Enthusiasm Praised.

Enthusiasm Praised.

The president, James Gray, spoke briefly of the enthusiasm of the canvassers and the reception that they had received. He told of the Chinese in the city co-operating by having the welfare reading matter being translated into Chinese by the Oriental friends so that those who had not yet learned English might inderstand fully what was expected of them.

W. R. Yendall, district governor of Rotarians, was the speaker of the evening. He said that welfare work was not an abnormality. It was the sort of thing that had come to be re-cognized as a part of community life. cognized as a part of community.

"Years ago people never thought of banding togther for the community's banding togther for the community's land." said the speaker. "Now all od," said the speaker. "Now all good," said the speaker.

have recognized the need of co-operation. There is going to be more of it."

He told of the spirit of service that would have to pervade the activities of the future. There were certain things a businessman was expected to do. He must get out and share his earnings and his time for the public good. The day was past when a man could carry on his own business through the day and think about it at night without giving a thought to the other fellow.

Help For Others. "No man can live to himself," said "The man who thinks he has nething to do with community work is out of step, and will soon be behind. Helping others broadens people. Time was when it was considered a virtue for a man to mind his own business. Now it is a virtue when he attends to the other fellow's once in

'A man should give his share. It is not hard to figure out the amount. Some people think that if they give less than they should they are achieving something, but in reality they are losing their self-respect. It

Commence Within the Next Two Weeks.

Tenders for the erection of an eight-room addition to the London Technical and Commercial high school will be called for at the end of this week. Principal H. B. Beal stated this

morning that the tenders will close on Monday, May 11, and that construction work will be commenced immediately after the contract is let by the advisory-vocational committee. It is expected that the new addition will be in readiness for oc-

cupancy in the fall.

Construction costs are being se cured for the erection of the new wing on the east side, and also on the west side of the present building. The difference between the two propositions consists largely in the variation in plumbing and heating

After the reception of the tenders the advisory-vocational committee will consider the optional plans and select what is considered the more

The committee has secured from the council debentures to the total of \$70,000 for the erection and equipment of the new addition.

WEST FEELS TARIFF BURDEN **DECLARES WINNIPEG WOMAN**

Mrs. R. F. McWilliams Says Western Secession Talk Not Serious.

SPEAKS TO CLUB

That there must be a closer symoathy between the eastern and the vestern provinces of Canada was the keynote of the talk delivered yesterday before the Women's Canadian club by Mrs. R. F. McWilliams of

Winnipeg.
"The word secession is used in connection with the west," said the connection with the west," said the speaker. "But I don't think that anyone in the west seriously thinks of seceding. The people of the west just talk that way in the same way that a young boy or girl is apt to say startling things which he does not mean. With a little effort we could overcome these misunderstandings.

"The tariff question is a big question on which the people of the east tion on which the people of the east and the people of the west differ. I now speak as a western woman who was at one time an Ontario woman, and can see both sides of the ques-

"The western mind recognizes that the tariff is good for the eastern provinces. It is the backbone of their commercial life. Upon it was built up the great industrial life of Eastern

Reduce Prices.

"But the western mind also feels that the tariff is not to the advanthat the tariff is not to the advantage of the western provinces, which subsist on the production of wheat. The only way in which the western farmer may increase his profit on wheat is to bring down the cost price, which includes the price of machinery kept up by the tariff ery kept up by the tariff.
"If the tariff increases the cost of

roll the tariff increases meaning wheat, the western people claim that it is a burden to them. The west must sell an enormous amount of wheat to foreign markets arount is to be a prosperous if Canada is to be a prosperous

"The westerner further points out that, according as his profits on wheat are adequate, he can buy from the eastern manufacturer, and so the ofits work out both ways.
"Wheat is the life of the western

"Wheat is the life of the western country. The west is depending on a product that must have foreign markets. So wrapped up in wheat are the people of the west that during unfavorable crop conditions the strain is seen on their faces as they walk along the streets of Winnings walk along the streets of Winnipeg.
You have no idea what it is to have all your eggs in one basket in this manner.

Has No Control.

"The price of wheat is egulated in Liverpool. And Canada must sell her wheat in competition with countries where labor is cheap. Nothing that Canada may do can regulate this Liverpool quotation. The only way that Canadian farmers can make a that Canadian farmers can make a fair profit is to bring down the cost of producing wheat. The Canadian farmers are attempting to get a better price by pooling their wheat and holding it until the price goes up. But the big thing that the west wants is a lowering of the tariff to bring down the cost price of producing wheat.

ducing wheat.
"The west is also seeking lower the freight rates on the railways, for the same reason. These rates are high because in the west there is no competitive transportation by water. And petitive transportation by water. And it is sometimes said that the railways are making the west pay what the roads lose in their eastern rates by competition. The west, in being so treated, believes that it is bearing too large a share of the burden. And when the cost price of wheat in Liverpool is close to the cost of production the freight rates are very vital. tion the freight rates are very vital. WILL ASK FOR TENDERS
