## Avoid Discomfort in Summer Cooking by Using an Oil Stove

There's no use in your standing boiling over a hot stove when you cook a meal in "the good old summer time." The sweltering days will soon be here and if you depend on the ordinary wood or coal range or stove, you know the preparation of your meals will become all but intolerable drudgery. Why suffer unnecessary hardship? Why not cook in a cool, comfortable kitchen which will permit you to keep your good temper and make your work a pleasure? You can do this by using a reliable Oil Stove, which is economical, absolutely safe, convenient and efficient. We sell them and will be glad to show you, and tell you all about them.

## Saskatchewan Soldiers Practically Disfranchised

Three Seats at Large in Provincial Legislature, Allotted to 33,000 Soldiers, While 30,000 Austrians and Germans' Influence 59 Seats

Regina, Sask., Apr. 3.—"It is no false alarm I am sounding when I say that this province is in danger of losing its British character," asserted Rev. Murdoch MacKinnon, the vigorous pastor of Knox Church, in discussing the rising tide of alien enemy aggression in Saskatchewan and what he conceives to be the fall of the constituted authorities to protect the interests of the boys at the front.

"I assert, and the facts confirm my views, that unless the European alien enemy citizens who are entitled to vote in this province are disfranchised, or in some other effective way curbed in their hostility to Canada's soldiers who are fighting against the national enemies in this war, our soldiers will be paralyzed at the polls for their loyalty, and their interests will be neglected by a legislative body whose majority owe their seats to German and Austrian voters."

### Should be Disfranchised

"For my part, I unhesitatingly declare in favor of the disfranchisement, not only in this province, but throughout the Dominion, for a term of years of every elector born in Germany and Austria. I would not go behind man's birth in Canada, even though it is necessary to disfranchise his father, but certainly the situation in this province, and in Alberta, with their predominating Prussian element is fraught with real danger to British institutions. If we are to conserve the British character of Saskatchewan the Dominion Government must act, or we cannot, apparently, hope for much support from our Provincial authorities."

### Mass Meetings Soon

"I do not believe the east appreciates the menacing condition confronting these sections of the west where the alien enemy element is so overwhelming in political influence. We of the west do, and while the public men have not yet begun to speak out in favor of some united action to control the danger of British interests, they are talking among themselves, and I expect to see a mass meeting in every city of the province before many months that will register popular opposition among the fathers and mothers of the boys at the front."

### Practically Disfranchised

"The danger becomes worse daily for every man who enlists gives the German and Austrian left at home that much more influence at the polls under present conditions. Does the east realize what occurred in our Legislature last before it adjourned last week, when Premier Martin, with his Government majority, and against the solemn protests of the Opposition, insisted upon passing the act which practically disfranchises the boys at the front? That is the intent and purpose and practical effect of the law adopted, which gives three seats at large to be filled by the overseas contingent from Saskatchewan.

## A DANGEROUS GAME

During the past few weeks there has been carried on among French-Canadians an industrious and systematic propaganda against National Service. Quebec audiences have been told that the Borden Government is using National Service as a stepping stone to conscription; that National Service cards are being issued under false pretences; that those who sign them are made liable for compulsory military service; and, finally, that the one way out of the difficulty is to refuse to sign the cards and work for the return to power of Sir Wilfrid Laurier. At the present time the cities of Quebec and Montreal are plagued with posters denouncing the Government for attempting to bribe about conscription, and mass meetings are being daily held, addressed by Liberals and Nationalists, inflaming the public mind against the Administration. Within the past week alone meetings of this character have been addressed by one of the most prominent of Quebec Liberal members of Parliament—Alphonse Verreille—as well as by the official Liberal candidate for a constituency in Montreal, and a score of others who are well known among Sir Wilfrid Laurier's workers in Quebec. There is all too good reason to believe that this sinister activity is being engineered from Ottawa, and that it is not being carried on without the knowledge and consent of Liberal leaders outside Quebec. The other day, for example, the Montreal Herald Telegraph, of which Hon. George F. Graham is the editor, contained a double column front page editorial denouncing any attempt to enforce conscription in Canada.

The time has come in Canada for plain speaking. The truth is that a few mad partisans in the Liberal party are scheming to plunge this country into the turmoil of a war election, hoping thereby to be placed into power by the votes of the foreign element in the West and a disloyal minority in the Province of Quebec. We do not affirm that this madly partisan scheme has either the sanction or support of the rank and file of Canadian Liberals. We believe, as thousands of their sons at the front have shown, that they are just as loyal, just as devoted to the Empire's cause, as Conservatives. The menace lies in the character and well known ideas of the men who control the party's policies. The Liberal party, if elected to office tomorrow, would be dependent for its life upon the support of Austrians and Germans in the West, shirkers who want to avoid conscription in the rest of Canada, and Nationalists in the Province of Quebec; and its war policy would necessarily be influenced accordingly. To such a danger, this country must be aroused. If an election is forced before the war is decisively won the people must see to it that steps are taken to prevent slackers and conscription-haters, aliens and Quebec Nationalists from getting control of the country's destiny, while 400,000 of our best and bravest are at the front.
