The public has been showing signs of impatience because of the absence of news from the front and this has led headquartres to depart from its practice and issue reassuring statements in general terms.

The German general staff announces that the situation on the west front is still "favorable." It declares that the French and Erglish have at no place on the whole battle front won a victory and that the Germans can look with confidence to the outcome. Other than this no news is obtainable regarding the progress of

operations.

The fact that the Siberian corps was engaged in the fighting at Lyck, East Prussia, is noted with interest here as indicating that the mobilization of this corps must have been accomplished with extraordinary rapidity to enable it to arrive in Europe within six weeks after the Russian mobilization order was ordered.

PARIS, Sept. 16.-4.55 a. m.-

PARIS, Sept. 16.—4.55 a. m.—Out of 700 wounded Germans who arrived at La Rochelle yesterday, 150 were in such a grave state that they could not be transferred from the station to the hospital, and several died during the day.

The mortality generally among the German wounded is much higher than that of the British or French wounded in the hospitals at Vichy. Since the war began over 2,300 have been cured and have returned to the front, while many more are on convalescence leave. Most of the French wounded are suffering from bullet wounds, while most of the Germans have shell and bayonet wounds.
