against 626,000 a year ago. New York was a liberal buyer in our market all day. This, aided by more ortside business, a report of damage to the Argentine crop by locusts, and firmer private Liverpool cables quoting wheat up a halfpenny, kept our morket fairly firm, and it advanced to 624c and closed at 62c. Offerings were light, and the market advanced easily. Every time the price gets near 60c it seems a purchase.

Corn made its lowest price at the opering, 29c for May. It advanced in symptoty with wheat, and gained %c. Primar receipts, 501,000 bush, against 168,000 bus last year. WYATT & CO (Members Toronto Stock Exchange)

were 121,000 bush. The cash demand was moderate.

Provisions opened active and weak, but soon became dull and featureless, and so ruled to the close, which was a shade low er than yesterday. The stocks proved to be almost exactly as expected, and had influence. The decrease in the world's stock of lard, 32,000 tierces for the month of September, was less than had been estimated. Packers were the sellers of the day, and scalping shorts the best buyers.
