### SEALED TO PROTECT

Buick chassis is seal-  
ed. Iron and steel hous-  
ings protect the opera-  
tion of all driving parts  
—seal them in to safe-  
guard Buick perfor-  
mance.  
Some cars have some  
of this protection, but  
only Buick has a wall  
of defense continuous  
from fan hub to rear  
axle against road dirt,  
stones, water and loss  
of lubricant. Only  
Buick's close co-ordi-  
nation of driving units  
and Buick's torque tube  
drive make possible this  
important improvement.
