"SAVES LABOR"

Dear Sirs.—We like our "Johnny-on-the-Spot" Engine very much for it certainly saves labor. One-half gallon of gasoline is sufficient for almost three weeks, separating twice a day, churning twice a week, besides the washing and turning the grindstone. Yours truly, Ed. Diesbourg, So. Woodalee.

"A GOOD RECORD"

Gentlemen:—Over seven years ago I purchased a Gilson "Goes-Like-Sixty" Engine through one of your dealers, and outside of batteries it has only cost me fifteen cents for repairs, and it has been in constant use ever since we got it. Yours truly, W. Johnston, Meaford.

"DELIGHTED"

Gentlemen:—I am delighted with my Silo Filling Outfit and think it is wonderful how the 6 h.p. Gilson Engine runs the 10" Gilson Cutter. I filled my Silo with it last year, lapping the sheaves and kept it going steady. The pipe must have been full. Yours truly, John Boyce, Forrester's Falls.

"WITHOUT A HITCH"

Gentlemen:—I never knew Silo Filling satisfaction until I got my 10 h.p. Gilson Engine and 13" Gilson Cutter. The neighbors laughed at the idea of filling my 14'x35' Silo with this outfit, but we did it in a short day and without a hitch all the way through. Yours truly, R. H. Reid, Kincardine.
