Mrs. A. A. V. Halterman writes of Dr. F. G. Kinman's Heart Tablets, etc. I cannot express to you my thanks for your Heart Tablets as had given up all hope of ever getting well. I had heart trouble fifteen years and would have bid spells so that I would have sat up for five or six weeks at a time, only getting two hours' rest out of forty-eight. I had smothering spells and would have been fanned for hours at a time, and the pain at my heart was so severe that I would think that every minute would be my last. My heart would beat so fast that I could not count the beats, and would then stop altogether and my breath would become so short that I would sink away in fainting spells. Many different physicians treated me, and one specialist stated that I had the worst affected heart of any he had ever treated and that it was impossible for me to be cured. I was not able to talk across my room on account of my heart, but am now able to talk six miles on one walk. I was not able to work for five years. My heart troubled him so, I advised the use of your Heart Tablets, and in three days he was well and has not since let a day's work. I shall do all I can to recommend your medicine. Above Heart Tablets are sold at \$1.00 per box at all Drug Stores, or write to P. O. Box 913, St. John's for further information.

The Model School. Manoa Arrives.

EXHIBITION OF PUPILS' WORK. An exhibition of work done by pupils of the Model School was held yesterday and was visited by many parents and friends of the school, including members of the Diocesan Synod. The work exhibited is in all cases excellent and reflects great credit on both teachers and pupils. It consists chiefly of writing, crayon and paint work. There are also samples of wood work done by the boys of the school, who receive their training at Bishop Field College Manual Training Department. The crayon work is quite good, especially when the youthfulness of the pupils is taken into consideration. The Model School was organized some six years ago and takes pupils from the Kindergarten to the preliminary grade. There are at present 360 pupils—boys and girls—on the roll. The headmistress is Miss Purchase and she has an efficient staff consisting of eight assistant teachers. The school is at present situated in the Synod Building, but this does not provide sufficient space for the large number of pupils attending.

For Breakfast.

Belvedere Orphanage.

In connection with the Garden Party referred to in our columns, we might add that a dance is being arranged for at night to take place in the new play-hall in the Orphanage grounds. This item is always attractive, and with the excellent music that is provided and the spacious hall for dance purposes, a good time is assured to all. Of course in the afternoon during the progress of the Garden Party, there will be a dancing gallery erected outside for those who do not care to attend the evening function. From the way things are being managed, it would seem that a good time is assured all who attend on Wednesday next.
