ORCHARD'S EVIDENCE IS SUPPORTED BY OTHERS.

People Mentioned by Him Tell That the Incidents Related are Facts—His Confession is Not Yet Complete.

BOISE, Idaho, June 7.—Harry Orchard takes the stand this morning for the third day of examination as the principal witness against Wm. J. D. Hayward, the secretary-treasurer of the Western Federation of Miners, charged with the murder of former Governor Frank Steunburg. The cross-examination commenced yesterday afternoon, will probably take up the entire day and may be carried over till tomorrow. The state will then again take Orchard in hand and the direct examination will bring out more of the details of the terrible story. The prisoner-witness shows no signs of fatigue. When turned over to the defense he appeared to rally. He acted as though relieved from the strain, and having once told in public of the murder of Steunburg, seemed to welcome the change. His answers to Richardson's questions are delivered without hesitation. He is quick-witted and self-possessed and appears not to feel the atmosphere of abhorrence with which he is surrounded.

The cross-examination is developing into a battle of wits between Orchard and Orchard. According to those who know the facts of his early life, Orchard is not a naturalized citizen of the United States. His parents, of course, were Canadians, the father of English and the mother of Irish descent. Orchard himself had but little education. He attended a country school in Canada but passed through only a few of the lower grades. He is the second child of seven. All his brothers and sisters are living.

It is a boy he worked for the neighbors and was over 20 years old when he left home, and went to Sarnaw, Mich. In the course of Orchard's examination Richardson asked questions to prove that Orchard began a career of dissipation early in life. Orchard testifies that it was after several years of hard work that he began to drink and gamble. At that time he was drifting about the country in the making of cheese, but it is now 12 years since the turning point. The woman who is said to be at the bottom of all the trouble of the man with whom he boarded while working at a cheese factory in Northumberland, Canada, introduced him to the life of crime that gradually led to taking up killing as a trade, by which he could earn easy money and avoid hard manual labor.

That the cross-examination of Orchard will be severe in the extreme was evidenced by the first half hour. Counsel for the defense says that they will be able to tear down completely the story he has told in the direct examination. They have about 150 witnesses, and the majority of these are here, they say, to prove that Orchard has told, in his direct examination, Orchard is not sparing in mentioning names of people and addresses. Counsel for Hayward says they will be able to prove by the testimony of these persons that what Orchard has stated is untrue.

It is even asserted that they can produce persons who will say that they themselves committed the murders of which Orchard accuses himself. Hayward shows little concern. He even laughs outright when asked what he thinks of the testimony. He asserts positively that the connection of his name with the murders is a fabrication, and that Orchard has connected him with the crimes partly out of spite and partly at the suggestion of detectives and enemies of the Federation. It is not known yet if Hayward will go on the stand. His counsel says they do not know that this will be necessary.

WALLAWALLA, Wash., June 7.—In an interview Mrs. Steunburg, widow of the former Governor of Idaho, says she hopes Harry Orchard will be given an opportunity to lead a good and honest life.

DENVER, June 7.—Following the testimony of Harry Orchard in the Hayward trial interviews here with several persons referred to are printed today. Supreme Justice Gabbert, who Orchard says was the intended victim of a bomb, says that Orchard's testimony fits in with the incidents connected with the killing of Wall.

Mrs. James H. Peabody, wife of the former governor, recalls distinctly the night when two men followed her carriage. Jacob Wolf, through whom Orchard said he communicated with Pettibone, vehemently denies the truth of the story. Max Malch says that Orchard told him he would kill Governor Steunburg because the latter had prevented him from becoming a millionaire.

AMERICAN WOMAN NOT GUILTY OF MANSLAUGHTER

ROYSTON, England, June 7.—The case of Miss Elsie Fox, an American charged with manslaughter, was heard at the Petty Sessions today. On May 1, Miss Fox was motoring down to the New Market races, and her car struck and killed William Parrish, a laborer.

SAILED IN AN AIRSHIP OVER BOSTON STREETS

But After a Sensational Voyage the Aeronaut Was Blown Out to Sea.

BOSTON, Mass., June 6.—The breaking down of his motor, which allowed the air ship to be blown out to sea, came near resulting in a fatality for Lincoln Beachy, of Revere Beach today. Beachy had made a sensational journey from Revere Beach to Boston, sailing high over Boston's tallest structures, the Ames building, and passing over the steeple of the Park Street Church, and the State House dome, finally landing on Boston Common, where thousands of people were attracted by the unusual appearance. Beachy delivered a message to the governor and then rose in his airship for the return trip. When the aeronaut was a mile or more off shore in Boston harbor, after leaving the city, his motor broke down and the airship was fast being blown out into the harbor. Beachy managed to fix up his engine partially so as to get back to the vicinity of Revere Beach. Several hundred feet off shore the balloon settled rapidly and it looked as if Beachy would be thrown into the water and entangled beneath his airship. Men in row-boats and launches nearby seized the aeronaut's drag-rope and started for shore to tow the airship, which was finally beached without damage, while the navigator was taken off in the boat.

LORNEVILLE BOATS WERE OUT IN THE STORM

Sixty Fishermen Could Not Get Home But Had to Seek Shelter Along the Coast.

Never in the past 20 years or more was the weather so undesirable to the fishermen as this backward spring has been, and yesterday's storm was the worst for this time of the year that ever down the bay fishermen experienced. From Lorneville alone about 20 fishing boats with fully 60 men set sail early in the morning and went off shore in the bay. The storm came up, something they never expected. It was impossible for them to find their way back to the harbor and they were forced to shelter after rough experiences in Dipper Harbor, Chance Harbor and other places. The gale was a fierce one off shore, being felt worse there than in the city. One of the boats had her mast carried away.

There were anxious relatives of the boats that did not appear during the storm, and as darkness drew on the older folks surmised that the fishermen knew their craft and the shelter along the coast too well to meet with disaster. They were right for the husbands, fathers and brothers are returning home today, boat after boat straggling into Lorneville with the men tired out after battling with the storm.

All of the boats had not arrived up till noon but there is now no anxiety as to their being safe, for it is said all have been accounted for along the coast and are having a hard boat home.

Those who have arrived say the storm was a bad one and they are thankful to have safely pulled through with their lives.

THOUSANDS OF PEOPLE ARE MOVING TO SIBERIA

Immigrant Rush Is Beating All Records—Quarter of a Million in Four Months.

ST. PETERSBURG, June 6.—The migration to Siberia has assumed unprecedented proportions, statistics from January 1, to May 15, Russian style, showing that 282,665 persons passed Tehelyabinsk. The daily average in May reached 8,200. Most of these were actual settlers, returning families furnishing only a cent, whereas formerly the percentage was from 10 to 25 per cent.

A large proportion are continuing eastward and are continuing to fill up Trans-Balkal, Amur and Primorskaya, counter-balancing the Japanese influx into Manchuria.

The magistrate decided there was not sufficient evidence to send the case to trial. Miss Fox was defended by Lord Robert Cecil.

HARD WORK ALONE CAN BRING SUCCESS

Says Dr. Pugsley in Speech Today

He Was Presented With an Address and a Travelling Bag by Federation Officials.

FREDERICTON, N. B., June 7.—At the council chamber at 12:30 o'clock today a most pleasing event occurred, when Dr. Pugsley was presented with an address accompanied by a handsome gladstone travelling bag with a complete outfit, by the officials of the departmental building. The large room was filled, many visitors being present, besides the members of the legislature. The presentation was made by Geo. N. Babbit, the secretary, who, before reading the address, expressed the great regret all felt in losing Dr. Pugsley, and the courtesy he had always extended to the men. Mr. Babbit said he had served under twenty different administrations but from none had he or the officials received kinder consideration than from the retiring premier.

Dr. Pugsley made an eloquent and most feeling reply. He told of his long connection with the political life of New Brunswick, from the time he was a student here in college down to the present day. He retired with the greatest regret from provincial politics, and in doing so he could honestly and conscientiously say that this province was to be congratulated on the efficiency of its civil service. He spoke in the kindest tones of his relations with the public officials. He hoped that in his future career he would continue to do so. He never felt so happy as when his work was hard and he believed that if a man applies this to his life, no matter what his ability may be, that success must crown his efforts. The address was signed by all the members of the civil service department.

HOSTILE TONE OF THE JAPANESE PRESS

TOKIO, June 6.—An experienced diplomat, who was a protégé of Marquis Ito, and who has been in the Japanese capital affairs said today to a representative of the Associated Press: "America is the only country which has the slightest intimation of the Japanese traditional friendship of the two nations uniformly maintained by the government at Washington makes me almost hesitate to believe that an anti-Japanese sentiment exists in Uncle Sam's territory through the unfortunate occurrences stand unassailable. But before forming a final judgment in the present instance, it is absolutely necessary to bear in mind that in America the autonomy of the various states is jealously guarded and the slightest infringement or interference by the national authorities is deeply resented. Consequently the federal government is in a most delicate position."

"Fortunately the chief executive of the United States is a wonderful man in personally. Judging by his speeches and writings, he might be called the incarnation of the principles of Bushido. There is no doubt that he is resolute enough to cut this Gordian knot."

"The Japanese cause in the present instance is right throughout beyond the shadow of a doubt. This is a fact impossible to escape the enlightened judgment of a personage who has known Roosevelt. I confidently expect that justice will be meted out and the sooner the better. In this matter I have known the better."

TOKIO, June 7.—The Hochi, which is supporting Count Okuma in his position on the American question, this morning says:—

"The San Francisco outrage are worse than the murder of a missionary in China, which resulted in the occupation of Kiao Chow. Who would blame an appeal to the last measure if an impendency to protect treaty rights is proved?"

"We hope, however, that Ambassador Aoki will be firm enough to make the Washington Government to quickly take measures to meet out justice to the Japanese."

ANOTHER SERIES OF MURDERS IN POLAND

LODZ, Russian Poland, June 6.—There has been another reign of terror and violence in this city since June 4. Eleven persons have been killed, including two mill owners, and thirty-seven have been wounded. The workmen have formed a secret vigilance committee which every night executes one or more bandits or terrorists.

The corpses are left on the street and to the lips of the dead men are pinned pieces of paper setting forth the exact reasons for the execution.

LONDON, June 7.—G. Otto Elicher, whose home is at Freeport, L. I., and business at 42 Broadway and an unknown woman supposed to be an American were drowned yesterday while boating on the Thames near Otforden.

BIG PLANT AT HAMPTON WAS DESTROYED TODAY.

PROMINENT MURRAY RIVER MERCHANT FOUND DEAD

Daniel J. MacDonald's Body Discovered—Foul Play Is Suspected and an Inquest Is Being Held.

CHARLOTTETOWN, P. E. I., June 7.—The remains of Daniel J. MacDonald, aged 38, a prominent merchant of Murray River, were found last night about twenty yards from the bridge. He was last seen at ten o'clock on Wednesday night when he left Ross's drug store, saying he was going home. A sailor of the schooner Dictator lying at the railway wharf, says sometime between ten and eleven he heard a cry of distress from the bridge, but heard no splash. The doctor who performed the autopsy, says he did not drown, as there was no water in the lungs. There was a mark under the right eye. The bridge has a low railing and it is thought that as the night was foggy he may have made a mistake and fallen over, but some fear that there has been foul play, although there is no evidence that there had been robbery committed. An inquest is now in progress. The affair has created great excitement.

FURTHER EVIDENCE IN THE STOVE STEALING CASE

The case against Geldart, charged with stealing from the McClary Co., and Oscar Peterson, with having goods knowing them to be stolen, was taken up in the police court this morning. Dr. A. W. Macrae appeared for the prosecution, D. Mullin, K. C., for Peterson, and J. B. M. Baxter for Geldart.

Sergt. Kilpatrick gave evidence that in the presence of Manager Irwin, of the McClary Co., in the I. C. R. yard he had a conversation with Oscar Peterson on May 15th. He told Peterson there was a lot of stuff taken from the McClary Company and among the goods known to be stolen, was a quantity of iron among the railroad men and if he heard of any of it the sergeant would like to be told about it. He told Peterson that the McClary people did not want to put people to trouble. They only wanted to get their stuff back. Peterson said they were all honest and would not touch anything. Any parcels found in the cars are handed over and go to the office. Witness told him that they might have received some goods thinking it all right the same way as Armstrong and Wilson got the other stoves, and it might turn out afterwards not to be all right. Peterson said if he could find out anything he would inform the police. The following day, May 17th, there was another conversation with Peterson at the latter's house. Dr. Mullin witness said that he was in company with Manager Irwin and Policeman Greer. They went into the house and examined articles without permission. He told Peterson that Mr. Irwin said that a refrigerator and a stove in the house were the property of the McClary Company. Mr. Irwin told Peterson that there was still another stove.

To Mr. Macrae, witness said that Peterson told Irwin that he bought the stove from Hanford Geldart about a year ago, and also the refrigerator. He paid \$20 for the stove and \$6 for the refrigerator. Mrs. Peterson then produced an ice cream freezer and a large sized tea pot. Peterson said he did not have another stove covered up but if they would wait until the following day he would prove was no refrigerator. He said he got the stuff all right and didn't steal it, and the reason he did not tell the officer about the stoves the day previous was that he thought they were referring to Mahoney.

Witness also stated that he had a conversation with Geldart on the 17th of May and he said he didn't know of any goods taken from the McClary Co. Later on at Haymarket Square Mr. Irwin asked Geldart if he knew anything about any stoves and if he didn't sell two stoves to Peterson. He said he did. They started to Geldart's house and witness told Mr. Irwin that he'd better have Geldart arrested.

Policeman James Greer testified regarding the visit he made to Peterson's home on May 17th with Sergt. Kilpatrick and Manager Irwin. He saw the articles mentioned by Sergt. Kilpatrick and heard the conversation with Geldart and Irwin later on as told by Sergt. Kilpatrick.

George Bishop, Lookkeeper, of the McClary Mfg. Co., was the next witness and said there was no record of any sales being made to Peterson or Geldart.

To Mr. Mullin, witness said he had examined the books for two years back. The company does not retail goods and the business is all done on Chatham Hill, the warehouse on Celebration street is only used for storing goods. The case was adjourned until tomorrow morning at ten o'clock.

Centenary Sunday school picnic will be held at Westfield Beach on June 29.

Miss Maud Wasson has returned from Acadia Seminary where she received a certificate for completing studies in the teachers' course for diploma.

Fire Broke Out in the Canada Wooden Ware Co's. Dry- house and Quickly Spread, Causing a Serious Loss —No Other Buildings Damaged

HAMPTON, N. B., June 7.—Lumber in the dry house of the Canada Wooden Ware Company took fire at 11:30 o'clock this morning. The dry house communicates with the main building and there seems little prospect of saving either the main factory which is separated from it by an alley, about twenty feet broad. The fire apparatus from the village arrived quickly on the ground and scores of helpers in addition to the factory factory hands assisted in removing the walls and other manufactured ware from the factory proper and in passing water. The dry house was kept full of live steam but it was insufficient to subdue the fire, so holes were cut through the walls and two streams from the fire apparatus as well as one from the engine house were kept going. At 12:30 the fire had crossed to a portion of the main building but efforts are being made to prevent it getting an overpowering hold. The dry house contains about \$2,000 worth of lumber. The building is insured for a few hundred dollars with S. McLeod's company, Sussex.

LATER.
Shortly after one o'clock fire burst through the end of the house and at half-past one that entire building was in flames. It has been totally destroyed, along with most of its contents. The wind was not very high, but it was blowing in the direction of the main buildings and there was every indication that these would also be consumed. The mills consist of the two very large structures, formerly occupied by the Oseesque Stamping Co., the dry house being a new building. All the available fire apparatus and the majority of citizens of both Hampton Station and Hampton Village were on hand fighting the fire, but were unable to do very much beyond saving some of the manufactured goods. It is not anticipated that the fire will spread to any buildings near the Wooden Ware Co's plant, as there are no residences or stores in the immediate vicinity and the wind is not strong enough to carry embers to any great distance, but the fire may be assumed to have wiped out one of the principal industries in Hampton.

At half past two the main mills had by the strenuous efforts of the citizens been prevented from catching fire, and there was some little hope that these buildings might be saved though the chances were slim.

CLOSING EXERCISES OF THE NORMAL SCHOOL

FREDERICTON, N. B., June 7.—The closing exercises of the Normal School took place this morning. There was a large attendance, including the governor and members of the provincial government and legislature. The Governor General's medals were awarded as follows:

Silver medal, Miss Margaret White, Sheffield.

Bronze medal, Miss Ethel Hansen, Carleton County.

Addresses were delivered by Principal Fiddes, Governor Tweedie, Premier Robinson and others.

EVERYDAY CLUB.

On the Victoria Grounds tomorrow afternoon, the first half holiday game of the season will be played. This will be a regular league game in the Amateur League series, and the opposing teams are the Marathons and Clippers.

The line up of the teams will be as follows:

Marathons—Rootes, C. Doody, P.; Shetels, 1st B.; D. Malcolm, 2nd B.; Bradley, 3rd B.; Stone, S. S.; Totton, L. F.; J. Malcolm, C. F.; Clawson, R. F.

Clippers—Dwyer, C.; Barrett, P.; McDonough, 1st B.; Currie, 2nd B.; McBrine, 3rd B.; McNutt, S. S.; Home, L. F.; Ritchie, C. F.; Stafford, R. F.

After tomorrow's ball game, about 4:30 o'clock the gates of the grounds will be thrown open and free sports for boys conducted as on last Saturday. The club has granted the free use of the grounds to the High School boys for their annual sports which will be held on June 15th.

The Empress of Ireland, from Liverpool, landed passengers at nine this morning at Quebec.
