

The Weekly Monitor.

WEDNESDAY, MAY 4th, 1881.

DIPHTHERIA.

The ravages of this disease are terrible to contemplate. Whole families of children have been swept away by diphtheria in some parts of this Province, and our own County has not been exempt.

It is somewhat strange that in the County, where it generally supposed the air is purer and more healthy than in the city, the disease is the most destructive. Now there must be a cause for this, and we are of opinion that it might be looked for, and found, in the cellars of dwellings. There are very few cellars that are dry, sweet and clean. There is generally a dead, sickly, disagreeable smell of potatoes, even when sound, cannot be wholesome, and when they are in a state of decay it is nothing short of poisonous.

On Friday, 29th ult., the advanced department of the same school, under the management of Mr. D. A. Corkham, held its examination. The school-room was packed to its utmost capacity by a highly interested audience, who were much pleased with the exercises and greatly amused by a comic reading by Mr. Havelock Maplebeck.

SCHOOL EXAMINATIONS AT FOREST GLAN AND MARGARETVILLE.

On Thursday the 14th ult., the school at Forest Glen taught by Mr. Melbourne Clarke, held its half yearly examination, there was a good attendance of scholars and friends, the order was excellent and the whole performance highly creditable.

On Tuesday, 25th ult., the primary department of Margaretvile East school, Miss Ada Lockhart, teacher, held its examination; quite a large number of the children's parents and friends were present. The exercises were very creditable to both teachers and scholars.

NICTAUX RAILWAY.

The following is a report of the Delegation sent to Halifax from the County of Lunenburg last month to interview the Government in regard to the proposed Atlantic Railway, Nictaux and Atlantic Railway.

THE COMPANY'S OFFER. They offer, 1st, to place the whole amount of the liabilities against the road in any bank in Halifax which the Government might name, and to pay off all such liabilities at once.

2nd. To discharge all bonds now issued against the road, and to start with a clean sheet.

3rd. To leave the whole amount of subsidy remaining with the Government until the road was completed and accepted, the Government paying interest thereon as it falls due.

4th. To substitute the steel rails for iron, to build an iron trestle of a wooden bridge at Middleton, and to make, instead of a second class, a road first class in every particular.

THE GOVERNMENT'S CONDITIONS TO WHICH THE COMPANY WOULD ASSENT. 1st. The maximum amount of bonds to be issued by the company to be \$7,500,000 per mile.

2nd. The right of the Government to forfeit the road to themselves, if at any time the Company fail to operate it.

3rd. The right of the Government to possess themselves of the road at any time, at a valuation, such valuation to be arrived at by arbitrators appointed, one by the Government, one by the Company, and the third by the supreme court.

THE COMPANY'S CONDITIONS. 1st. That the maximum amount of bonds permitted them to issue, should be \$10,000,000 per mile to enable them to complete the road.

TELEGRAPH NOTES FOR THE WEEK.

Cape Town, April 30.—Peace has been concluded between the Cape Government and the Boers.

Chicago, April 28.—A special from Elgin, Ill., says: As the ferry boat was crossing Fox River this morning, and was in the middle of the stream, it capsized suddenly. The passengers, who were probably thirty-three were little girls, were swept down the current, uttering shrieks of terror for assistance.

St. Paul, Minn., April 27.—The river is rising rapidly and things look in a serious light. It is known that there were some money letters taken in from 1,500 to 2,000. It is known that there were some money letters taken in from 1,500 to 2,000.

New York, April 26.—Telegrams from Providence this morning state that burglars broke into the Postoffice and carried off all the letters in the office outside the safe, also forty dollars worth of postage stamps.

London, April 27.—There is considerable comment here relative to the absence of Gladstone from the House of Commons. It is generally supposed that the Government have made no reference to his name.

A prominent physician of Pittsburgh has just published a patient who was complaining of his continued ill health, and of his inability to cure his "try try" by the use of Dr. Williams' Pink Pills.

THE PROSPECT.—This will be a great corn season, for the blossoms of the May corn are already tinged, a sign which rarely fails, and farmers need not fear to put into the ground and well-kept soil an abundance of good seed.

Go out in the damp air, or sit unprotected in a draught, and your throat will feel sore and your head uncomfortable. It is a simple remedy which you can remove as promptly as you received it by using Ayer's Pectoral.

A NEW ENTERPRISE.—Mr. W. G. Bech is at present in New Glasgow starting a glass manufactory. The company is to be called the New Glasgow Glass Co. and has a capital of \$100,000, nearly all of which has been subscribed.
