DANISH PRINCE COMING TO CANADA TO STUDY OUR FARMING METHODS

Copenhagen, via London, Jan. 13—Prince Eric, son of Prince Waldemar of Denmark, sailed for New York today on the steamer Hellig Olav. The prince will spend two years in Canada studying agriculture. Prince Eric, who is 25 years of age, is a first cousin of King Christian. A despatch from Copenhagen, Dec. 9, said it was Prince Viggo, a younger brother of Prince Eric, who was to visit Canada to study practical farming.

The explorer was entertaining his friends with yarns more or less true of the Polar regions “Once,” he recounted, “I was cornered by a bear and didn't have a bullet to protect myself. Tears came in my eyes as I thought of home.” “What then?” asked his breathless friends in unison. “Why, the tears froze as hard as rocks and ramming them in my gun, I fired and killed the bear.”

Items From Digby Courier

The Life Boat Daring, from the Bay View Life Saving Station, had a rough trip in the bay during Monday night's southerly storm, having gone to Trout Cove to rescue a disabled gasoline fishing boat containing two men. The Daring was in Digby Tuesday afternoon for supplies for the station. Last week thousands of lobster traps were put out along the whole of the Digby County coast, the 6th being the date for the opening of the season for this district. The season for the neighboring county of Yarmouth opened a month earlier and large shipments of live lobsters have been going forward to the Boston market.

CANADA NEEDS MORE GOOD OFFICERS.

Minister of Militia States That Until They Are Available, Recruiting Will be Largely Confined to Existing Units.

Ottawa, Jan. 16—While hundreds of offers are being received from all parts of the Dominion for the raising of regiments, General Hughes states that there is a dearth at present of competent and efficient officers to command such regiments, and that until such time as such officers can be properly trained, the present constituted battalions will be permitted to recruit beyond their normal strength up to a second or even a third battalion. Afterward these regiments can be properly organized under competent heads, trained efficiently at the new schools which are to be instituted throughout the Dominion. “We want to know who is who before we make appointments or permit the raising of new regiments under new auspices,” said General Hughes this evening.

His body was found in a street of Schaerbeek, near Brussels, with two bullet wounds in it.” A despatch from Brussels, French soldier whose confession to the German authorities resulted in the arrest and execution of Miss Cavell, had committed suicide by hanging in the military prison at Brussels.

CANADIAN CUSTOMS REVENUE INCREASING

Ottawa, Jan. 16—If customs revenue for the latter half of January is as great as that during the first half, the receipts for the whole month will be double those of the corresponding period last year. Up to January 15 the receipts were \$5,015,125, or more than twice as great as those during the first fifteen days of January 1915, \$2,319,088. It is hoped that this increase will be maintained throughout the whole month.

Some Heroes of The War.

“The fortitude of some of the men is simply amazing. Take the case of Lance-Corporal J. Williams, of the Royal Welsh Fusiliers. This is the way he won the D. C. M.: There was a sharp engagement at Festubert on September 15. Killed and wounded were stretched out all around after the charge and the counter-charge. There was a lull in the fighting, and when Williams took stock of his injuries he found that a bullet had pierced his left shoulder and that merely two threads were supporting what was left of his left hand. Have you ever run a splinter under your finger nail. If you have, how much use were you until you had it extracted and your finger bound up? Williams looked at his hand and then looked around and saw a lot of his comrades who were even worse off. And so he used his good right hand—for good hands, right or left, were scarce just then—to assist in bandaging all the wounded near him, and all the time he cheered and encouraged the wounded about him. When the work was over he refused the offer of the stretcher bearers and walked unaided through the communication trench to the first hospital, where the two threads were severed. “In normal times Jim Sweeney might think his a hard lot if he had to lose a night's sleep, but Lance-Corporal J. Sweeney is quite a different man. Any mad-covered soldier you see slipping into the city in the early morning hours for a few days' rest at home will tell you that Hooge and its vicinity is ‘a hell of a hole.’ And when you see these soldiers fresh from the trenches you can believe it. Lance-Corporal J. Sweeney was stationed in an open trench in Hooge. It was his duty to direct the stretcher bearers and assist in emergency dressings. For twenty-seven hours he stuck to his job. Then he led the stretcher bearers up and down to the advance trenches for twenty-one hours more. All these forty-eight hours the Germans were dropping shells and bombs and working their machine guns and rifles over the section where Sweeney was stationed. He has red hair, broad shoulders, grit and determination and a D. C. M.”

A WONDERFUL MEDICINE FOR CHILDREN.

Mrs. Geo. Huffman, Willington, Ont., writes:—“I have used Baby's Own Tablets and can recommend them as a wonderful medicine for children. I am the mother of five and have used no other medicine for any of them.” Thousands of other mothers say the same thing of the Tablets. That is why once a mother has used them for her little ones she would use nothing else. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.
