

CHICAGO

FEDERAL PROHIBITION AMENDMENTS A

LEGISLATION READY IN MATTER

OTTAWA, Oct. 7.—Two important amendments to existing federal prohibition measures will be up for the consideration of parliament this week. One is an amendment to the Canada Temperance, or Scott Act, and the other to the Doherty Act.

The effect of the amendment to the first act is to provide that if any province by plebiscite, or if the Dominion electors of that province, should vote for absolute prohibition of the manufacture or importation of intoxicating liquor that province shall be brought under the provisions of the Scott Act and a federal proclamation shall be issued prohibiting the manufacture within the borders of such province and the importation into the province. In effect it contemplates applying the principle of the Scott Act as regards manufacture and importation to provinces, which vote against manufacture and importation.

The Doherty Act, as it presently stands, prohibits the importation of liquor into which are

prohibited the manufacture of liquor in the province for the purpose of sale to the public. It also prohibits the importation of liquor into the province for the purpose of sale to the public.

OTTAWA, Doherty has been brought under the provisions of the Scott Act and a federal proclamation shall be issued prohibiting the manufacture within the borders of such province and the importation into the province. In effect it contemplates applying the principle of the Scott Act as regards manufacture and importation to provinces, which vote against manufacture and importation.

The Doherty Act, as it presently stands, prohibits the importation of liquor into which are

SALVATION ARMY MAKES GRATUITOUS

WOULD MAKE GOVERNMENT LOANS WHERE NECESSARY

(Special to The Record)

OTTAWA, Oct. 7.—The question of allowing Colonel A. T. Hunter, of the "Toronto Originals" club, to give evidence, came up before the House in Committee on soldiers' civil reestablishment this morning.

Several members expressed the opinion that his appearance was not necessary and no action was taken.

Returned mechanics of Vancouver asked for an opportunity to present their views. Colonel R. C. Cooper said he desired to submit representations on their behalf and a reply was sent to that effect.

Mr. E. Zalley, of the Salvation Army hotel, Toronto, wrote suggesting a government loan system of \$2,000 for five years where a necessity is proven, as the best method of reestablishment.

The Fire-Prevention Ca

Fire prevention week is on and fire prevention day, October 9th, is approaching.

Chief Guerin and his men are leading in the campaign. The two platoon system on the brigade is being taken advantage of so that the men who are off duty can inspect buildings.

Attention is being given to factories and other business places.

In requesting the citizens to endeavor to reduce fire dangers to a minimum the Chief says: "Watch your chimneys. See that they are clean before you start your fire for the winter months."

"Conditions in the city," the Chief says, "are very satisfactory." This can be understood does not mean that whatever dangers and fire-traps do exist should not be removed. That

TWO RESOLUTIONS FROM THE BOARD

TO GO BEFORE ASSOCIATED BOARDS OF TRADE

An Electrified G.T.R. and Greater Production

The annual meeting of the Ontario Associated Boards of Trade, will be held at Toronto on November 20th and 21st. The program of the convention is now being arranged. The Kitchener Board of Trade has submitted the following resolutions to be placed upon the agenda for discussion and adoption:

"Resolved—That in the event of the Dominion Government taking over the lines of the Grand Trunk Railway System, through purchase, or otherwise, the Ontario lines of the G.T.R. should be leased to or placed under the jurisdiction of the Hydro Electric Power Commission of Ontario for operation; on the understanding that the lines of railway so leased, or otherwise, shall be converted into electrically operated lines, as rapidly as circumstances will permit; This Board is further of the opinion that this action would avoid unnecessary duplication of existing lines and make it possible to give adequate service to municipalities now served by the Grand Trunk."

Greater Production

"Resolved—That the Dominion and Ontario Governments be urged to initiate and vigorously prosecute a comprehensive campaign of education among all the people for increased

EXTENT, VARIETY AND GROWTH OF THE SEMI-READY

"The Reward of Merit Comes to the Man Who Does One Thing Well and Sticks to It."

"When I was in Montreal some weeks ago arranging for the exclusive selling rights of Semi-ready tailoring, I made a study of the wide scope of the Semi-ready system," said W. H. Mills, whose front value is "BUT". "There are nearly 500 Semi-ready stores in all Canada, and of these about 100 sell Semi-ready Tailored clothes alone—nothing else."

"From Halifax to Victoria these stores are in every town and city of any pretension."

"In Montreal where the makers are best known, the sales are of such volume as to alone keep any ordinary clothing shop busy the year 'round."

"The variety of patterns and styles shown constitute an exhibit of men's fashions."

"The Semi-ready Company are the only makers in Canada who turn out a sufficient volume and have a safe good-will to enable them to fix the selling price—the same price from coast to coast. They adhered to this policy even in the face of advancing prices in labor and materials, and very often one would find in a Semi-ready store a \$25 labelled suit which could not be reproduced for twice that amount."

"The selling price is based on the exact cost of the cloth—there is no profiteering—and, therefore, never an occasion to dispose of \$45.00 labels for \$44.97 by first marking them up. It can be done in a Semi-ready store, for the label in the pocket prevents a camouflage so common to the clothing trade since alien methods were introduced."

"While my store is not yet ready for my stock on display, I can have a Semi-ready Suit made to customer measure for any customer," concluded Mr. Mills.

A Few Brevities

The game between Toronto Rowing and Athletic Association and Hamilton Rowing Club on Saturday at the H.A.A.A. grounds, Hamilton, could hardly be called a contest. It was far too one-sided to be dignified by any such name. The score was 1 to 1, and this well indicates how the teams stood in relation to each other, the Hamiltonians being outclassed. They were outpunted, outrun and outplayed at every stage, and saved themselves from a whitewash only towards the close of the affray by a single point.

Argonauts got away to a good start in the Interprovincial campaign when they defeated Hamilton Tigers in a hard fought game at the U. of T. Stadium, Toronto, on Saturday afternoon by the score of 30 to 11. The score by no means indicates the difference in play, for the Yellow and Black during the first three periods gave the Double Blue a stout argument; in fact in the early stage when Hamilton led by 8 to 1 it looked as though the locals would go down to defeat. During the last twenty-five minutes, however, Argos out-played the visitors and scored with starting rapidly.

Cincinnati and Chicago are tied in the total number of hits for the series. The National League team touched Eddie Cicotte, the Chicago "ace" for five hits, while the American Leaguers made only three of James Ring. As a result each is credited with 26 hits for the series. Cincinnati, however, has been at bat 113 times and has an average of 230, while the Comiskey aggregation in 123 times at bat has a mark of 221.

With the assurance of a new and modern rink in Guelph the coming winter, the hockey enthusiasts in Guelph are already forming plans for the coming season. At a large

and representative meeting the initial steps to provide plenty of hockey amusements this winter were taken, and it was decided to have an industrial league, with teams from the various industries and one or two others.

Efforts will also be made to have a Church League, and also to enter an intermediate team in the O.H.A. series. It was stated that there was plenty of good material in the city, and no trouble would be experienced in getting together a sextette that should give a good account of itself in O.H.A. company.

A meeting of the Rinks Committee was held and it is likely that the work of tearing down the old buildings on the site for the new rink will commence on Monday.

Miss Aloia Stirling of Atlanta, Ga., successfully defended her title as American golf champion at Shawnee on the Delaware Pa., when she defeated Mrs. William A. Cavin of New York in the final of the women's championship by a margin of six up and five to play.

By sheer speed on the backfield Pequegnot and Smith outrunning all others on the field, Guelph C.I. won the opening game of the Inter-scholastic series on Saturday, Oct. 5, defeating the local school team 11-6. In the first quarter ending 1-1, while in the second the locals weakened, and the visitors scored two ties.

The Belleville G.T.R. team on Saturday defeated Hamilton Harveters in the first of the final games in the O.B.A. series by a score of 5 to 1. Over 3,500 witnessed the game.

Goyer of Belleville held Hamilton to three hits, while the local team collected six off Tuft of Harveters. Sullivan, on second base for Hamilton, made three errors, which contributed largely to the defeat of the local team.

Three of Belleville's hits were scored in the sixth, and these, with two errors, allowed three runs.

SUPERB PITCHING AGAIN BRINGS VICTORY TO REDS

Series Is Now 3 to 1 Against Sox. Rain Caused Postponement of Sunday Game.

Chicago, Oct. 5.—There have been World Series in which the breaks in weather have been of inestimable benefit to a team, but the handicapped of a crippled or inadequate pitching staff. Rain pelted down throughout Saturday night and most of today, but indications are that no rain, no matter how torrential or prolonged, will suffice to bring the Chicago White Sox out of the rut into which they fell when Saturday's game went to the Reds by 2 to 0.

It has been pointed out ever since the Reds' hitless success, and most of all, that the Cincinnatians are much better equipped as to fingers than the American Leaguers. Certainly the National Leaguers have the advantage in the number of twirlers of World Series calibre. The Sunday game was postponed by the downpour which gave Williams and Kerr an additional day's rest, but that respite will hardly avail the White Sox any.

"Dumb" Plays Frequent.

The most surprising feature of the series to date is the failure of the Chicago twirlers to play the brains of the Cincinnatians. The Sunday game was postponed by the downpour which gave Williams and Kerr an additional day's rest, but that respite will hardly avail the White Sox any.

By sheer speed on the backfield Pequegnot and Smith outrunning all others on the field, Guelph C.I. won the opening game of the Inter-scholastic series on Saturday, Oct. 5, defeating the local school team 11-6. In the first quarter ending 1-1, while in the second the locals weakened, and the visitors scored two ties.

RECEIPTS WENT TO 700 PLAYERS

World's Series Games in Fourteen Years Have Attracted 2,000,000 Spectators.

Chicago.—What the world series means in dollars and cents to the baseball fraternity, can be exemplified by the statement that before the present series is completed the rate receipts for such contests played under the jurisdiction of the National Commission will reach the impressive total of more than \$3,500,000 notwithstanding recent remarks to the contrary. It is doubtful if big league baseball would have mounted its imposing position without the aid of the world series.

The little for the championship is the logical climax for each season's pennant races, and the fact that close to two million spectators have paid almost three and a half million dollars to witness such contests places the stamp of public approval on the play beyond cavil. Since 1905, when the National Commission began its supervision of the world series, fourteen have been played and the Chicago Americans and the Cincinnati National Guards engaged in the struggle for the fifteenth championship.

During the past fourteen seasons the attendance totalled 1,915,494, and as 78 games were played in these series, which is an average of very close to 25,000 per game. In the same period these spectators have paid in all the gate about \$1,000,000 for the privilege of watching the play, the aggregate gate receipts for the 78 games being \$3,429,720 in round figures, which is an average of very close to \$44,000 per game.

Further delving into the figures shows that the club owners have profited to a greater extent than the players, for the sums divided among the competing clubs and the leagues during the past fourteen years reaches the pleasing total of \$1,715,700 while the baseball warriors have collected \$1,370,200. The players represented twenty-eight clubs or teams during these series, and even under a fifty-fifty division of the pool instead of the customary sixty and forty split the average would have been better than \$60,000 per player.

Seven Hundred Players Profited.

While it is almost impossible to ascertain just how many players figured in the division of the money during the past fourteen years, a fair average would be in the neighborhood of twenty-five per club. Using this average as a basis, it will be that about 700 players have, at one time or another shared in the world series pool. Until within a season or two it has been customary for winning combinations to receive 60 per cent of the pool and the losing team 40 per cent. On this basis, some 350 players have received about \$2,350 as winners and an equal number \$1,500 as losers. The National Commission's average per game approximates \$48,800.

Although it is quite likely that a new record in gate receipts may be established in the present nine-game series, it is doubtful if the players' share will equal the record established in 1912, since the new distribution arrangement requires that one-quarter of their pool go to proceeds of five games instead of four, but the deduction of 25 per cent of their pool is likely to more than counterbalance the gain from the fifth contest receipts. The club owners are also required to share more liberally this season with the other magnates of the league than in past years, for they will divide just half of their portion of the receipts with the clubs that trailed them in the pennant race of 1919.

THE SCORE IN DETAIL

Cincinnati	a.b.	r.	h.	p.	a.	e.
Rath, 2b.	4	0	1	5	1	1
Daubert, 1b.	4	0	0	5	1	0

Ring, p.	3	0	1	2	0	0
Totals	30	2	5	27	8	2

BOX MANAGER STILL HOPEFUL

Five games remain to be played in the World Series if the full schedule is required, but Manager Moran and the Cincinnati fans believe that the five-game route will not have to be traversed. With a three-game lead, they believe that they have crushed the American Leaguers into a condition where the Chicagoans cannot hope for even one more victory.

On the other hand, Manager Gleason asserted that he was not downhearted.

"We go best coming from behind," said he, "and you watch the Sox go to it from now on. We have had the worst of the breaks all along, and I

think, too, that we were not over-confident. That was natural, for Cincinnati supporters wanted odds, even after the Reds had taken the first game. Naturally we were confident. We'll even up the series with the next two games. Cicotte deserved to win yesterday."

CICOTTE AND RING COMPARED.

Although Eddie Cicotte was the losing pitcher in Saturday's World series contest, the analysis of balls and strikes showed him far steadier than Jimmie Ring, his successful Cincinnati opponent. Cicotte put out 33 strikes, one more than Ring, and 25 of his offerings were hit to fair territory, whereas 29 of Ring's were shot there by the home batsmen.

In called balls, moreover, Cicotte was away ahead. Eddie missed the plate 27 times, while Ring pitched 44 bad ones. Four of these were given purposely to Schalk in the second inning. In addition Ring gave two other passes, while Cicotte issued none. Each pitcher was credited with two strikeouts. Two hit batsmen were on the wrong side of Ring's ledger.

That Ring was depending upon his fast ball to pull him out of ticklish situations was evident from the number of pop-ups which the Chicago players caught and eight sailed into foul territory, half of these latter going over the stand. The White Sox cut the ball along the ground 13 times, while Cincinnati's grounders numbered three more. Cicotte's best innings were the eighth and ninth, in each of which he pitched only seven times. His worst was the fifth, when he hurled eighteen times and made his two fielding errors.

Ring's best round was the fourth, when three strikes, one ball, two flies and one foul over the stand disposed of Chicago. His worst was the second inning, when he threw 13 balls and six strikes, and was found for two flies, two grounders and a foul. He also had to do a lot of pitching in the eighth, but 13 of his 20 offerings were over the plate in that session.
