London, July 8.—Albert Thomas, the French secretary of war, who has been visiting David Lloyd George, minister of munitions, testified in a statement to the press his belief that England is now so organized that it will be able to furnish an unlimited supply of munitions in any of the allies' causes.

Dallas, Tex., July 8.—Admission that Mrs. Frank Holt received a letter from her husband intimating he had planned to blow up one or more trans-Atlantic liners, with timed bombs, was made by Mrs. Holt's attorney here, J. E. Cockrell. Mrs. Holt previously had denied receiving the letter. "The proper authorities were notified immediately," explained Mr. Cockrell, "and for that reason nothing was made public about that feature of the letter."

Halifax, N. S., July 9.—The Atlantic Transport Line steamship *Minnehaha*, which caught fire on Wednesday while on a trip from New York to London with 15,000 tons of war munitions on board, following an explosion believed to have been caused by an infernal machine sent aboard by Frank Holt, who shot J. Pierpont Morgan, crept into Halifax harbor through a mist this afternoon. Early advices from Captain Claret indicated that the work of extinguishing the flames had proceeded satisfactorily, and that all danger seemed past. So far as could be learned the munitions had not been affected.

There is accommodation for 500 sick. These will be distributed among the various convalescent homes offered to the Government in every province in the Dominion. From now on the number of returning convalescents will steadily increase.

London, July 9.—England's "bad boys," nearly 20,000 of them, have become heroes in the trenches in Northern France. Figures given out here today showed that 19,848 former inmates of reformatories and industrial schools have served with honor in the army and navy since the war began, and that three have been awarded Victoria Crosses by King George for gallant conduct.

Rome, July 9.—The Austrians have launched thousands of floating mines in the Adriatic, according to information reaching the Minister of Marine today. From the Austrian naval base at Pola they have been carried southward and along the Italian coast. A sailing ship sighted one of the mines off Bari yesterday and exploded it with rifle shots.

Germans in Southwest Africa All Surrender

Outwitted by Gen. Botha The Kaiser's Forces Lay Down Arms

London, July 9.—Under the heading "The end of German Southwest Africa," Reuter's Capetown correspondent cables:

"As a result of General Botha's tireless and swift advance and masterly enveloping movement in the face of enormous natural difficulties he completely outgeneraled, outmanoeuvred and outgitted the Germans, and the capture or surrender of the remainder of the enemy in the field is only a matter of short time.

"As a result of the operations, all the British prisoners in the hands of the Germans have been released, 700 prisoners have already been taken, and any attempt at scattered guerrilla warfare has been frustrated." After suppressing the rebellion against British authority in the Union of South Africa, General Botha took command of British operations against German Southwest Africa, and headed an invasion of that territory late in February. His operations were reported to be uniformly successful.

The forces under his command captured "Olymbingue" on May 18, two days later he had occupied the important railway junction of Karibb and other stations after a march of thirty-five miles over a waterless waste during which the troops suffered severely from heat, thirst and hunger.

The road to Windhoek, capital of the German territory was opened by the occupation of Keetmanshop. Windhoek was taken May 18, with out opposition on the part of the German forces. Martial law was proclaimed throughout the conquered territory.

Reports from London recently have stated that the surrender of all the German forces was expected soon. British military experts have contended that General Botha had conducted a masterly campaign. German Southwest Africa is located on the west coast of Africa, extending from the Orange River to the Cune River about 900 miles. It lies between Portuguese West Africa and Cape Colony, extending eastward to the British sphere. The area is 322,450 square miles. The population in 1913 was 14,816 of whom 12,292 were Germans. The military force including police, is given in the last report as 2,992.

London, July 10.—Because of reports that submarines were waiting for her, the White Star liner *Adriatic* was conveyed by a British destroyer from the moment she entered the war zone off the Irish coast, until she reached Liverpool, it was learned here today. Some of her officers complained that the Admiralty did not give the line advance information that she was to receive an escort. Had this been done, they said, the liner would have carried her full complement of passengers.

Will Release Troops For Service in France

London, July 9.—The surrender of the entire German force in German Southwest Africa, closes one of the most important campaigns of the great war, and releases for service elsewhere the South African contingent.

The campaign against the most important German African colony was considered so vital that all the resources of the South African Union were used in it, but its successful conclusion probably means that, despite the fact that German East Africa remains unconquered, a contingent will be despatched to France, while additional forces will continue the campaign in East Africa. It is believed German Southwest Africa will become a part of the South African Union.

NERVOUS CHILDREN

Hard Study and Too Little Exercise Leads to St. Vitus Dance

There is much criticism of modern educational methods that require too much work of school children, allowing them too little time for play and preventing sufficient out-of-door exercise. When the study of music or any other accomplishment, with the necessary practice is added the strain is increased. Under these conditions the blood becomes impoverished and fails to nourish the nerves. The child becomes restless, and twitching of the muscles follow. Sometimes the child stumbles in walking and drops what it tries to hold. Pallor, listlessness and irritability are symptoms that early should be met. The demands made upon them, and that St. Vitus dance has fastened its hold upon the child.

In this condition there is no tonic can equal Dr. Williams' Pink Pills, which build up the blood, strengthen the nerves and safely help to meet the demands of the growing child. Out-of-door exercise, nourishing food, plenty of sleep with these tonic pills will cure even the most severe cases of St. Vitus dance. We offer the following proof: "Up to the age of ten years," says Mrs. Joanson, of Hemford, N. S., "my son Calvin was as healthy and rugged as any child could be. Then he began to complain that his eyes hurt him, and of pains in the head, and began to fall back in his studies at school. Then I noticed a twitching of the muscles of his face and arms, and later his whole body seemed to be in constant motion. Our family physician was called in and pronounced the trouble a severe attack of St. Vitus dance. He was under the doctor's treatment for some three months but did not seem to improve. We had taken him from school, and were careful that nothing should excite him, but notwithstanding he grew worse, and the next start would bring on attacks of hysteria. This went on for some months until Dr. Williams' Pink Pills were brought to my attention, and we decided to give him this medicine. After using a few boxes there was a noticeable improvement, and by the time he had taken nine or ten boxes he had recovered his former good health. There has been no sign of a return of the trouble, and I can scarcely say how thankful we feel for the complete restoration of our son's health."

Parents who find their growing boys or girls becoming nervous should lose no time in giving them Dr. Williams' Pink Pills. You may ward off an attack of St. Vitus dance or if the trouble has reached that stage the Pills will effect a cure. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Stomach Troubles Quickly Cured

People go on suffering from little stomach troubles for years, and imagine they have a serious disease. They overeat or over-drink and force on the stomach a lot of extra work, but they never think that the stomach needs extra help to do the extra work. If these people would take Tonaline Tablets regularly they would be a great big help to the stomach in its strain of over-work. No matter what you eat or drink Tonaline tabs sweep your sour stomach and eruct gas belching in five minutes. The heaviness disappears, and the stomach is greatly aided in its work of digestion.

TONOLINE Tablets not only promptly relieves all distress, but if taken regularly will absolutely cure indigestion by building up the flabby, overworked walls of the stomach and make them strong enough to digest the most hearty meal. \$1 for a 50 days' treatment. Mailed by American Proprietary Co., Boston, Mass.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girl! Try it! Hair gets soft, fluffy and beautiful—Get a 25 cent bottle of Dandene.

If you care for heavy hair that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Dandene. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fashish, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Knovot's Dandene from any drug store and just try it.

Funeral was held Sunday afternoon July 5th, Rev. Calvin Currie was the officiating clergyman. The pall-bearers were W. H. Somerville, N. D. Hetherington, Stephen Starkey, Hartley Connell, Charles Connell, Jr. and W. K. Gourley.
