WEDNESDAY MORNING, JANUARY 10, 1882 city yesterday over The World's articles of Monday and Tuesday on Manitoba land swindles, and such is the desire for further More Light Thrown on the information in the matter, that we devote a considerable portion of our space to showing up more of these nefarious games. For these articles we were yesterday threatened with three distinct and separate libel suits, and the name of Blake, Kerr & Cassels was hurled at us in a threatening manner. The irate callers were quietly told that a good libel suit was the only piece of furniture necessary to make our office complete, and that we would be very glad to get one. But literally hundreds of people called on The World and thanked us for the expose made in these columns. One old chap said "Isn't it lucky I'd only paid twenty per cent down when I seen the World," Copies

Murray, a voluble auctioneer in great demand by the owners of paper towns. The owners of this town of Moberley are Johnsten Brothers, who have elaborate maps of the place—at all laid out—on paper. We have good authority for saying that there is not even a town pump to be seen at this "county seat" of the "far famed Turtle Mountain county." A relation of the proprietors and a newspaper owner was busy going round among the "unfortunates," touting the lots in question and saying: "I'm a newspaper man and ought to know something about it." Perhaps he does. Another of these paper towns is wood Lake CITY, in the "farmers' eldorade." for faller and that the boom has now commenced. People can not be too careful as to the titles of the land they are buying. Once a man has theland fever he'll tell you anything, or give you any assurance in order to make a sale. One well-known Toronto investor was offered some lots and bought them. He was asked to pay down the usual half cash. Instead, he offered a cheque for the whole, and demanded the deeds. But the latter were not forthcoming, the operator could not give them. All he could or would do was to take the half amount and give a receipt leaving the delivery of the deed for other days when the weather was milder or he not so pressed.

It was, it seems, mostly London people who were caught in this West Lynne trap.

Now the time has arrived to look for the Ontario "sucker." Accordingly Robinson and Dickson hie themselves off to Ontario and exhibit their scheme. By this time it is perhaps knocked into town lots—on paper. The open mouthed Ontarion is shown the plans, he is told of how land that was bought for two dollars has changed hands repeatedly at \$5, \$10, \$20, \$30 and \$50—he is shown the registered transfers—and that the boom has now commenced. Judge Cox Claims Pull Jurisdiction and Rules WASHINGTON, Jan. 10.—In the Gniteau trial to-day Judge Cox gave decision touch, ing upon the question of jurisdiction. He reviewed the progress of opinion and cited all the important rulings from the early days of common law in England, and decided against the prayer of the defence. He said, "Jurisdiction is complete in the place where the wound is completed, consequently, this Hilaire's friends claim him as a member of the wound is completed, consequently, this court has full cognizance of the offence."

Judge Cox next took up the question of the legal test of insanity, and decided that the knowledge and appreciation of the difference between right and wrong must be taken as a creet test. Upon very material point is rulings were directly against the capers of defence. The only grain of court for the prisoner was offered when Cox cached the question of "reasonable doub."
