FAMILY SKELETON LEAPS FORTH IN ADMISSIONS OF SENATOR NEW

Los Angeles Murder Tears Long-Guarded Secret from Indiana Statesman—Met Mrs. Burger More Than Thirty Years Ago and There Was Never at Any Time a Question of Marriage Between Them.

Los Angeles, Cal., July 7.—Harry S. New, Jr., who says his father is United States Senator New of Indiana, had for the first time today in open court admitted the existence of a secret and unimpeachable term of friendship with the late Freda Leaser, his sweet-heart.

It was not because she insisted upon poisoning the wedding, and not because in a fury he resented her attempts to escape motherhood, as he previously stated.

It was a simple, ancient and perennial reason—the cause of immovable tragedy—she refused to marry him.

The midnight colloquy in the To-panga Canyon road, to which there is no surviving witness except New himself, was a quarrel which ended in the final crime—centered in the one word.

"You had decided finally then, Freda, that you will not marry me?" "Yes."

Life Hung on One Word. It was upon this question and answer that the death of Freda Leaser was hanging in the balance.

In that moment New says he was lost and irresponsible. And that will be his defense. He will have an attorney, possibly the best money can obtain. He hopes—and believes—that his father, Senator New, will assist him.

He himself has not personally impugned the Senator, but learned from his half-sister, Edna Clancy, that his mother, Mrs. Lillie Burger, has made the appeal.

Told to Detective. The admission of New of why he shot Freda was made to a detective. Before Mrs. Burger left Chicago to go to her son and cast aside all thought of personal suffering and revealed the early secret of her own life to the detective to aid her boy.

"Senator New lived in the same town I lived," she said. "When I was sixteen I fell madly in love with him. There was nothing in his so secret to me as that love. For sixteen years I lived with him and was true to him. When we had been everything to each other for twelve years, a son was born to me. That was Harry."

Were Never Married. "His father seemed devoted. Every one at home knew the real story. I wanted him to marry me, and he promised to do so."

She then told how an actress who was "very beautiful and wore tight" had come between them.

"For years we lived in the same town, I with my boy and he with his wife. It was hard."

Mrs. Burger declared her faith in Senator New was unshaken, and that she was confident he would come to the aid of her son.

Washington, July 7.—Senator New of Indiana tonight issued the following statement regarding the arrest of Harry S. New, who claims he is a son of the Senator:

"I have just this to say about this whole deplorable matter. More than thirty years ago, when I was in my twenties and unmarried, I knew Mrs. Burger. There was never at any time a question of marriage between us. Conditions arose which I did not care to dispute, which resulted, in my doing everything in my power to make amends then and later. Whatever I did in that direction was of my own accord and no one else had anything to do with it. The affair was ended thirty years ago. Since that time the people of my home city are the best judges of what my life has been. I never have shirked any responsibility that has come to me and I never shall."

of water which supplies families in outlying districts, and even near the city, was thoroughly discussed and it was thought that some legislation would be brought forward which would protect the consumers from the thoughtlessness of the casual camper.

In this respect the chairman, John Kelley, gave some interesting reminiscences regarding a trip which he had taken to Fredericton, in company with the late A. Chapman Smith, about 35 years ago. The object of the expedition was to enact legislation preventing people building or camping within 150 feet of a public fresh water supply, but there was so much opposition to the idea by the campers and others that the project had to be abandoned.

Dr. Roberts said that the city had the power to prevent the action of trespassers on public lakes and the bodies of water, but George Blake stated that he had found out by legal test that property lines can properly

STANDARD'S \$1,000 PRIZE OFFER PRESENTS WONDERFUL OPPORTUNITY

Ask Yourself if You Can Afford to Stay Out of a Contest in Which There Are No Losers—Don't Be Unfair to Yourself by Thinking You Have Not a Chance to Win for Everybody Wins in The Standard's Contest—Get Your Application in at Once and Prove to Yourself That You Can and Will Win a Big Prize.

CONTEST ONLY IN ITS INFANCY—NOW IS THE TIME TO ENTER.

Life holds no greater regret than the remembrance of wasted opportunities. How few there are who have not at some time or other, neglected to take advantage of a shining opportunity, later to bewail their shortsightedness or negligence. It has been truly said:

"Of all words of tongue or pen, The saddest of these—it might have been."

The St. John Standard in its liberal offer of \$10,000 in valuable prizes to be awarded to men and women of New Brunswick and Nova Scotia, has placed before the public an opportunity which furnishes a chance to retrench on some of the lost opportunities of the past. It is high time that every thinking person consider from every angle the advantage to be attained in entering The Standard's Contest, and winning one of the high grade and valuable prizes offered. You cannot afford to sit back and let the other fellow get the votes and prizes which you are entitled to just because by taking the line of least resistance, you say to yourself, "I would not be fortunate enough to be a winner. Everybody in this contest is a winner if they remain active until the end of the contest, and everybody will be

amplified according to the amount of effort they put forth.

More Than \$10,000.00 at Stake. There is more than \$10,000.00 worth of automobiles, pianos, phonographs and Cash Prizes waiting to be claimed by the public of New Brunswick and Nova Scotia, in fact there has never been offered such a high grade list of prizes in any previous contest and there may never be such an opportunity presented again. Surely

the announcement of the contest which appears elsewhere in this issue, read over the list of prizes, see what district you are in and clip the application blank and send it to the Contest Manager at once. That is the initial step and you will be supplied with material and assistance which with your own efforts will make you a winner, and to be a winner will mean so much to you, more than any other line of endeavor will pay you in the next ten weeks. We urge you to send in your application at once so that you may make the start before the field is covered by some other candidate and subscriptions, which might have made you a big winner will be snapped up by another because you did not know you were going to try. To be in at the start will mean to be very much in the winning at the end so get in at once.

Before doing another thing, turn to the announcement of the contest which appears elsewhere in this issue, read over the list of prizes, see what district you are in and clip the application blank and send it to the Contest Manager at once. That is the initial step and you will be supplied with material and assistance which with your own efforts will make you a winner, and to be a winner will mean so much to you, more than any other line of endeavor will pay you in the next ten weeks. Large sums of money, running into the hundreds of millions of dollars, are generally believed to lie in British banks for want of claimants to demand the money, in most cases deposited by customers long since dead whose heirs knew nothing of the deposits. Horatia Bottomley has introduced in parliament a bill to secure the handing over to the Public Trustee, by whom they ultimately will be transferred to the legal owners, the dormant balances and unclaimed securities in possession of the banks. When the bill came up for consideration in the House of Commons some romantic banking tales were told. "There was an old lady with \$140,000 to her credit at a well-known London bank," said Mr. Bottomley. "Every year she would drive up in her carriage, ask to see the manager, examine her passbook and then draw a check for the full amount. While the manager entertained her in the bank parlor a cashier would slip round to the head office and get notes for the amount. The old lady would carefully count them, and then, being satisfied that her money was safe, put it back into the account and go away."

The refinement and delicacy of the flavor of

The old lady would carefully count them, and then, being satisfied that her money was safe, put it back into the account and go away."

INQUEST WAS AGAIN POSTPONED

James Kenney, One of Jury, Was Not Present Last Evening—Coroner Kenney Said He Would Strike Fines Against Him.

The inquest into the cause of the death of Marjory Beryl Gibbons was again postponed last evening. The inquiry is now scheduled for tonight. When the names of the jurors were called by Coroner Kenney last night James Kenney failed to answer. The coroner said he would strike a fine against him and postpone the proceedings till this evening. The jurors present were Frank Watson (foreman), Scott Estey, Louis Brown, Robert Slipp, James Kirk and Wallace Lanton.

LARGE TOURIST TRAVEL

The Governor Dingley brought 535 passengers yesterday, over 400 of whom simply passed through the city for points in Nova Scotia and Prince Edward Island. The Boston train also brought a large number of pleasure seekers, coming in in two sections.

MANY MATTERS OF IMPORTANCE DEALT WITH BY BOARD OF HEALTH

Regular Meeting Held Yesterday Afternoon — Trouble Caused by Campers Locating Near Spring — Matters Regarding Slaughter Houses—Lake Street Sewerage—The Impure Milk Question—Other Matters Dealt With

Many matters of great importance to the health and safety of the general public were discussed at the regular meeting of the St. John Board of Health held into yesterday afternoon in the board room.

There were present the chairman, Dr. John Kelley, Sub-District Health Officer, Dr. H. L. Brown, George Blake, Dr. L. M. Curran, Mr. J. H. Hoggins, Walter H. Golding and T. M. Burns.

secretary, Dr. W. P. Roberts, provincial minister of health, was present, representing the government of the province, and Commissioner J. B. Jones, of the water and sewerage department, represented the city fathers.

In several questions which were brought to their attention by the board.

The trouble caused by summer campers who locate near a spring or body

of water which supplies families in outlying districts, and even near the city, was thoroughly discussed and it was thought that some legislation would be brought forward which would protect the consumers from the thoughtlessness of the casual camper.

In this respect the chairman, John Kelley, gave some interesting reminiscences regarding a trip which he had taken to Fredericton, in company with the late A. Chapman Smith, about 35 years ago. The object of the expedition was to enact legislation preventing people building or camping within 150 feet of a public fresh water supply, but there was so much opposition to the idea by the campers and others that the project had to be abandoned.

Dr. Roberts said that the city had the power to prevent the action of trespassers on public lakes and the bodies of water, but George Blake stated that he had found out by legal test that property lines can properly

run through lake waters in some cases. He was of the opinion that there would be trouble if the public was withheld from getting access to the waters.

This Midsummer Attack on the High Cost of Clothes Will Continue for Ten Days

Young men and younger young men will find just as much to interest them in this Semi-ready Sale of Suits as will their elders. Smart dressers will be as keenly interested as the conservative man.

With the removal of the 7.5 per cent. war surtax and the uncovering of the enormous profiteering by the woolen and textile mills—75 per cent. and 300 per cent.—we should soon have more reasonable prices on clothes.

I am going to do my part in bringing this about—by doing it now and doing it on clothes that you know have a standard fixed label in the pocket price—the same here as in Montreal, where the clothes are made—where they are known—and where more are sold than the combined sales of any five makers in Montreal sell in their own city.

Look these prices over:
