We are credibly informed that the note in reference to Acadia College, which appeared in our last issue, failed to convey an accurate representation of the facts in the case. It appears that some parties have misunderstood the action of the Senate and the Board of Governors. The interests of the University may be safely left with the legally appointed guardians.

In attempting to get it back again the elder got over the side. He let go his hold, and the water being very deep, immediately sank, and it is supposed came up under the raft.

FOR THE LAND OF EVANGELINE.--The train which arrived at Vancouver station last Thursday included two cars of working men and their families from Salem, Lynn, Lawrence and Lowell, bound for Acadia to pass a summer vacation. There were about 40 families, and the cars were well filled with them and their lunch baskets. The people all appeared well acquainted with one another, and were getting apparently more enjoyment out of the trip than do the tourists in the Pullman cars. The children made the cars their play-rooms during the trip, while the parents passed the time in watching them and the passing towns and scenery.--Ex.
