Analysis of the Water of the Georgian
I have made a careful quantitative analysis of a quantity of this Water sent me by the Proprietor of the Spring, Captain Kains. It is a Saline Water, containing earthy Chlorids, with portions of Bromids and lodds, thus resembling the Plantagenet Water, from which it differs chiefly in the presence of a portion of Sulphates, which are not often met with in Waters of this class in the Province. It has a specific gravity of 1008.78, and contains in one pound avoirdupos, the affixed quantities of the following substances: ntities of the following substances:-

Chlorid of Sodium. 00
Chlorid of Potassium
Chlorid of Calcium
Chlorid of Magnesium. 3
Bromid of Magnesium. 1
Iodid of Magnesium. 1
Salphate of Lime. 1
Carbonate of Lime. 2
Carbonate of Magnesia. 2
Carbonate of Ion. 3 2.54016 14350

T. S. HUNT,

Chemisl to the Geological Comm

Office of the Geological Survey,

Montreal, May 26, 1851.

Montreal, May 26, 1851.

Having compared T. S. Hunt's, Esq., analysis of Mineral Water of the Georgian Spring with the ann made by him of the Plantagenet Spring with the ann made by him of the Plantagenet Spring water, I mention that the Water of the Georgian Spring coal all the ingredients found in the Plantagenet, with addition of Sulphate of Line, differing however in so I have delayed gaving my opinion of the efficacy of Georgian Water, in order that an opportunity noigh afforded me of speaking more confidently of the advant to be derived from its employment. I have wrine beneficial results from its base, as an apericant, aniacid directic, and also in allaying the distressing go deraugement attendant upon the early months of punty. I have not such that all the care of them as Seroful, and Dyseppta Aliments, as any other Mi Water met with in the victionity of this city. W. E. Scott, M. D.

Attending Physician Mentical General Hospita Lecturer on Forcasic Mediciae University of McGill Montreal, August 12h, 1851.

Mr. W. E. Bowmax:

Montreal, August 12th, 1851.

Mr. W. E. Bowman: I give you my opinion of the Georgian Spring Water, of which you are Agent. Being induced by its superior qualities, as shewn me in the Analysis furnished me by T. S. Hout, E.S., Chemist to the Geological Commission, to give it a fair trial in many cases, both in my public and private prencise, and I have not been disappointed of Mineral Waters that I have ever prescribed. I consider it highly accurate good in most cases of Rheumaisto, Dyspepsia, and many other diseases requiring Tonies, Alteratures, or Laxatives. In Constitution of the Bowels, caused by Sedenlary Habits or Old Age, it will be found extremely useful, and if judiciously administered, it is likewise a most valuable reusedy for many diseases incident to women. I have also noticed in apprentices of the contraction of the most superior of the contraction of the most superior of the contraction of the most superior of the contraction of the work of the contraction of the property of the contraction of the new and assume that extreme thirst in hot weather, which, by grantying with ordinary drinks, so debilitates and enervates people generally. Yours, & Co., Chief Physician to the Hotel Dieu Hospital, Lecturer on Surgery, "School of Medicine and Surgery," Consulting Physician to the Lying-in Hospital, 181. Pelaje Beury Street, 13th October, 1851.

W. E. BOWMAN, McGill Street, sole Agent
