Comparative Statement of Population of Points Along I. C. R.

reparing for Halifax Review - Order for pox Situation

OTTAWA, Oct. 10.-On the sugges tion of Mr. Pottinger, general manager of the I. C. R., the census branch has prepared a comparative statement of population in 1901 and 1891 of counties, cities, towns and important villages situated on the line of the government situated on the line of the government railway. This has been done in order to afford their Royal Highnesses in-formation regarding places through which they will pass on their way to St. John and Halifax. OTTAWA. Oct. 9.—News of the death of Hon. N. C. Wallace, which only became generally known this morning, was received with many expressions of regret. The late Mr. Wallace during his many years of sessional residence in Ottawa, had made scores of friends here. For some years past he had been a shrewd investor in city property and had turned it over to good advantage. Flags are half-msted on the Parliament buildings and Orange hall in memory of the deceased. The local Orangemen will probably hold a memorial service.

Potatoes Poor and Few in a HID.

Result of the Municipal Elections-The River Very Low-Woodstock Post Office and Jail.

WOODSTOCK, Oct. 8 .- While the crops in general may be said to be quite up to the average, and in the matter of some lines ahead of usual years, potatoes are rather a disapuxuriously this year, and farmers athat there was little frost in the ground potato crop is poor on this side of line, anyway. There are few in a uckwheat is quite a good crop and was housed this year in good shape. In fact, the oldest farmer cannot re-call a season where there was such a

call a season where there was such a continuance of beautiful weather for getting in the crops. There will be abundant cause for thanksgiving in Carleton county this year.

The river here is said to be the lowest at this time of year than can be remembered by those who keep these things in mind. The brief rain of last week brought it up somewhat, but not more than five or six inches, and it is falling again. It is almost said to see the large quantities of lumber lying the large quantities of lumber lying ligh and dry all along the river sides. umbermen have a faint hope that a lood may yet come, but this seems outstul, at least.

The pretty new Anglican church at East Florenceville will be ready for dedication early next month. It is one of the most sightly churches of its kind in the diocese, and the church people of Florenceville are deserving of congratulation. Stained glass windows will be put in, the furniture of the church is about all provided, and what is most satisfactory, the church will be about free from debt when completed. The exterior work on the jail is

nearly completed. Work on the roof is now being proceeded with. It is a

nearly completed. Work on the roof is now being proceeded with. It is a good looking building, a corner tower adding decidedly to its appearance.

Some work of repairing is being done around the post office, but apparently an order in council has not yet been issued instructing local authorities to renew or mend the flag pole. It might be done before the celebration of the king's birthday.

The county elections, as far as the the town is concerned, have resulted in one old councillor being defeated and a new man elected. Wm Balmain, who was unsuccessful, was elected two years ago. He is of the firm of Balmain Bros., and during his term was a good member of the board. His brother is a member of the town council. Wm Macdonald, who was elected in his place, is well known in town and throughout the county. He is a pushing business man and conducts a large brick making business in Grafton, besides selling farm machinery. He has always been a power in elections, and the general impression was that his chances for election were pretty certain. The general result throughout the county shows quite a change in the personnel of the new board. There were no particular questions at Issue.
