Uxbridge, April 3.—"The battalion was one large family, full of esprit de corps and pulling together under their commander," this was how Col. Pearkes, V.C., described the 116th Battalion, at the banquet tendered by the citizens of Uxbridge in the Town Hall Monday evening.

The young ladies were interested in Colonel Pearkes's statement that not one officer or man of the battalion had brought back an English bride.

France Donates the Land Where Canadians Fell

Ottawa, April 3.—Government business, including the voting of supply, occupied the attention of parliament today. Standard time was still observed, it being again explained that parliament would continue to travel an hour behind Ottawa time until the railway board has given its judgment in the matter.

Hon. N. W. Rowell dealt at considerable length with questions relating to the meeting of the imperial war cabinet and the imperial war conference. Incidentally the president of the privy council answered a number of questions put by members of the opposition.

He promised Mr. Lemieux that steps would be taken to make the headstones distinctively Canadian.

Wedding Bells

At the home of Mr. and Mrs. Geo. Lazier, 2nd Concession of Tyndings on March 28th at high noon, the Rev. W. W. Jones officiating, a very pretty wedding was solemnized, between Florence, youngest daughter of Mr. and Mrs. Lazier and Ralph Lawrence, son of the bridegroom.

The wedding march, played by Mrs. Floyd Morden, sister of the groom, the bride entered the drawing room on the arm of her father, and looked very pretty in a dress of white crepe-de-chene, beautifully braided, and carried white carnations and maiden hair fern. She was attended by Miss Mary Thompson, wearing pink violets and carrying pink carnations, while little Miss Francis Jones acted as flower bearer.

The groom was ably assisted by Mr. Lorne Lazier, brother of the bride. After congratulations and during the signing of the register, Mrs. Marshall sang Times Roses, after which the guests were conducted to the dining room, which was tastefully decorated for the occasion, where a sumptuous dinner was served. The happy couple left on the afternoon train for the west, bride travelling in a navy blue suit, with French hat and brown wolf fur, and the bridesmaid was a cameo ring, to the best man a signet ring, and a beautiful brooch pin to the pianist. On their return a large reception was given them at the home of the groom's parents. The popularity of the bride was evidenced by the large number of costly and beautiful presents.

Cape Vincent, N.Y., April 4.—After drifting helplessly through the night, tossed about by one of the worst seas of the year, the engine in their power boat dead and their anchor line broken, five men of this village drifted on to Hard Scarpie, on the west side of Point Peninsula, Saturday and came to this village in an automobile. The men were on their way back from Duck Island, where they had gone in the morning and were within seven miles of Cape Vincent when their engine broke down.

A question that is being asked is, "What is a War Service Badge?" "C" badge was authorized for service in Canada to men of a lower category than A, and yet men who were discharged in Canada after three years' service could not obtain the badge, while others were granted it after being only a few weeks in uniform. It is held that the issue of the badge should not be dependent upon the conflicting views of medical boards but upon the service of the individual.

Belleville Board of Trade Abroad

A letter has been received from France giving the welcome information that the Belleville goods and machinery exhibited there have been sold at a very good price and that important business connections have been made for future transactions through those represented at the great Lyons Fair, which completely eclipsed that formerly held in Germany. Lt.-Colonel Marsh held the unique distinction of being appointed chairman of the Canadian committee and is one of the two Canadian members on the executive committee of the British Federation of Industries in connection with the Lyons Fair, embracing representatives of Great Britain, Ireland, Canada and Australia. Probably a Canadian chamber of commerce will be established in Paris or London. Sir George E. Foster, our Minister of Trade and Commerce, entertained and was entertained by the Mayor of Lyons, at which function Colonel Marsh was present. We congratulate the president of the Belleville Board of Trade upon the conditions he has established which cannot fail to be of benefit to all manufacturers and business men of this district.

Short Hours for the Farmer

Peter Ray, that long-headed farmer from Watertown, has a rather interesting letter in today's Times which raises a social, political and economic question which may be hard of solution. He tells us that the farmers are growing tired of working 15 hours a day six days a week, and that they are proposing to put the time down to eight hours a day, five days a week, to be in line with the Labor men. He says that, of course production will be reduced and prices will be increased which will be in harmony with the spirit of the times. There is reason for this view. Just now the farmers of Wentworth and the Labor men of Hamilton are endeavoring to organize on the same political platform. If the Labor men insist on shorter hours and more pay they cannot grudge the same to their friends, the farmers. The trouble is that you cannot very well reduce the hours and increase the pay without increasing the cost of the articles made or the food produced.—Hamilton Times.

Asiatics Unhappy in League of Interiors

"Not Too Proud to Fight" Adds Jap Envoy, Asking Simple Justice

Paris, April 4.—No Asiatic nation could be happy in a league of nations in which sharp racial discrimination is maintained, Baron Makino, head of the Japanese delegation to the Peace Conference, declared in a statement to the Associated Press on the position of Japan.

"We are not too proud to fight," the Baron said, "but we are too proud to accept a place of admitted inferiority in dealing with one or more associate nations. We want nothing but simple justice."

"Japan is glad to join a league of nations to maintain peace and order," the Baron added. "Japan does not wish to force her laborers as immigrants on any associate countries and recognizes that this question is one for each nation to deal with itself."

Japan feels that it is entitled to a frank and open admission by the Allies that the principle of equity and justice is a fundamental tenet of the League of Nations, the Baron continued. Japan sees difficulties in the way of a permanent and successful operation of the league, the Baron asserted, unless the contracting parties enter it with mutual respect.

DAYLIGHT SAVING

There no doubt is such a thing as saving food, saving fuel, saving money, etc., but how it is possible to save daylight beats me.

We get all the daylight there is to be had whether we stop the clock altogether, turn it backwards or forwards, or dump it out in the back yard.

The whole thing resolves itself into this one fact, a lot of people want to quit work at 5 o'clock in the afternoon.

There's no getting by this fact too, that if farmers quit work at 5 o'clock in seeding, haying and harvest times they must lose a lot of money. But you say, let him get to work earlier.

There are but few people who crawl out of bed earlier than the average farmer. With the exception of picking stones, and ploughing there is not much work in the form of cultivation and harvesting that a farmer can do advantageously at an earlier hour than he already does it.

Children that have a couple of miles or so to walk to school must get away not far from daylight.

A farmer can't haul his hay and grain into the barn an hour earlier than he is doing it now. He can't use his hired help to advantage at an earlier hour than he is now doing.

As we see it, this tinkering with the clock ought to stop. There should be only one time and that "sun" as we call it "Standard" time.

Each class of workers can set their own working hours to suit themselves.

As it is, lots of classes are already doing this. Banks have their stated business hours, doctors hang out their shingles stating their hours for giving physic or pulling a tooth, merchants have their early closing hours and mid-week holidays, so it is quite easy for any one class to close shop at any hour it sees fit without disturbing anyone else. All hours are alike to those with fixed periods for work, but all hours are not alike for the successful farmer.

There are certain hours in the day that are more suited for the particular job he may be at than any hour later or any hour earlier.

We believe the farmer should be given the greatest liberty of action and everything possible should be done to facilitate his work and further his interests.—Tweed News.
