

MOTHER GAVE THIS DELICATE CHILD VINOL

And He Got Well and Strong.
That's True

Monaca, Pa.—"My little boy, who is the youngest of three, was weak, nervous and tired all the time, so he was most unfit at school, and nothing seemed to help him. I learned of Vinol and gave it to him. It has restored his health and strength and he has gained in weight.—Mrs. Frederick Sommers, Monaca, Pa. Vinol is a constitutional cod liver and iron remedy for delicate, weak, ailing children. Formula on every bottle, so you know what you are giving them. Children love it.

A. McE. McDonald, Druggist, Campbellton. Also at the best druggists in all New Brunswick towns.

THE PULMONARY TONIC

Recognized as the standard of medicinal preparations, for diseases of the Throat, Bronchi and Lungs. It acts as an antiseptic to the respiratory organs and supplies to the whole system, the energy necessary to conquer the disease.

DR. ED. MORIN & CO., Limited
Quebec, Canada.

10 CENT "CASCARETS" FOR LIVER AND BOWELS

Cure Sick Headache, Constipation, Biliousness, Sour Stomach, Bad Breath—Candy Cathartic.

My little boy had your Morin's wine; how much your head aches, how miserable you are from constipation, indigestion, biliousness and aching bowels—you always get relief with Cascarets. They are a candy cathartic, and regulate the stomach, remove the sour, fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet and head clear for months. They work while you sleep.

A Quick Relief for Headache

A headache is frequently caused by badly digested food; the gases and acid resulting therefrom are absorbed by the blood which in turn irritates the nerves and causes painful symptoms called headache, neuralgia, rheumatism, etc. 15 to 20 drops of your Scott's Emulsion will relieve your headache and afford relief.

Skin Sufferers

You will sigh with relief at the first magic touch of D. D. D. the soothing wash of oils. Many of our customers thank us for this advice. You will too. Try D. D. D. today. We guarantee it.

D. D. D.
The Liquid Wash
A. McE. McDonald, Druggist, Campbellton, N. B.

Hurrah! How's This

Cincinnati authority says corns dry up and lift out with fingers.
Hospital records show that every time you eat a corn you invite lockjaw or blood poison, which is needless, says a Cincinnati authority, who tells you that a quarter ounce of a drug called freestone can be obtained at little cost from the drug store but is sufficient to rid one's feet of every hard or soft corn or callus.
You simply apply a few drops of freestone on a tender, aching corn and soreness is instantly relieved. Shortly the entire corn can be lifted out, scab and all, without pain.
This drug is sticky but dries at once and is claimed to be absorbed by any corn without inflaming or even irritating the surrounding tissue or skin. If your wife wears high heels she will be glad to know of this.

THE BLIND BATTALION.

Other Battalions Which May Come to Their Aid.

Many of your readers will be wondering how many men have lost their sight in the War. There are now on the roll of St. Dunstan's just over 1,000 men, more than half of whom are in residence, while the remainder have been trained and settled at their homes, or are still in hospital. Of these men, 35 are Canadians.

One thousand men—that is to say, the strength of a battalion. When one pictures them drawn together one realizes how terrible is the toll that has been paid. All these men in the very prime of their manhood condemned to live in enduring darkness. The immensity of the tragedy would be appalling were it not for the amazing courage of these men. For if one pictures the Blind Battalion marching by one must picture them with heads erect, marching resolute, cheerful, firm-set on the conquest of all the difficulties which they must encounter.

They are fighters still. The spirit which made them valiant in battle animates them now. Even in hospital their courage returns. They hear of the others who have passed on, who have triumphed over the obstacles and have taken in the darkness, who, after a few months' training, have already returned to their homes, workers, earning their own living, cheerful, useful, normal citizens, making the more of every other faculty because they are deprived of one.

The Battalion of the Blind. It is merely an expression. The name of St. Dunstan's comes to have a special significance like the name of a regiment. You notice the esprit de corps among the men who are there, and those who leave to go to their homes still belong to St. Dunstan's.

It is quite a wrong idea to think of the blind soldiers living in a world of their own—the very object of the training at St. Dunstan's is to make them take their place confidently beside other men and women, peculiar only because they cannot see, as others lack this or that advantage which their neighbours possess. At the same time these blind soldiers do form a community—they have been through similar experiences, together they have begun life over again.

As a community at first as a child—made things without seeing, becoming, in an astonishingly short time, accomplished craftsmen. They have lived together and helped one another.

The Blind Battalion is composed of men who since they can serve no more as soldiers will nevertheless make their mark in the Army of Industry. In the blind world itself these men, most of them quite young, full of vigour and resolution, represent a factor that has for all others inspiring.

The Blind Battalion will inevitably awaken a fresh interest in the welfare of the whole blind community. Its members cannot be left to fend for themselves. They have the courage to overcome their handicap, they have the resolution to go forward in the battle of life—but it is ever again, old, and because they are blind there must always be need of the helping hand. The organization for their after-care has been carefully planned on practical and business-like lines, and the men of this Blind Battalion, like the men at the front, must in the end rely for success on the whole-hearted support of the public.

Will those of your readers who sympathize with them, and with the efforts which are being made for their present and future welfare, contribute to the L. S. D. Battalions in aid?

A Battalion of Sovereigns means \$1,000; a Battalion of Half-Crowns means \$250; a Battalion of Shillings \$50; a Battalion of Pennies—\$4 3s. 4d.; a Battalion of Half-Pennies—\$2 1s. 8d.; even a Battalion of Farthings represents over a Sovereign.

The men of the Blind Battalion unhesitatingly placed themselves at the disposal of their country. If their country will as unhesitatingly place L. S. D. Battalions at their disposal it will be possible to arrange for their present and their future in a manner commensurate with the sacrifice which they have made.

L. S. D. Battalions should be sent to The Treasurer, St. Dunstan's Rehabilitation Park, N. W. I.

A CRIPPLE FOR THREE YEARS

Helpless in Bed With Rheumatism Until He Took "FRUIT-A-TIVES."

MR. ALEXANDER MUNRO

R.R. No. 1, Lorne, Ont.

"For over three years, I was confined to bed with Rheumatism. During that time, I had treatment from a number of doctors, and tried nearly everything I saw advertised to cure Rheumatism, without receiving any benefit.

Finally, I decided to try 'Fruit-A-Tives'. Before I had used half a box, I noticed an improvement; the pain was not so severe, and the swelling started to go down.

I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and do light chores about the place."

ALEXANDER MUNRO.

Box a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid on receipt of price by Fruit-A-Tives Limited, Ottawa.

DON'T BORROW.

Don't borrow your neighbours Graphic, send \$1.00 to-day and have it sent to your own address until Jan. 1st, 1919. The Graphic is worth twice the money.—G.

HOW TO GROW POTATOES

When three hundred and thirty-two years ago, Sir Walter Raleigh introduced the potato from this continent into Ireland, nobody could have foreseen or imagined the immense part that it would come to play in feeding the world. It was nearly eighty years before the Royal Society of England took up the cultivation of the potato as a cheap food in case of famine. In another eighty years, famine in Scotland brought the potato into extensive notice as a cheap article of food. Another thirty years, saw France taking notice of its value. Mr. W. T. Macoun, the Dominion Horticulturist, briefly explains all this in a hundred-page bulletin recently issued by the Department of Agriculture, Ottawa, in which is also given complete and comprehensive information as to the cultivation of the potato. Mr. Macoun goes fully into his subject, dealing with the preparation of the soil, the varieties of seedlings, of the manner and method of planting, of protection against insect pests and diseases, of the time to plant, of the districts best suited to the different varieties of the crop that should be taken during growth, and of gathering, storing and shipping. Particulars are also given of the results of experiments and tests made at the Experimental Farms and Stations throughout the Dominion. In short, pretty well everything in the shape of information that is of value to potato growers with many exact and interesting illustrations, is to be found in this bulletin that can be had free on addressing the Publications Branch Department of Agriculture, Ottawa.

THE BURIAL OF HOPE!

P. Peter Dunne, of Mr. Dooley fame, once told a story, says the Christian Register, about the evening paper in which Mr. Dooley first made his appearance—an ill-fated sheet which the gods loved.

One day, just before the end of a funeral passed the office with a band playing the dead march from "Gull" The editor and Mr. Dunne watched it with emotion and fear. "Can it be they," they whispered, "our subscribers?"

VALOR OF HEROIC SOLDIERS OF BRITAIN THE PROMISE WE SHALL NOT FAIL.

People with real trucking have a vision of them.

Somewhere it doesn't sound just right when a speaker asks for a match.

However, the disgrace of poverty is shadowed by discomfort.

There is much to be said as an attractive distraction—a pretty woman.

Onions and whiskey form a combination calculated to put almost any happy home out of commission.

Every girl makes at least one mistake on her wedding day—and that is when she thinks that all her girl acquaintances envy her.

Many Animals Are Noted for Long Life.

A cat averages 16 years of life. A wolf 25 years. Lions frequently reach 80 years. Camels and whales have lived over a century. An eagle has been known to reach 124 years, and a tortoise 112 years. A swan now living is 201 years old. Elephants have lived 400 years and parrots are believed to have lived much longer.

Among the great men of the world, the following are said to have had blue eyes. Socrates, Shakespeare, Locke, Bacon, Milton, Goethe, Napoleon.

The Tragic Fate of Queens. France has had 77 queens. Eleven were divorced; two executed; nine died young; seven were widowed early; three cruelly treated; three exiled. Most of the rest were either poisoned or broken hearted.

MUST HAVE HELP.

Sir William Goode, Secretary of the British Ministry of Food says: "Few people have yet grasped the fundamental fact that Great Britain still relies on the United States and Canada for sixty-five per cent of her essential foodstuffs. Unless we can get this food, or nearly all of it, we shall perish."
