The market for butter is stronger this week, owing to the operations of several local houses, who are buying and putting away this week's receipts in cold storage for winter requirements. There is a fair trade from the west, but the strength of the market lies in the demand from the local operators. Buy a good Jersey and you don't have to experiment. There is no speculating as to her performances. There is no doubt but that she eats less and gives better milk, richer in butter fat. than the milk of any other breed. All of the experimenting has been done already. Jersey history is made up of facts-not theories. Whether you sell milk or butter, or both, you'll get a higher percentage of profit out of Jerseys than you can get out of any other breed for the same feeding cost.

Look into the matter. The more you investigate, the more Jerseys you'll buy. Booklet of facts on request. CANADIAN JERSEY CATTLE CLUB
