Life and Character Reading. AUGUST 22.

People born on this date are born in the cusp of Leo-Virgo. These people are usually a very strong combination of fire and earth. But the in this instance seems naturally to turn to productive issues. These natives apparently realize that the earth needs the sun, and they focus their love and intelligence and do not play with and scatter their forces.

not play with and scatter then forces.

These people are kind, sympathetic and quite magnetic. They are flery, passionate and hot-headed sometimes, but these instances are very unusual and are immediately overcome.

The governing planet of this date is the Sun, and the birthstone is a ruby or diamond. The astral colors are red and green.
