

Criminal Anthropology, Psychology, and Neurology, and will be furnished with instruments and apparatus used in research which will be carried on during the Exposition. The laboratory will also contain diagrams, charts and tables illustrating various researches, particularly those relating to the physical characteristics of the native American peoples, and the comparison of the same with other races. There will also be diagrams illustrating the physical characteristics and the mental and physical development of school children in North America.

6. AN ANTHROPOLOGICAL LIBRARY covering all subdivisions of anthropology and allied sciences. For the purpose of making this library as perfect as possible and to enable students and educators to become acquainted with the mass of literature upon the subject, it is expected that authors, societies, museums, and publishers will contribute their books and papers relating to anthropology or any of its subdivisions, such as archaeology, physical anthropology, psychology, neurology, ethnology, ethnography, primitive and ancient religions, myths, legends, folk-lore, languages, primitive art, primitive manufactures, etc., etc. The transactions, memoirs, journals and proceedings of anthropological, ethnological and archaeological societies and museums, and the special papers ("reprints," "separata") of authors, are particularly desirable. There will be printed as soon as possible a full subject and author catalogue of the library. This catalogue will receive a wide circulation, and as it is intended that it shall be a reference catalogue for students and libraries, the publisher and price of each book and paper, known to be for sale in any country will be given. The library will be carefully and properly arranged in book case in the room devoted to it, and will be given under the special charge of assistants of the department, who will permit the volumes and papers to be referred to in the room and will give information as to their price and how to obtain them of agents, societies and publishers. It will thus be seen that it is the intention to make known through this library the works of all writers upon anthropology so far as possible and that thousands of persons specially or cursorily interested in the subject will have an unrivalled opportunity of finding just the books and papers they wish to obtain.

The library will, after the close of Exposition, be placed in permanent Memorial Museum of Science which is to be established in Chicago. It is therefore particularly requested that each contribution be sent to the Anthropological Library with a presentation slip stating that it is presented to the Columbus Memorial Museum, and the same will be duly acknowledged by the proper authorities when placed in the Museum Library after the close of Exposition. In cases they may occur when contributions to library are sent for use during the Exposition only, all such books or papers must be distinctly indicated by the words, "to be returned" written over the name and address of the owner or sender, and all so marked will be returned free of expense at the close of the Exposition. Every book and paper should be marked with the name and post-office address of the sender. The books and papers can be sent by mail, or through the exchange offices of the Smithsonian Institution as here given.

LIST OF THE FOREIGN CORRESPONDENTS OF THE SMITHSONIAN INSTITUTION ACTING AS ITS AGENTS FOR THE INTERNATIONAL EXCHANGES.

- Algeria: Bureau Français des Echanges internationaux, Paris, France.
 Austria-Hungary: Dr Felix Flügel, No. 1 Robert Schumann Strasse, Leipzig, Germany.
 Brazil: Biblioteca Nacional, Rio Janeiro.
 Belgium; Commission des Echanges Internationaux, Rue du Musée, No 5, Bruxelles.
 Bolivia: Universidad Chuquisaca.
