CRICKET AND BASEBALL PLAYED ON ZEALANDIA

Defective Cylinder Delays Ves sel in Run From Antipodes to This Por

(From Thursday's Daily) Indulging in all kinds of spert on spacious decks of the big steamship many passengers who arrived her yesterday afternoon on the Canadian Australian liner Zealandia, Capt. Phillips, state that the trip from the Anscarcely a day passed by in wi cricket, golf, baseball or some other game was not played. The Zealandia's decks are so arranged that almost any kind of sport can be indulged in and the other vessels of the line.

day afternoon. The cause of the delay was due to one of the cylinders breaking down. The trouble occurred before the vessel left sydney and she had made the passage for the greater part minus one of her propelling powers. Bespite this disadvantage she inde the run in twenty-three days.

Amongst the most distinguished pissagers aboard the steamaking was Zealandie Fullips Rutherford in finant son of Mr. and Mrs. J. S. Tutherford of Nanaimo, who came into this world a shock to the Methodists of the understanding that the money should not be put up unless the balance of the 335,000 required is obtained. A similar proposition will be made to the companies, mine owners, lumbermen, been such a conspicuous leader for so long; he was one of the leading citizens who will be approached. Subscriptions will be payable one-fourth on the letting of the contract of its greatest men. The history of British Columbia is bound up with the ploneer work of this devoted leader.

Apart from his very earnest and tellson of Mr. and Mrs. J. S. Rutherford of Nanaimo, who came into this world just before the vessel reached froncing work as the pioneer missionary, he accomplished very much in the up-building of the province. His name is a household word in every part of the control of the minds of most accomplished word in every part of the control of the minds of most accomplished word in every part of the control of the minds of most accomplished word in every part of the control of the minds of most accomplished word in every part of the control of the minds of most accomplished word in every part of the control of the minds of most accomplished word in every part of the control of the minds of most accomplished word in every part of the control of the minds of the control of the minds of the control of the minds of the control of th last some thoughtful genius suggested found his way to the hearts of men. it be named Zealandia in honor of the
