No Cuts In **Trolley Fares**

In December a Dal student delegation met with Mr. N. T. Smith, Manager of the Nova Scotia Light and Power Co. to dis-cuss student rates on the trolley coaches in Halifax.

Mr. Smith was very sympathetic towards the delegation but stated that he was unable to grant the request for reduced trolley coach rates as they were set by the Public Utilities Board. He suggested that the committee contact the Public Utilities Board to get more information.

Editorials have appeared in the Halifax paper stating the need for public support for student aid as proposed by the NFCUS delega-tion to the Prime Minister. The Lanadian Broadcasting Corporation has been carrying a number of items on the campaign on the national network.

In February, a group of Dal stu-

University officials across Canada have indicated the need for such financial assistance and have submitted a brief to the Massey Commission urging immediate ac tion on the matter.

Within a few weeks dozens of students at Dalhousie will be asked to fill out a questionaire on the cost of attending university, such items as summer employment, tuition costs, part-time employment, and financial problems will be dealt with in the questionaire.

The object of the campaign is to obtain 5½ milion dollars from the Federal Government over a period of four years in order to assist 10,-000 students.
