## NOVA SCOTIA'S TECHNICAL SCHOOLS.

During this summer local technical schools have been organized in Amherst, Halifax, Sydney, and New Glasgow. Mr. F. H. Sexton, Professor of Mining and Metallurgy at Dalhousie College, is Director of Technical Education. The classes will be carried on in a thoroughly practical manner, and simple equipment and apparatus will be furnished by the Government to make teaching more pertinent and interesting. The coal mining schools will be carried on in the various coal mining centres in Cape Breton, Inverness, Cumberland, and Pictou counties. A coal mining instructor in each place will give his entire time to the teaching of the art and science of coal mining. The students attend these schools in order to fit themselves to pass the examinations for Government certificates of competency. Schools for stationary engineers will also be opened in about twelve different centres, where men are taught the principles underlying the working of boilers, engines, pumps, etc. These students are also looking forward to passing the examinations for Government certificates.
