Chicken raising a very easy and simple way of adding to the farm's cash profits.

CHATHAM INCUBATOR

No. 1—60 Eggs
No. 2—120 Eggs
No. 3—240 Eggs

Poultry raising pays.

People who tell you that there is no money in raising chicks may have tried to make money in the business by using settling hens as batchers, and they might as well have tried to locate a gold mine in the cabbage patch. The last nest of a hen is to lay eggs. As a batcher and brooder she is outclassed. That's the business of the Chatham Incubator and Brooder, and they do it perfectly and successfully.

The poultry business, properly conducted, pays far better than any other business for the amount of time and money invested.

Thousands of poultry raisers—men and women all over Canada and the United States—have proved to their satisfaction that it is profitable to raise chicks with the Chatham Incubator and Brooder.

The Chatham Incubator and Brooder is honestly constructed. There is no hush about it. Every inch of material is thoroughly tested, the machine is built on right principles, the insulation is perfect, thermometer reliable, and the workmanship the best.

The Chatham Incubator and Brooder is simple as well as scientific in construction—a woman or girl can operate the machine in their leisure moments.
