Corlett's assessment reduced to \$22,75, George Henduryon's to \$88.85, and the reduction spread pro rata over lots 28, 24 and 25 and on the township roads.

The report of the engineer on the Walker drain for its repair was read and the matter of adoption laid over until the next meeting of the council.

An application was received from D. McMillan for the repair and improvement of the Telford drain

over until the next meeting of the council.

An application was received from D. McMillan for the repair and improvement of the Tedford drain and on motion of Bentley-Campbell was referred to the engineer to make survey and report.

Jas. McCormick, reeve, reported having met County House of Refuge committee who had accepted Chas. Redgers as county inmate from the lirst of the year 1905.

The auditors presented their report on the accounts for the year 1905, together with a statement in detail of receipts and disbursements, assets and liabilities, the report being as follows;

AUDITORS' REPORT.

To the Reeve and Council of the Township of Harwich,
Gentlemen,—We beg leave to submit to your honorable body our report of the audit of the accounts of the township of Harwich for the year ending 31st of December, 1994.

In this report and in the investigation, the general instructions furished by the Provincial Municipal Auditor were followed as nearly as possible. Auditor were followed as nearly as possible.

The Treasurer,—The cash-book, vouchers, by-laws, debenture book, bank account and papers bearing or affecting the various entries or receipts and disbursements as made by the treasurer were examined and found, with the exception of an oversight of a few cents, to be correct.

book account and the Bank account the results were so identical that it gave us great satisfaction and assur-ance, the one being a check on the other, as was intended under the by-

ance, the one being a check on the other, as was intended under the by-law.

The new guarantee bond of the treasurer for \$2,500 expires May 4th, 1905. On examination of this bond it would appear satisfactory under the by-law relating thereto. For the best interests of the municipality the following recommendation is made.—That the council give those matters, that is, passing of accounts, etc., pertaining to the troasurer, the first place in the business before the council board, after the reading of the minutes and communications, which would assist him greatly in doing his part of the work during banking hours. This would, no doubt, render the overdraft of the special trust account of less frequent occurrence, which has occurred oftener than it should during the year 1994.

In the rushing through of the business at the end of the year a few of the orders were paid without being signed by the reeve—an oversight, no doubt. The accounts were all passed and correct, as found on examination of the minutes, but it is recommended that the treasurer refuse to pay all such orders in the future.

The Collector—The roll for 1903

refuse to pay all such orders in the future.

The Collector—The roll for 1903 was examined and verified, and the formalities of the statute thereto have been fulfilled.

The Assessor—In regard to the assessor's roll the investigations were not carried out so far as in the other parts of our work, chiefly for the reason that it had been carefully gone over and the totals, etc., respised by the elerk, and from the general summations would appear correct.

At this place your attention might be directed to the wisdam of a careful consideration of the changes in the Assessment Act, and their application to the best interest of your township.

The Clerk—In referring to the

the Assessment Act, and their application to the best interest of your township.

The Clerk—In referring to the minutes of the proceedings of the council for warrants in payment made, and information, we were impressed with the neat and careful manner in which they were kept, and likewise the accounts.

The clerk's office is in need of a new serviceable map of the township showing roads, school sections, etc. The getting of a new one is recommended.

In general your attention is directed to the following comments.—

The fact that no tavern lineuses were granted in this municipality, no fees—came from the government.

The debentures of the following drains have expired;— Campbell, Doyle and Tyhurst Branch.

The Legislative school grants amounting to \$21.50 for school section No. 16, Harwish for 1899 and 1901 bave never been called for and remain on oredit.

The Municipal Hall and contents are insured for \$1300, and the same is in force for 1905.

In conclusion we appreciate the courtesy we have received and the efficient manner in which the recommendations of the previous year have been carried out.

S. B. McCULLY, J. WHITTINGTON.

Harwich, Feb. 13th, 1994.

"A SECRET."

One great secret of youth and beauty for the young woman or the mother is the proper understanding of her womanly system and well-being. Every woman, your or old, should know herself and her physical make up. A good way to arrive a this knowledge is to get a good doctobook, such, for instance, as the "People Common Sense Medical Adviser," by R. Y. Pierce, M. D., which can readily be precured by sending thirty-one cents in ome cent stamps for opaper-bound volting, of fifty stamps for cloth-bound copy, address ing Dr. R. V. Pierce, at Buffalo, N. Y.

International Bible Lesson for To-Morrow.

Jesus at the Pool of Bethenda.

The Miracle of the Loaves and Fishes,—John 6, 1-14. Golden Text—1 am the Living Bread which came down from heaven.—John 6, 51.

If the Son of God found retirement, orayer and communion necessary for support and equipment for His active public life, can our public men do without it and preserve their moral

without it and preserve their moral and spiritual balance?
Our lesson for to-day occurred about a year from last Sunday's, and is located on the N. E. shore of the Sea of Galilee. Paul wrote, 'desus was seen by 500 brethren at one time after His resurrection'.' Here John writes, to prove His divinity, that from five loaves and a few small fishes, over 5,000 saw our Lord bless the food, which multiplied in their presence, until every one of them actually ate to the full, and 12 baskets of the broken fragments of the feast were gathered by His disciples.

The Emerald.

An emerald that has no flaw in it is typical of the process the power of discovering trachery in the shape of alleged friends. The emerald is exceedingly popular in courtships and in marriages. After marriage it is supposed to bring harmony into the household and to further domestic joys in every possible way. To lose an emerald is said follow ders all to the call of the Lord Jesus what great and grand results shall follow followfollow what He blessess. This lad "cast his bread agon the waters," and thousands were fed and himself also to the full, while had he selfishly ate alone the opportunity of his life was lost.

My friend, surrender all to the Lord Jesus Christ.

Instead of Fruit

Fruit is a splendid tonic for stomach and liver. The active principles give fruit its medicinal value. But they occur in such minute quantities, that when fruit is taken with other food, and goes through the process of digestion,

'Fruit-a-tives' are the active principles of apples, oranges, figs and prunes extracted from fruit juices, combined by our own secret process, and compressed into tablets. They are the concentrated medicinal virtues of fruits and act much more effectively than any other known treatment in curing Indigestion, Dyspepsia, Constipation, Torpid Liver, Billousness and Kidney troubles.
