**ALLEGED INSURANCE AGENT.**—A young man, named Harry Condon, was charged, on the 24th ult., in the Vancouver Police Court, with "vagrancy," his real offence, however, being a gambler in possession of a "deck" of marked cards. These were found in his pocket and shown in Court. These cards could be read by the initiated as well from their backs as faces. His defence was that he got his living as "an insurance agent," which seemed to make no impression on the Court. It looked as if the plea of being an insurance agent were regarded as proof of a man's integrity, as it ought to be.

THE QUAKERS OF THE UNITED KINGDOM have their own class insurance company, and a prosperous concern it is. Established 71 years ago, its premium income is now generally round about \$850,000. Management and commissions absorb only 9.36 per cent. of the premiums, and mortality is very favourable, the average age at death being 65. The percentage earned on the invested funds is  $\frac{3}{4}$  of one per cent. less than the rate assurance in the valuation. The Friends' Provident Institution is, therefore, quite a model.
