Gentlemen of the jury, a man's dog stands by him in prosperity and in poverty, in health and in sickness. He will sleep on the cold ground, where the wintry winds blow and the snow drives fiercely, if only he may be near his master's side. He will kiss the hand that has no food to offer, he will lick the wounds and sores that come in encounter with the roughness of the world. He guards the sleep of his pauper master as if he were a prince. When all other friends desert he remains. When riches take wings and reputation falls to pieces he is as constant in his love as the sun in its journey through the heavens. If fortune drives the master forth an outcast in the world, friendless and homeless, the faithful dog asks no higher privilege than that of accompanying him to guard against danger, to fight against his enemies, and when the last scene of all comes, and death takes the master in its embrace and his body is laid away in the cold ground, no matter if all other friends pursue their way, there by his graveside will the noble dog be found, his head between his paws, his eyes sad but open in alert watchfulness, faithful and true even to death.

CLYDESDALE STALLION SOLD

The highly-bred Clydesdale stallion, Scotland's Motto (12353), imported from Scotland by William Marshall, Namaka, Alberta, has been sold by him to John Inglis, a prominent farmer near Moose Jaw, for what we understand constitutes a record cash price in the West for a horse of the Clydesdale breed. As Mr. Inglis, before settling in Canada, was stud groom to David Riddell, of Blackhall, Paisley, Scotland, an extensive and successful breeder of Clydesdale horses, it may safely be assumed that he would be well able to judge of the value of his purchase. It is confidently expected that good reports will be duly received from the Moose Jaw district of "Scotland's Motto" as a sire.

In a paper on the meat supply of the United Kingdom, read at a meeting of the Royal Statistical Society, R. H. Hooker stated that the amount of meat produced in the United Kingdom was now about 25,000,000 cwt. annually, consisting of about 14,000,000 cwt. of beef or veal; 5,500,000 cwt. of mutton or lamb, and about the same quantity of pig meat, although the latter was a very variable quantity. He considered that the home production had somewhat increased during the past fifteen years, although not proportionately to the population. Imports had increased very rapidly in the past thirty years, and they now imported 21,000,000 cwt. to 22,000,000 cwt. annually—viz., about 9,000,000 cwt. of beef, nearly 4,500,000 cwt. of mutton, and some 7,500,000 cwt. of pig meat. The total annual consumption was thus over 46,000,000 cwt., or about 120 lbs. per head of the population; of which the produce of the United Kingdom amounted in 1907-8 to 54 per cent., it having been well over 60 per cent. 15 years ago. Beef, he said, came mainly from North and South America, but the United States were beginning to show signs of exhaustion, and the Argentine Republic was rapidly increasing its supplies. Mutton came almost entirely from the Southern Hemisphere, and pig meat from North America (a steadily diminishing quantity) and Denmark. In future supplies from North America should steadily dwindle, and he looked to the Southern Hemisphere for an extraneous meat supply—mainly to the Argentine for the beef, and to Australasia for mutton, the latter probably exhibiting great fluctuations. When the South American supply had ceased to grow, there seemed every probability that the next generation would have to pay dear for its meat.

Roofing

Before deciding on any roofing, for any purpose, send for this free book which will give you the inside facts about all roofings—shingle, tin, tar, iron—and prepared, or "ready" roofings.

This book is fair, frank, comprehensive. It tells all about the cost of each kind of roofing. It tells the advantages and the disadvantages of each. It is a veritable gold mine of roofing information.

The reason we send it free is because it tells too, about Ruberoid roofing.

Since Ruberoid roofing was invented nearly twenty years ago, there have sprung up more than 400 substitutes.

These substitutes, before they are laid and exposed to the weather, look like Ruberoid. But don't let that deceive you.

Ruberoid roofing is sun proof, rain proof, snow proof, cold proof, weather proof. It resists acids, gases and fumes.

RUBEROID

(TRADEMARK REGISTERED)

It is so nearly fireproof that if you drop live coals on a Ruberoid roof it will not burn. The secret of these wonderful properties of Ruberoid roofing lies in the Ruberoid gum—our exclusive product.

No other maker can use this Ruberoid gum—that is why no other roofing can possibly be so good as Ruberoid.

Ruberoid is supplied in its natural color, also in shades—Red, Green, Brown—suitable for the finest homes. And the colors do not wear off or fade, because they are part of the roofing—impregnated by our exclusive process.

Troubled for Years With CONSTIPATION.

Constipation or costiveness clogs the bowels, chokes up the natural outlet of impure matter, and retains in the system the poisonous effete waste products of nature, thereby causing Biliousness, Headache, Piles, etc. Avoid this serious trouble by the use of

MILBURN'S LAXA-LIVER PILLS

They act on the bowels and promote their free and regular action, thus curing constipation and all the diseases which arise from it.

Mr. Henry Pearce, 49 Standish Ave., Owen Sound, Ont., writes—"Having been troubled for years with constipation, and trying various so-called remedies, which did me no good, whatever, I was persuaded to try Milburn's Laxa-Liver Pills. I have found them most beneficial; they are, indeed, a splendid pill, and I can heartily recommend them to all those who suffer from constipation."

Milburn's Laxa-Liver Pills are 25c. per vial, or 5 for \$1.00, at all dealers, or will be mailed direct on receipt of price by the manufacturers, The T. Milburn Co., Limited, Toronto, Ont.
