The Modern Golf Ball. Making Bid for

The tests have been carried out at Wimbledon with a machine for driving golf balls have supplied some very interesting results, says the "Man chester Guardian." The machine is capable of swinging a driver with per-

fect regularity and what is described as "approximately the power applied by a first-class golfer." However this may be, one thing is certain; the power never varies, and once the machine has been arranged to play a particu-lar shot it will go on playing exactly wind it up and place a ball in front of it. Playing into the wind at Wimbledon, different balls were driven hospitality of Doug. Fairbanks is motion picture studio. Fairbanks is motion picture studio. Fairbanks is motion picture studio. Lady Astor's Pledge.

NEW YORK, June 6. (Associated Press.)—The next time Lady Astor visits America, she intends to make no speeches. That was what she confided to reporters before sailing for England. Few public speakers, or workers of any kind, are ever keyed of May. But if one sat near her, the eye quickly observed that she incessantly wrung her hands behind her back and ran her fingers over and under her jeweled bracelets, the muscles of her arms and shoulders quivering from nervousness. Somehow the strain never seemed to affect the clarstrain never seemed to affect the clar- This fence is the longest that has strain never seemed to affect the clarity of her speaking tones. In fact she talks to crowds, no matter what their size, were in a manner friendly and informal. Always she was breaking away from her prepared notes to state a sentence with the loose, conversative or perhaps not at all for three years, a sentence with the loose, conversative or perhaps not at all for three years. It was necessary to carry materials

That, too, seemed never country as bare as a city road. to ruffle her smooth, smiling demeanor, nor did her expression reveal fatigue. Lord Astor knew how highstrung the Lady Commoner really was and he made it his job to keep her from talking too much to her friends just on fence 100 miles to the westward, and before the farming region was talking too much to her friends just before or after a speech "Nancy," he would call in warning whenever she pitched straight from a speech into chats to which she seemed to give just as much energy. Reporters seated immediately in the rear of the speaker's dias when Lady Astor gave her farewell address noticed that her shoulders suddenly deepented to a pink fush as she got up to stroyed by the white ants. The lower

Tar to make them less likely to be destroyed by the white ants. The lower edge of the netting is sunk into the ground to prevent the rabbits from burrowing under it, and along the top runs a heavy wire capable of withstanding the shock of charging kangaroos and emus.

garoos and emus.

Without constant attention and patrolling, however, the fences would be useless, for outside of them the rabbits keep ceaseless watch. A boundary-rider patrols each section of the fence twice a week, and he carries enough material and tools to make ordinary repairs. In some parts the riders are men on motorcycles, in others they are horsemen, and in the arid deserts the men use camels. There is a sort of "fiving camels." camels. There is a sort of "flying squad" assigned to each half-dozen sections, and the boundary rider can call on them when the fence is bad broken, or when the incursions crabbits are especially threatening.-Kansas City Star.

Two Good Stories.

WHEN MARK ADDRESSED DEAF

f a Raconteur" by that well know not even the faintest suggestion of s augh. All sat with their eyes glue on him, wrapt in wonderment, adniration, and respect. This was oser to Mark, but he continued to talk, and in a minute or two he "re lated a stronger one and hurled it in ame—a morgue-like silence. Finally, German-Americans of the Middle he launched an anecdote that had never failed, but there was not a He was furious and "take it out of" his audience in sar-

castic vein. When he reached his friend's home, he asked him if he could explain their stupor. "Why, didn't you know?" said his friend "They-re all deaf mutes!"

Back From America! With New York's latest expressions of dressy ideas.

Pick-me-ups from Broad-

way's crack shops.

A GREAT TRIP! A BIG NECKWEAR MANUFACTURER CLOSES OUT HIS COMPLETE LINE AT A SACRIFICE. NEW GOODS! SPICY, BRISK, SPICK AND SPAN.

Ready for Summer! Ready, aye, ready! No longer need a man look at a dollar with askance. A dollar looks bigger to us than to any store on the street. It was a blue town, but listen! There's nothing like the chink of the good old rhine to make a man think quick. That's what happened when I got over-something like this:

"I want Neckwear, old boy; something good, neat and full-ranged. Want a thousand dozen. I'll buy it all here if you make a price, if not I'm going. What's for this lot?? Quick! make a price."

That's how I bought the Neckwear. Wait, it's not opened yet. It's a big, big surprise.

SHIRTS that flow before your eyes in a long vista of exquisite patterns. Tap your chest-here's where your long-suffering pocketbook chortles with joy. You'll want some. There's plenty for all-wait!

COLLARS with many new ideas and some old ones popping up in new garb. The new Semi-Soft Collar that grew famous in the States over night. Here, too! The best of many shapes in stiff and soft from where men wear the latest.

CAPS—a startling new idea. A Cap that will fit any size head. Loosen or tighten the strap—that's comfort. Won't shrink—won't stretch. See them here—they're not elsewhere.

STRAW HATS that grip like velvet.

Silks predominate in beautiful Summer Pyjamas, Socks that ease weary feet and charm the eye, Handkerchiefs of exquisitely blended tones. Novel, new and bracing, Summer has given us a bracing impetus to show the latest and best.

Watch for what Kearney shows every day. Kearney's first with the latest and only a step behind Broadway.

Good Goods don't come back—"tell me on the floor."
