## Both the Same Age

The larger one had Harab Digestive Tankage included in the feed. The smaller was fed the usual grain diet. The larger one sold for \$3.80 more, and the extra cost of feeding was but \$1.10, leaving a net profit on the larger hog of \$2.70. Which would you rather raise?

# Harab Digestive Tankage

provides the hog with eight times as much protein and bone phosphate of lime (two important food elements) as an equal weight of corn. It produces bone, muscle and flesh rapidly. One hog raiser writes us that since using Harab Digestive Tankage his hogs, when ready for market, weigh 30 to 40 lbs. heavier than hogs of the same age that have been fed in the ordinary way. You can do the same with your hogs.

Harab Digestive Tankage is a meat food. Clean, sanitary, wholesome. Can be fed wet or dry; alone or with other feeds. Excellent to use in combination with Cheese Factory Whey or Creamery Buttermilk. Large hog raisers and experimental farms are using large quantities. Write for Harab Tankage Booklet. It gives full particulars.
