-Other Wonderful Cures.

------Miss Amelia Weymer, Appleton, Wis., writes: "Early last summer I contracted a cold which seemed to hang on to me and could not be shaken off. From the head it went to the throat, and then affected my lungs. My mother felt very anxious and as we had used Peruna in the family before, she advised me to try it. I was somehow very op posed but was persuaded to try Peruna. Using 1 one day convinced me that it was no ordinary med

ithin a week I was much better and in tw weeks I was well, and I felt much stronger and in ch better health generally. I was perfectly satisfied with the results from the use of Peruna.".

CATARRH CAUSES CONSUMPTION

Pe-ru-na Never Fails to Cure Catarrh Wherever Located,

THE medical profession has so thor-L oughly prejudiced the minds of the people against patent medicines that it is with great reluctance that anyone can be persuaded to try such a remedy at first

In nearly every one of the thousands of remarkable cures that Peruna has made the patients had to be persuaded by friends very strongly before they could lay aside their prejudice against it. A large multitude, of course, hold out against the persuasions of friends and lie simply because they have allowed their minds to be poisoned against this very excellent remedy.

But fortunately there is another large multitude of people who are able to shake off their prejudice and try Peruna before it is too late. These people are rarely disappointed. They generally try other remedies at the beginning of their troubles. They allow a cold to develop into catarrh of the head. They allow catarrh of the head to gradually become catarrh of the throat. They still keep using the doctor's medicine, or some other ineffectual remedy. The catarrh stealthily spreads down the bronchial tubes and reaches the lungs. Everybody then becomes alarmed. Faith in the doctor begins to disappear. The patient reaches a state of mind in which he is willing to try almost anything. A both

The first week it produces a decided change for the better. A few weeks continued treatment cures the patient. Then another happy man or woman is
