Dear John:

On June 26th I sent you the application of Miss. Florence Irene Patterson for a passport to travel to England. I hope you got the letter. I really had expected to have the passport back before now. I imagine that the Passport Officials are deluged with applications for passports to the United States. It seems to me that those, except in special cases, are not so important and that preference should be given to an application of this nature. I do wish that you would make a special effort. No doubt you have already arranged for the passport and it is only a matter of waiting until it is actually issued. If you got to the proper official and bought him an ice cream cone one of these hot days no doubt he would help you out.

Yours sincerely,

WWL:P

W. W. Lynd.
