journals complain of ungacious manner in which the Washington Cabinet proceeded. Others accord due credit for the act.

The king of Prussia is ill.

ARRIVAL OF THE "EUROPA" AT HALIFAX.

Warlike Preparations Going On.

HALIFAX, Jan. 25th. The R. M. Steamer "Europa" of the Cunard line, left Liverpool at 3 P. M. on the 11th, and Queenstown on the evening of the 12th. She has neither troops or stores on board, the Government having discontinued shipments by the Cunard Steamers. The "Europa" arrived at Halifax at 10:30 P. M. Saturday, it then blowing a hurricane, with a heavy sea.

It was reported that notwithstanding the Pacific solution of the American question, warlike preparations at Woolwich had not been relaxed. The steamers "Sparta" and "Ajax" continued to take in heavy stores for Halifax and Jamaica.

No official notice had been given at Portsmouth respecting any discharge of hired mechanics or laborers. It was understood that a reduction would take place in April.

Cabinet Council summoned for the 11th, had been countermanded. Mr. Seward's despatch having been considered at a Council held on the 9th.

The Times understands that an answer will be returned, expressing gratification at the disavowal of Captain Wilkes' act, accepting the satisfaction rendered, and assuming that the precedent in the "Trent" case will rule the case of the "Ella Smith," in the general discussion of the law of neutrals. The Government will decline any answer until they have had an opportunity of submitting whole note to the Law Officers.

There are propositions in Mr. Seward's despatch which are not at all admissible, and after delivery of the prisoners, three points may be properly raised and discussed.

The Times says that a fine England's expenses owing to late difficulty, at two millions sterling; but the Times expects when all the bills are in, it will be double that sum, and that the money has not been thrown away.

Times reiterates its denunciation of the stone blockade, and says that of all the crimes that have disgraced the history of mankind, it would be difficult to find one more atrocious than this. Even forges of the desert will not destroy what gives life to the enemy. The Times protests in the strongest terms against such a proceeding, and asserts that no belligerent has a right to resort to such warfare.

CARRIBO SPRINGS.—From a letter written by Mr. M. Lean of Kamloops, we learn the following information: A number of men have been engaged in mining operations in the Thompson.
