

Health for Every Woman No More Headaches

From weakness and despair thousands have been restored to robust good health by Dr. Hamilton's Pills.

That sick women are made well by Dr. Hamilton's Pills is proved in the following letter:

For years I was thin and delicate. I lost color and was easily tired. A yellow pallor, pimples and blotches on my face were not only mortifying to my feelings, but because I thought my skin would never look nice again I grew despondent. Then my appetite failed. I grew very weak. Various remedies, pills, tonics and tablets I tried without permanent benefit. A visit to my sister put into my hands a box of Dr. Hamilton's Pills. She placed reliance upon them, and now that they have made me a well woman I would not be without them whenever they might cost. I found Dr. Hamilton's by their mild yet searching action very suitable to the delicate character of a woman's nature. They never once gripped me, yet they established regularity. My appetite grew—my blood red and pure—my rings under my eyes disappeared, and today my skin is as clear and unwrinkled as when I was a girl. Dr. Hamilton's Pills did it all.

The above straightforward letter from Mrs. J. Y. Todd, wife of a well-known citizen in Rogersville, is proof sufficient that Dr. Hamilton's Pills are a wonderful woman's medicine. Use no other pill but Dr. Hamilton's. 50c per box. All dealers or of the Cataract Co., Kingston, Ontario.

Why the Tudhope "Four" Sells for \$1,625

IMPORTING at a high rate of duty has placed a false value on automobiles sold in Canada.

An imported car which sells for \$1,100 in the United States is classed as a \$1,500 or \$1,600 car in Canada, because that is the price it has always commanded. It is an \$1,100 car just the same.

An imported car which is really worth \$1,625 must be sold in Canada for \$2,200 or more. The natural result is that it is classed as a \$2,200 car.

The Tudhope "Four" could not be sold for \$1,625 if it were not wholly manufactured in Canada.

Tudhope Cars are made in Canada in a thoroughly modern factory. The parts of the motor, the gears, the axles, in fact every essential part of the car is

made from the raw material in the Tudhope Factory at Orillia.

This plant is not surpassed by any American Factory, either for its efficiency of equipment or its organization.

The cost of manufacturing cars in the Tudhope plant is as low as is possible in any American plant. AND WE DO NOT ADD DUTY TO OUR SELLING PRICE. Tudhope Cars are sold at their true value.

To the Canadian buyer this means that the value of the Tudhope is far beyond what the price would lead one to expect. The Tudhope "Fours" at \$1,625 have the appointments of imported cars selling in Canada for \$2,200 or \$2,300. They have the same high-grade features, the same superior equipment.

jolting or bouncing. The long wheel base and high wheels add to the riding comfort and the large tires lessen tire wear.

CONTINENTAL DEMOUNTABLE RIMS allow a change of tires to be made in a few minutes.

The bodies are gracefully formed and are finished in dark blue. The seats are wide and are handsomely upholstered in hand-buffed leather.

All metal trimmings are heavily nickel-plated.

Get Rid of your Two Tire Troubles

Rim-Cutting Overloading

33% of tire trouble is due to Rim-Cutting.

A careful inquiry among thousands of motorists shows that nearly one in four old-style tires are ruined by rim-cutting. The reason is that the book-shaped ring which holds them in place cuts into the fabric of the tire.

No-Rim-Cut Tires are built on a new idea. The round surface of the side ring comes next to the tire. No-Rim-Cut Tires have been sold and not one has been wrecked by rim-cutting.

AND they are made 10% oversize have 10% more carrying capacity than the ordinary tire—enough to provide for heavy extras and overloading. That gives them 25% more mileage with the average car.
