New York, Dec. 12.-The Legislative Life Insurance Investigation Commit-tee met again yesterday. It now looks as if Thomas F. Ryan, who bought 502 shares of the Equitable Life Assurance Society, would answer the questions h refused to reply to the other day when

on the stand.

The specific questions which Ryan refused to answer were: "Did Harriman say there would be any results injurious to your interests in case you refused to admit him to share in the ownership? Also, "Did he say any action on the part of the Legisla-ture or any official, any officer of the Government, would be taken in the event you refused to accede to his re-

Counsel for Ryan gave out a state-ment that they have advised Ryan that he should answer the questions and that he is prepared to do so whenever recalled.

The committee was engaged for a part of the time yesterday in inquiring into the affairs of the Provident Savings Life Assurance Society of New York. Charles T. Hughes had brought out, by questioning Edward W. Scott, the president of that company, that when Frank R. Hedley of New Bedford, Mass., secured control of the company in 1890, he borrowed \$162,000 from the company on his collateral notes, to pay up the stock of the insurance company. Scott testified that Hadley never repaid those loans and that the insurance company realized \$30,000 on the sale of the collateral. The companies in which Hadley was interested failed and he committed suicide. "It cost the insurance company just

\$132,000 for Hadley to get control of \$132,000 for Hadley to get control of it," said Hughes.

Besides the \$162,000 Hadley had bor-rowed \$200,000 to pay for the assurance companies' stock and had put up that stock as collateral. Scott testified that he bought that stock at auction after Hadley's death and borrowed money to do it from the New York Security and Trust Co. John A. GIVE YOUR STOMACH A NICE VACATION

Don't Do It By Starving It Either Let a Substitute Do The Work.

The old adage, "All work and no play makes Jack a dull boy," applies just as well to the stomach, one of the most important organs of the human system, as it does to the man himself.

If your stomach is worn out and

the man himself.

If your stomach is worn out and rebels against being taxed beyond its limit, the only sensible thing you an do is to give it a rest. Employ substitute for a short time and see if it will not more than repay

you in results.
Stuart's Dyspepsia Tablets are a stuart's Dyspessia Tamets are a willing and most efficient substitute. They themselves digest every bit of food in the stomach in just the same way that the stomach itself would, were it well. They contain all the essential elements that the gastric juice and other digestive fluids of the stomach contain and actually act the stomach contain and actually act just the same and do just the same work as the natural fluids would do, were the stomach well and sound. They, therefore, relieve the stomach, just as one workman relieves an-other, and permit it to rest and re-cuperate and regain its normal health and strength.
This "vacation" idea was suggested

by the letter of a eminent lawyer in Chicago. Read what he says: "I was engaged in the most momentous undertaking of my life in bringing about the coalition of certain great interests that meant much to me as a coalities. It was not the work of days, but of months; I was not the work of days, but of months; I was working night and day almost when at a very critical time my stomach went completely back on me. The undue mental strain brought it about

and hurried up what would have hap-pened later on.
"What I ate I had to literally force "What I ate I had to literally force down and that was a source of misery, as I had a sour stomach much of the time. My head ached, I was sluggish and began to lose my ambition to carry out my undertaking. It looked pretty gloomy for me and I confided my plight to one of my clients. He had been cured by Stuart's Dyspepsia Tablets and at once went down to a drug store and brought a box up to the office.

"I had not taken a quarter of that box before I found that they would do all the work my stomach ever

A RIGHT WAY and A WRONG WAY

Many people have many ways to bring bout the same result. Most of them are Many people have many ways to bring about the same result. Most of them are mistaken ways, but this is next-known until the test of time points plaisly to the error. Practically there are but two ways to accomplish anything; a right way and a wrong way. Take, for instance, a man with a bad-back, there are lots of them, and of various kinds, some with stiches and twitches, others with cricks and twitches, others with cricks and twinges; then there's the dull, heavy continuous kind that lasts all day and doesn't sleep at night. They're all bad enough, they're all hard enough to get rid of. Some people rub the back with liaiment, others cover it with plasters, either or both means often bring relief, but the pain comes back—it's the wrong way to cure the trouble.

DOAN'S KIDNEY PILLS

The December "Little Folks" is full of simple Christmas stories and verses that will delight the younger children. There are also easy puz-zles that will keep their busy minds pleasantly employed, when the efder people want a rest.

The Poole Publishing Co. have forwarded us a copy of Booth Tarkington's latest story, "The Conquest of Canaan," The scene is laid in a small town in Indiana. The conquest is made by Ariel Tabor and Joe Louden, a girl and boy who, as children, were the two black sheep of the town. They leave the town for a time and the tide turns in their favor, in spite of obstacles, upon their return. The story is told in Booth Tarkington's own charming style. Anyone at a loss what book 'to give as a Christmas gift can make to give as a Christmas gift can make no mistake in choosing this. KEITH'S.

Of the many magazines now pub lished, Keith's is one that every per son contemplating the building of home should be in possession of. The many different layouts, exteriors, interior decorations, color schemes etc., it contains make it invaluable to every household.

The monthly publication by Wm. T. Comstock, New York, entitled "Architects' and Builders' Magazine," may be said to be in a class by itself. The manner in which it deals with modern building the world over easily places it in the foremost ranks of building magazine publications now before the public.
