The new Vendome column in Paris, which is to replace that destroyed by those vandals, the Communists, at the instigation of Courbet the painter, is to be completed next month, and a statue of Napoleon the Great is to be placed upon it.

Mr. Thomas Carlyle, now on a visit to Scotland, has, it is stated, found evi- dence that his ancestors settled in Cum- berland about the time of William Rufus, and he is now busily engaged in collect- ing materials for an elaborate pedigree of his family.

Pere Hyacinthe seems to agree with Mr. Diarrell as to the coming of a great war. In a speech he delivered at Gene- va lately, he said, "he saw in the horizon war raising its hideous head— international war, civil war, religious war."

In repairing the pavement of the Ca- thedral at Rouen, there has been discov- ered in the centre of the nave a heart inclosed in a leaden box. M. Deville, the historian of the tombs of the Cathed- ral, thinks that the heart may be that of Sibylla, wife of Robert II., Duke of Normandy.

BREAKFAST.—Epps's Cocoa.—GRATEFUL AND COMFORTING.—By a thorough knowl- edge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is the result of a long and careful study of the science of medicine. Each packet is labelled— "James Epps & Co., Homoeopathic Chemists, London." j7-9m

Instead of grasping and supporting the gun with the left hand placed between the lock and muzzle, as is usually done, let every one who discharges a gun, take special care to place the fingers of the left hand under and in front of the trig- ger-guard, keeping them clear of the barrel, then there will be no danger. This advice was given to the writer by a celebrated physician.

PROTECT YOUR BUILDINGS

Which may be done at one-fourth the usual Expense, by Using

SLATE ROOFING PAINT!

AGENTS WANTED IN EVERY TOWN.

A Roof may be covered with a very cheap shingle, and by application of this slate may be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better and lasting longer than new shingles without the slate, for ONE THIRD THE COST OF RE-SHINGLING. The expense of slating new shingles is only about the cost of simply laying them.

The Paint is Fire-Proof

against Sparks or Flying Embers, as may be easily tested by anyone, and appears from the fact that Insurance Companies make nearly the Same Tariff as for Slated Roofs. For Tin and Iron it has no equal, as it expands by heat, contracts by cold, and never cracks nor scales. For Pences it is particularly adapted, as it will not corrode in the most exposed places. Roofs covered with Tar Sheathing Felt can be made water-tight at a small expense. The Slate Paint is

EXTREMELY CHEAP!

Two gallons will cover over 100 square feet of shingle roof, or over 400 of tin or iron. No Tar is used in this Composition, therefore, it does not effect the water from the roof, if turned off from the eisters before the first few rains. On Decayed Shingles it fills up the holes and pores, hardens them, and gives a new, substantial roof that will last for years. Curled or Warped Shingles it brings to their place and keeps them there. It fills up all holes in tin or felt roofs, and STOPS THE LEAKS. The color of the slate when first applied is dark purple, changing in about a month to a light uniform slate colour, and is, to all intents and purposes, SLATE. The Paint has a very Heavy Body, but is easily put on, and, although a slow drier, rain will not affect it in the least one hour after applying.

ROOFS EXAMINED. ESTIMATES GIVEN.

And when required will be Thoroughly Repaired.

Orders Respectfully Solicited.
