

ARE YOU AS WELL AS A YEAR AGO?

Dr. Williams' Pink Pills Point the Way to Health and Strength.

Ask yourself the important question whether you are as strong as you were a year ago, as bodily fit as you should be. Many a reader has to confess "No." Some weakening ailment has during the past year laid hold of the system, unfitting you for the duties of life and seriously clouding the outlook of the coming days. It may be rheumatism with its sharp twinges of pain, indigestion, headache, nervous debility, depression and lack of energy, or the pains and ailments which only common folk know. It is well to know that all these weakening disorders arise from an impoverished condition of the blood. Renew and enrich your blood and all your troubles will cease. This is a strong statement, but it is made on the testimony of thousands who once suffered, but who have gained health and strength by the aid of the new, rich blood supplied by Dr. Williams' Pink Pills. We can quote thousands of cases similar to the following: Mr. Jos. Grandmaison is a young man well known in the town of St. Jerome, Que. He says: "For a couple of years I began to find my strength failing, but did not dream that the trouble was serious. As I grew weaker I began to doctor, but it did not help me. The least exertion made my heart palpitate violently, my stomach seemed out of order and my whole system became so run down that I was finally forced to quit work. I had now been doctoring for almost six months and was very naturally growing discouraged. At this juncture I read of a case similar to mine, cured through the use of Dr. Williams' Pink Pills, and decided to try them. I took the pills faithfully for about two months, gradually growing stronger and at the end of that time I was as well as any man could be. I shall always praise the medicine that raised me from despair to the blessing of good health."

WORLD'S LONGEST CHIMNEY.

Wales Has One Two Miles High, and a Brook Through it.

Wales has probably the longest chimney in the world. It is two miles high, and has a brook running through it. The chimney is connected with the copper works at Cwmavon, near Aberavon. This is how it came to be built. About 60 years ago the copper smoke from these works was the plague of the neighboring countryside. It settled upon and destroyed the grass for 20 miles round, while the sulphur and arsenic in the fumes affected the hoofs of cattle, causing gangrene. The company tried all sorts of devices to remedy the trouble, but in vain.

Finally, Mr. Robert Brenton, who was later engineer of the Sind Railway in India, solved the problem. The copper works are at the foot of a high, steep mountain. Mr. Brenton constructed a fine chimney running continuously from the base to about 100 feet above the summit, following the natural slope of the ground. The brick which lined it, and of which it was largely constructed, was burned close by. A small spring, rushing out near the mountain top, was turned into the chimney, and allowed to flow through almost its entire length to condense the smoke. Once a year it is swept out, and about a ton of precipitated copper

obtained. Its top can be seen for between 40 and 50 miles.

THUNDER CAUSED BY STEAM.

Moisture Converted into Steam by Electric Discharge.

It has usually been thought that the noise of thunder is caused by the closing up of the vacuum created by the passage of the lightning, the air rushing in from all sides with a clap; but the intensity of the noise is rather disproportionate, and it is now supposed that thunder is due to the intense heating of gases, especially the gas of water vapor, along the line of electric discharge, and the consequent conversion of suspended moisture into steam of enormous pressure.

In this way, says Harper's Weekly, the crackle with which a peal of thunder sometimes begins might be regarded as the sound of steam explosion on a small scale caused by discharges before the main flash. The rumble would be the overlapping steam explosions, and the final clap, which sounds loudest, would be the steam explosion nearest to the auditor.

In the case of rumbling thunder the lightning is passing from cloud to cloud. When the flash passes from the earth to the clouds the clap is loudest at the beginning. Trowbridge gave substance to these suppositions by causing electric flashes to pass from point to point through terminals clothed in soaked cotton wool, and he succeeded in magnifying the crack of the electric spark to a terrifying extent.

A MOTHER'S PRAISE OF BABY'S OWN TABLETS

Mrs. B. S. Baker, East Margarville, N. S., writes: "No mother would recommend for her baby any medicine of which she was not absolutely sure. A baby's life is too precious. A mother is always pleased to recommend to other mothers something that has been valuable in restoring the health of her own child. That is why I can highly recommend Baby's Own Tablets. They cured my baby who was suffering from constipation and I feel that I cannot praise them enough. I would advise all mothers with sickly babies to give them a trial, well knowing what the result will be." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

WOMEN NEED GIN PILLS.

Port Dufferin, N. S.—"I was troubled with Kidney Disease for several years. My back was weak. I had terrible headaches, and was so restless that I could not sleep at night. At last a friend told me about Gin Pills. I, at once, got a box and after taking them, I felt better—after three boxes I was cured."

A Prime Dressing for Wounds.—In some factories and workshops carbolic acid is kept for use in cauterizing wounds and cuts sustained by the workmen. Far better to keep on hand a bottle of Dr. Thomas' Eclectic Oil. It is just as quick in action and does not scar the skin or burn the flesh. There is no other oil that has its curative qualities.

A KING'S BROTHER-IN-LAW.

The Duke of Fife's Sway Is Still Feudal.

Of all the great Highland Chieftain there is none more patriotic than the Duke of Fife, brother-in-law of the King, says the London Daily Sketch. The Duke has his own band of pipers, and it is to their shrill music he rises each morning when he resides at Mar Lodge. Like the Campbells in Argyll, his sway it still feudal, he being more king than landlord to his tenants and retainers.

He likes to recall one unique distinction, that of having entertained his prospective mother-in-law, the then Princess of Wales, to a magnificent ball at his house in Portman Square. Never before or since has a bachelor played host to a princess of Wales or a Queen consort. One of the possessions he values most is a beautiful miniature depicting his bride-elect, which was presented to him by Queen Alexandra on the morning of her daughter's wedding, bearing a card inscribed: "From your mother-in-law." The Duke and Duchess of Fife are often to be seen in the neighborhood of Portman Square, walking arm-in-arm, making pilgrimages to some of the numerous art shops in the neighborhood, for they are both great lovers of curios.

RELIEF IS QUICK; BUT CURE IS SURE

NAPOLEON VAILLANCOURT SPEAKS OF DODD'S KIDNEY PILLS.

They soon cured his Kidney troubles, and in six months there is no sign of their coming back.

St. Anne des Monts, Gaspe Co., Que., Nov. 6 (Special)—"It is six months since I was cured, and I have had no return of my trouble, in these words, Napoleon Vaillancourt, a well known resident of this place, gives evidence that Dodd's Kidney Pills not only give quick relief to sufferers from Kidney Disease, but clean that disease out, root and branch, and cure it permanently.

That Mr. Vaillancourt had Kidney Disease everyone here knows. That he is cured is also established beyond a doubt. Dodd's Kidney Pills did it.

WHERE DOES IT GO?

"There is one thing I can't understand about Christmas."

"What's that?"

"How is it that everybody gives

more than he gets, and yet nobody gets as much as he gives. I can't understand what becomes of the surplus."

WHY IT ISN'T IN.

"Got your coal in yet?"

"I should say not. Do you think I'm a cheap guy? When I want coal I'll let the neighbors know that I can afford to pay the top price for it."

ONE WAY OF PUTTING IT.

"That man seems to be proud of his stupidity," said the impetuous person. "I wouldn't put it that way," replied the conservative friend. "I'd merely suggest that when it comes to a thirst for wisdom he's a prohibitionist."

A Pill That is Prized.—There have been many pills put upon the market and pressed upon public attention, but none has endured so long or met with so much favor as Parmelee's Vegetable Pills. Wide-spread use of them has attested their great value, and they need no further advertisement than this. Having firmly established themselves in public esteem, they now rank without a peer in the list of standard vegetable preparations.
