

**RESULT OF SKIN GRAFTING.**

Something Went Wrong, and Now the Patient Must Suffer Another Trial—Interesting Surgical Case.

Louis Henschan, of Cincinnati, was severely burned about the back, shoulder and right arm on February 25. He lay for weeks in the City Hospital at the point of death, but gradually his horrible wounds began to heal, with the exception of the multiple wounds which had denuded the arm of almost every particle of skin. The stubborn resistance offered by these wounds against all known remedies finally decided the physicians to make a skin graft. As quite a large quantity of cuticle was required to cover so extensive an area the physicians were at a loss to know where to obtain it.

In this dilemma Henschan's sisters volunteered to supply it, and would have done so had not a brother-in-law stepped forward and made the sacrifice. Under all known aseptic precautions enough skin was removed from the brother-in-law's thigh to cover the surface. After this the healing of the wounds went rapidly on, and the patient was discharged from the institution in less than a month afterward.

Recently, however, the new skin taken from Henschan's relative has begun to contract, drawing the arm up so that it has become almost entirely useless, the contraction being so gradual that it was scarcely perceptible. But one remedy remains, and that is to remove the shrivelling skin and put other skin in its place. The operation, if consented to by the patient, will be a difficult one and require skilful handling.

**NORWAY'S SKATING SOLDIERS.**

Newly-Organized Corps for Scout and Picket Duty in Winter.

The Norwegian army has lately organized a highly trained corps of skaters. The men are armed with repeating rifles. They wear a specially constructed skate evolved after numerous experiments with various types. The heel is so shaped as to enable the men to turn with great rapidity. As a matter of fact they perform the "right about" in much quicker time than infantry, spinning round as though on a pivot at the word of command.

The corps can be manoeuvred with a rapidity equal to that of the best trained cavalry, and at a recent review—one of the fjords—their evolutions astonished the military representatives of other nations who were invited to witness the display.

For patrol and scout duty they are expected to be of the greatest use, as the ice season in Norway is of considerable duration.

The men are the pick of a skating nation, and they are commended by an ex-champion. They are capable of traveling 80 miles a day on the ice, fully equipped.

**ARE YOU JEALOUS.**

After marriage jealousy should be striven against just as one battles with fever or any other kind of disease. It creates misunderstandings by the hundreds; it chills love, though it is a sign of love, and it makes the unity of thought and feeling that should exist between husband and wife a hollow mockery.

It is the wife's part to cure this canker. Women are so delicately sensitive and so wonderfully wise and diplomatic, that without throwing their cards on the table, and thus revealing their hand, they can force the game to go any way they will. Jealous husbands are very quick to see when their wives really adore them, and then alone, and the woman who is the victimized wife of a jealous man instead of scornful his weakness, does well to be lenient toward it, and tender, remembering that her conduct alone is its cure, or, on the other hand, its aggravation.

There are wives who argue falsely that when their husbands cease to be jealous they also cease to love them with the passionate fervor of the first few years of married life. Never was there a more absurd mistake. Of a truth, only the woman who has not known the pangs of jealousy would so argue.

Jealousy has been known to kill people. It saps the strength and weakens the vitality of the heart. So, though it does invariably imply love, and real hot love, too, it should be quenched by the sufferer and the object of his or her devotion. Love remains; be certain of it, and more true it is love where the green-eyed monster has been killed.

**EVIDENTLY.**

I think the man who works at that place across the street is the most faithful and conscientious workman I ever saw. He never takes a holiday, and always labors away till it's too dark to see any longer.

Faithful workman! Great Scott! He's the proprietor of the shop!

**THE WORLD DO MOVE.**

And, departing, leave behind us  
All we cannot take away.

**Date of General Election.**

When is it to be? This question is disturbing the souls of politicians. In view of the material alteration in the commercial policy of the country which would be involved in a change of government it is a matter which concerns the general public. Meanwhile the aching corns of the populace cry for a remedy and the government give no heed to the demand. Look here! don't suffer this neglect to delay the use of means open to all and which removes the most painful and obstinate corns in two days. Painless, sure acting corn cure, Putnam's Painless Corn Extractor.

**LATEST IN LIFE BELTS.**

**Beware of Ointments for Catarrh that Contain Mercury**

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface. Such articles should never be used except on prescriptions from respectable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, price 75c. per bottle. Hall's Family Pills are the best.

**TREES AND LIGHTNING.**

According to a recent investigation of lightning strokes in trees which a German has carried out, the beech tree is less often struck by the flash than any other. It is unwise to take shelter from a thunderstorm under any trees, but if it is a case of needs must the beech is the best and the oak or poplar among the worst.

Mrs. Henpeck—You have been very aggravating at times, and we have not always got along very well together; but still, if I had to do it over again, I'd marry you just the same.
