His defence was that they were used to hold up on tace-courses to show that the party had plenty of money to bet with.

A Chicago morning paper talks about the Montreal Shamrock lacrosse club retaining the championship belt. It would have to be a pretty big belt to go around the whole of the members of the club or even around the united capacious waists of the cham-

and were disheartened thereby; the Shamrocks knew it and took things rather easily,
and the crowd knew it and were ready to
go to sleep over it if it hadn't been for the
way the Shamrocks put the ball through
every now and then."

It appears that Hanlan only saved three of the four young men who capsized in a row boat while they were intoxicated on Sunday last on the Harlem river. He was Sunday last on the Harlem river. He was standing on the Metropolitan boat club float when the boat upset, about three hundred yards from the club house. Hanlan jumped into one of the club boats and sent it through the water at a terrific pace. He succeeded in rescuing three, but the other was so far gone that it was impossible to save his life.

The annual cricket match between Eton The annual cricket match between Eton and Harrow was commenced on Lord's ground on July 13. The Etonians batted first, and made the high score of 231, F. Marchant of this number contributing 93 and A. H. Studd 64. Harrow in their first innings only scored 120, and had to follow on, being 111 behind. The Hon. A. E. Parker bowled the last six wickets of Harrow in five overs during 25 minutes.

The Derby of 1885 has closed with an entry of 193, the Oaks with 146, and the Epsom Grand Prize with 217 subscribers. All the entries show a falling off, especially the number for the Derby, which is lower than it has been for many years. Mr. Manton (the Duchess of Montrose) is the largest nominator with nine, Lord Falmouth coming next with seven. Messrs. Keene, Lorillard, and Cassatt, of New York, are among the nominators. Messrs. Keene and Cassatt. the nominators, Messrs. Keene and Cassatt having cabled their entries across.

having cabled their entries across.

Wm. B. Astor has given out a contract for a new steam yacht. The boat is to be built of steel and in no way will be like Jay Gould's yacht Atlanta, as has been reported. Mr. Astor's yacht is to be 235 feet in length on the water line, 30 feet beam, and 20 feet depth of hold. Her regular cruising speed is to be fourteen knots an hour day after day at sea. She is to be fitted with compound engines and steel boilers and is to be completed by May next. The furniture of the saloon and next. The furniture of the saloon and state-rooms is to be of an elaborate kind, and the cost of the vessel when completed is estimated at \$350,000.

Five years ago, when professional rowing regattas were being held at different points in Canada, they were called the scullers' pic-nic, which being interpreted meant that while the public thought they were rowwhile the public thought they were row-ing honest races, the oarsmen were exhib-iting themselves and sharing the spoils. If the men had a pic-nic then when the prizes were estimated at hundreds, they must be having a perpetual banquet now when the purses mount up to thousands. The Caradians were little suckers in 1878, but in 1883 the Yanks are full grown fish.

A Prescott paper gives currency to the rumor that the result of the late race between Hanlan and Ross was pre-arranged that neither of the two carsmen put up a cent of money; and that the only money obtained by Hanlan was the amount subscribed by the people of Ogdensburg, part of which was given to Ross with a great flourish of trumpets about Hanlan's generative. There are no means of ascertaining There are no means of ascertaining the falsity or truth of the latter statements, but everybody can safely unite in pro-nouncing the first assertion an absolute falsehood, for no man would willingly consent to being beaten a quarter of a mile in four. It is a very strange thing that a boat race cannot be pulled without these nasty

afterclaps.

Two years age Mr. M. F. Davis of Portland, Me., who then engaged in professional regattas and rowing matches, endeavored to get the professionals to band together for mutual protection and the checking of numerous evils. His brethren of the oar evinced so much lukewarness in the matter that he failed to get his association started and shortly after retired from active participation in rowing. Hanlan has now taken in hand the desirable object, and he went on to New York from Ogdensburg, mainly with a view of putting the project on foot. At his suggestion Mr. Hamilton Busbey of the Turf, Field and Farm, has consented to communicate with all the prominent professional carsmen in America and arrange a meeting at as early a date as possible to perfect the organization of the proposed Pro-

fessional Carsmen's association. One object of the association will be to keep a sharp look out for roguery and the immediate disqualification of offenders, who will not be permitted to compete against members of the association or a trace-track held. pers of the association or at regattas held

"You want to have a row!"
Thus Courtney barked at Hanlan,
And Hanlan said, "Bow, wow!
I do not want a row, sir,
I'd like to have you know;
But let me tell you now, sir,
I want to have a row."

Telegraphers' Strike and the Rooms.

From the Philadelphia Press.

The betting fraternity was greatly exercised at the non-arrival of messages giving the results of the various races at Monmouth park. The first race was set for 2.30 p m., and the betting was as brisk as usual, the belief prevailing that the messages would come through as usual, the strike of the operators notwithstanding. Contrary to general expectations, however, the tickers were silent, and the operators in the employ of the bookmakers and pool-sellers enjoyed an enforced rest. The subsequent races were made the medium only of languid speculation, a fact which may readily be accounted for when it is stated that a majority of the speculators who patronize the Sansom stree exchanges are not overburdened with a supply of the circulating medium, and continuous speculation throughout the day, with this section of backers of horses is usually contingent on a smile from the fickle goddess on their initial investment. However, as no despatch came from Long Branch up to the hour at which the rooms closed, the book-makers hold the money until this morning and the appendictors conuntil this morning, and the speculators con-demn all strikes and strikers as wholly in

imical to the sporting proclivities of free and enlightened American citizens. getting a return the same day, and it's a t ifle risky for as to sell when everything is upside down this way. Two hundred dollars will probably cover us, but we are not anxious to have the thing keep up for-

A NEW TREATMENT PERMANENT CURE

A. H. DIXON & SON 305 King St. West. TORONTO, CAN.

What the Rev. E. B. Stevenson, B.A., a clergyman of the London Conference of the Methodist church of Canada, has to say in regard to A. H. Dixon & Son's new treatment for Catarrh: OAKLADD, Ont., Canada,
March 17, 1888.
Mesers. A. H. Dixon & Son: Dear
Sirs—Yours of the 13th instant to
hand. It seems almost too good to
be true that I am cured of catarrh,
but I know that I am. I have had
no return of the disease and never
felt better in my life. I have tried
oo many things for catarrh, suffered felt better in my life. I have tried so many shings for catarrh, suffered so much and for so many years, that it is hard for me to realize that I am really better.

I consider that mine was a very bad case; it was aggravated and chronic, involving the throat as well as the nasal passages, and I thought I would require the three treatments, but feel fully cured by the two sent me, and I am thankful that I was ever induced to send to you. You are at licerty to use this istter, stating that I have been cured at two treatments, and I shall gladly recommend your remedy to some of my friends who are sufferers.

Your with many thanks,

A. MACDONALD,
