

Fulmer, at the Five Islands Settlement, was tested by burning the quality of the coal, when it proved to be equal in quality to the best.

It was brilliant, and the residue per-
th very little of an earthy nature,
ning no sulphur decomposing nitro-
ribon.

ness of the seams of coal has not yet
ained—the boring iron not having
ed—but little doubt can be enter-
over, that the coal lies in thick seams,
rom the accompanying metals. The
and specular limestone, black and
Bond of the best quality, and the fine
and coral line, with the pure mag-
also the purest pipe clay, chalk, and
at have yet been discovered in any of
Colonies. The whole discovery be-
the Geish Grant, is free from any
the British Government.

Seventy tons weight of gold dust from California
and dollars from Valparaiso, have been placed
in the vaults of the Bank of England, brought
by Her Majesty's ship Calypso. The specie was
contained in 1,400 boxes, valued at six millions
of pounds sterling.

Disturbances of the most unruly kind had taken
place in the south of IRELAND. Secret con-
federacies had been extensively formed, having
for their objects plunder and robbery. Affrays
had occurred in which some lives were lost.

The potato disease threatens to be of a very se-
rious character, which will add much to the mi-
sery of unhappy Ireland.

It is reported that Lord Clarendon is to be
Chancellor of the Queen's College, Cork, which
His Excellency will formally open on the 15th of
this month.

We see that it is proposed to erect for Her
Majesty a marine residence on the Irish Coast,
at a place called Killiney, about 7 miles from the met-
ropolis, and within a mile and a half of the har-
bour of Kingstown. Mr. Wm. D. Butler, an
eminent Dublin architect, is engaged in the pre-
paration of the necessary plans, &c., and will
shortly submit them for Her Majesty's approval.

The Overland Mail from INDIA, including
Calcutta papers to the 7th, and letters to the 8th
August, had arrived. Moolraj has not been ex-
ecuted, nor is it likely that he will be.

The Punjab continues quiet, but our troops are
ready to move at a moment's notice. The Marquis
of Dalhousie and Sir Charles Napier continue
at Simlah. A second and final distribution of
Scinde prize-money has been ordered; the en-
tire amount of Sir Charles's share is nearly
£70,000. At Calcutta, a public inquiry is going
on into the conduct of the magistrates. The
commercial reports are favourable. Canton
continues quiet. At Lahore there is considerable
sickness among the troops.

The President of FRANCE was at St. Cloud;
M. O. Barrot, at Bagnival; M. de Falloux was
ill in bed; the representatives of the people
were all taking their holiday; until the meeting
of the Chamber it must be expected all will be
dull and dreary. Despatches received from
Rome show that the hackings between the
French and the Roman authorities, continued
with unabated venom. A manifesto from the
Pope to his people, of a very unsatisfactory
nature, had reached the French government. Not
only are Mazzini, Garibaldi, and the chiefs of the
Roman government excluded from the benefits
of a proposed amnesty, but the whole constituent
Assembly and the military chiefs are shut out
from pardon by the head of the Church.

Some few skirmishes have taken place in
Morocco. The insurrection in the JORDAN
ISLANDS is quelled. Several executions by
martial law have taken place, to be followed by
others.

The constitution of the 14th of March, in its
rigorous consequences, has been accepted as
the basis of reorganization of the country by the
Conference at VIENNA. The besieging works
of the Austrians against the fortress of Comorn
were proceeding rapidly. The Austrians, it
was said, intended to try balloons, as at Venice.

The Swiss Government has ordered the ex-
pulsion of Heinzen, Strewe, Brentano, and Mi-
rowski, chiefs of the insurrection of the Grand
Duchy of Baden. They have the choice of
passing through France, or going to Genoa.

At BERLIN all was quiet. The Pope was
still at Portici. The Russian troops were
gradually withdrawing within their own fron-
tiers. The diplomatic conferences in Warsaw
have ended. Some severe fighting had taken
place between the Russians and Circassians,
with losses on both sides.

The great difficulty of the day lies in the state
of Rome. The question between the Pope and
the Romans remains unsettled, apparently baff-
ling all the wisdom of the politically wise. The
French President will find it no easy matter to
extricate himself with honour from the diffi-
culties resulting from French interference.

stated that the Rev. J. Aspinall, M. A. of Al-
thorpe Rectory, Lincolnshire, is to be his suc-

The Rev. Peter Hall, whilst at Malvern under
medical treatment, committed suicide, by cutting
his throat, in the presence of his wife, whose
hands were wounded in endeavouring to pre-
vent the act.

"OF INTEREST TO ALL."

TO THE LADIES.

The genuine Balm of Columbia, for restoring the hair.

"Long hair is a glory to women."

If you wish a rich luxuriant head of hair, free
from dandruff and scurf, do not fail to procure the
genuine Balm of Columbia. In cases of baldness
it will more than exceed your expectations. Many
who have lost their hair for twenty years, have had
it restored to its original perfection by the use of
this balm. Age, state, or condition, appears to be
no obstacle whatever; it also causes the fluid to
flow with which the delicate tubes is filled, by
which means thousands have had their hair restor-
ed to its natural colour by this invaluable remedy.

In all cases of fever it will be found the most
pleasant wash that can be used. A few applica-
tions only are necessary to keep the hair from fall-
ing out. It strengthens the roots, it never fails to
impart a rich glossy appearance, and as a perfume
for the toilet it is unequalled. It holds three times
as much as other mis-called hair restoratives, and
is more effectual.

Caution.—Never buy it unless you find the
name of Comstock & Co., proprietors on the wrap-
per of each bottle.
