A Lover's GERALDINE. Romance.

Reginald looked almost stern as he came more slowly back again.
"What is the matter with him?" he asked, quite coolly.
"Indeed, I cannot tell you, if you

cannot, Miss Lindley.' "He has picked up very strange manners-er, wherever he has been to. Reginald looked at her in a very 1:uzzled way, and laughed a little.

"Shall I tell you what he said when Side.

I overtook him?"

"If it is anything worth hearing, which I doubt."

only shrugged her shoulders slightly Geraldine at last.

"How absurd!"

And Reginald, although he had no idea how deep her feeling was, came to the right conclusion, that she was sorry for her coldness; and he thought she did not like to own her pity for so contemptible an object of it. She expressed a wish, almost feverish in eagence how great Miss Gretton's anxiety must be; and as he drove her back she talked so much, and in such a lively man

had intellects of equal keenness. The two younger members of the quartet were strangely shy with each other, and did very little talking, devoting themselves to watching the encounter -SWIFT.

It needs considerable bravery to keep on drinking the painted and adulterated teas

The common the control of grief, that she had thrown aside ceremony, in coming at a time when they were all suffering from a great sorrow, at the request of her nephew, who had begged her to give her poor aid in entreating Miss Gretton to alow her ward to return to Waringham Hall with them for a few hours to comfort her sister Eleanor, who was in a state of depression which caused them great alarm, and who had taken a strong fancy to the young girl. So Geraldine, with the dignified permission of her old instructress, returned tives of the profession whose duty it with Miss Otway and her nephew to is to teach the young idea how to the hall, rather silent, rather reserved, but inexpressibly comforted to find that James, who was as silent and reserved occasion of the 36th annual meeting of

with dismal recollections of two nights before, up the staircase, and into the solvent property solvent death chamber where the coffin lay. But the only sight in it that made her shiver was the face of the housekeeper, watching there, whose thin, shriveled features, stamped with an undying terror since the night of her master's death, impressed the girl with unreasonable fear, and made her shrink back on first entering the room.

"Would you rather not see him?"

historical and general educational topics, and in the evening a grand reception in the school theater was addressed by the Minister of Education and others.

Miss E. J. Preston, of Ottawa, read the first paper, entitled, "The Criminal and His Recruiting Grounds."

Mr. F. F. Manley presided over the Mathematical and Physical Association and others.

Mr. F. F. Manley presided over the Mathematical and Physical Association and others.

Dr. Louden delivered an address on the subject.

Dr. Louden delivered an address on the mathematical and Physical Association and others. "Would you rather not see him?" whispered James, offering to lead her

She conquered herself and approached the coffin. But the first glance at position, and was followed by a paper the still, waxen face she so deeply loved, lying in the flood of bright afternoon sunlight which streamed through the white blinds, calmed her, and drew Led way, and laughed a little.

"Ladies are rather difficult to understand, Miss Lindley. They are supposed to be tender-hearted, and yet —Have you any idea how cruel you are?"

"Cruel! I only made a very natural remark. Did you ever see such strange behavior? But perhaps he is not sober."

the white blinds, calmed her, and drew from her eyes tears which were scarcely sorrowful at all. She kissed the cold forehead with reverent love; and, when she left the room, after a long, last look at the peaceful face which impressed her, in spite of her reason, with the feeling that he was only sleeping, and that the touch of his child's lips could affect him still, the local face which impressed her, in spite of her reason, with the feeling that he was only sleeping, and that the touch of his child's lips could affect him still, the local face which impressed her, in spite of her reason, with the feeling that he was only sleeping, and that the touch of his child's lips could affect him still, the appointment of a committee, composed of Messrs. McDougall, McKenzie, De Lury and Glashan, to recommend any changes in the present system of the teaching of geometery, if such was deemed necessary.
